Bellevue Funds (Lux) - Bellevue Obesity Solutions I USD - Accumulating / LU0415392751 / A0X8YS / Waystone M.Co.

Investment strategy

Without restricting the scope of the term "biotechnology", the companies within the entire value chain in the biotechnology sector consist especially of companies that prepare, develop, utilise, market and/or sell processes, methods, technologies and products in which organisms, cells or cell constituents are used. Up to one third of the net assets can be invested in debt securities of private and government issuers with various terms and credit ratings. The Fund may engage in derivative transactions in order to achieve an efficient portfolio management, in particular also for hedging purposes.

Investment goal

The Fund invests at least two thirds of the net assets of Bellevue Biotech in a portfolio of carefully chosen shares and other equity securities of companies in the biotechnology industry or companies whose main activity involves holding investments in such companies or financing such companies and that have their registered office or carry out the majority of their economic activity in recognised countries.
