Investment strategy

The Fund invests primarily in debt instruments denominated in any currency (including but not limited to debt issued by companies, governments, quasisovereigns and securitized debt). The Fund intends to gain exposure to investment grade (higher quality) and noninvestment grade (lower quality) debt instruments. The Fund may invest in debt instruments which are in financial distress (distressed securities). The Fund may also gain exposure to the loans market through derivatives and other eligible complex instruments. The Fund may use securities lending for efficient portfolio management purposes.

Investment goal

The objective of the Fund is to maximise total return over a market cycle. The Fund employs a multi-sector approach with a flexible allocation to credit rates and currencies.
