Invesco US Senior Loan Fund HHX / LU0981926206 / A3CYD3 / Invesco Management

Investment strategy

The Fund is actively managed and is not constrained by its benchmark, Credit Suisse Leveraged Loan Index (Total Return), which is used for comparison purposes. However, as the benchmark is a suitable proxy for the investment strategy, it is likely that some of the issuers in the Fund are also components of the benchmark. As an actively managed fund, this overlap will change and this statement may be updated from time to time.

Investment goal

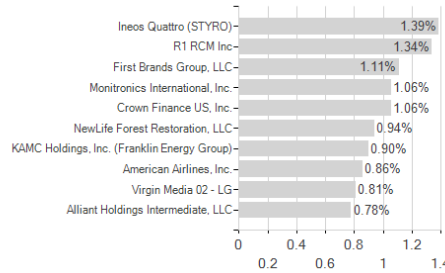

The objective of Invesco US Senior Loan Fund (the "Fund") is to provide a high level of current income, consistent with the preservation of capital. The Fund will invest at least 75% of the actually invested assets ("primarily") in senior loans ("Senior Loans"). In addition, the Fund will invest primarily in the United States or Canada. Senior Loans include all secured debt, including but not limited to first lien loans, second lien loans, delayed draw term loans, revolving loans, collateralized loan obligations, debtor in possession loans, bridge loans, exit term loans, mezzanine loans, senior fixed rate bonds, floating rate notes, second lien bonds, and other forms of senior secured loans and bonds.
