What is this product?

Type

This product is an investment fund.

Term

The Fund is established for an unlimited duration, with the possibility for the Board of Directors to decide the termination of the Fund at its sole discretion.

Objectives

Fund of Mandates North American Equities belongs to the category of Fund of Mandates.

The Fund seeks to increase the value of its assets over the long term by investing predominantly in transferable equity securities such as equities, other equity shares such as co-operative shares and participation certificates issued by, or warrants on transferable equity securities of, companies which are domiciled in or exercise the predominant part of their economic activity in North America.

The minimum asset allocation in such securities on a consolidated basis (direct and indirect investments) will be of 60% of the Fund's net assets.

Moreover, the minimum Fund's investment in equity securities will be of 75% of the Fund's net assets.

Investments in debt securities will not exceed 15% of its net assets.

The Fund may invest for maximum 10% of its net assets in funds that have been selected in accordance with a number of qualitative and quantitative criteria.

This Fund is actively managed and is compared to the MSCI USA TR Net for performance and risk level indicator purposes. However, the reference to this index does not constitute any objective or limitation in the management and composition of the portfolio and

the Fund does not restrain its universe to the index components. Therefore returns may deviate materially from the performance of the reference index.

Choice of the underlying strategies and composition of the portfolio are not defined or restricted by the components of the index. The manager will not seek to limit the level of deviation of the portfolio in regards to the index but due to the Fund combining multiple active strategies on a discretionary basis, the risk and return profile of the Fund will be comparable to the index. The expected return of deviation between the fund and the benchmark (the tracking error) of the Fund will be moderate.

The base currency of the Fund is USD.

Income is systematically reinvested.

Investors are able to redeem on a daily basis (on Luxembourg bank business days).

Intended retail investor

This product is intended for investors who plan to stay invested for at least 5 years and are prepared to take on a medium-high level of risk of loss to their original capital in order to get a higher potential return. It is designed to form part of a portfolio of investments.

What happens if ABN AMRO Funds Fund of Mandates North American Equities is unable to pay out?

If we are not able to pay you out what we owe you, you are not covered by any national compensation scheme. To protect you, the assets are held with a separate company, a depository. Should we default, the depository would liquidate the investments and distribute the proceeds to the investors. In the worst case, however, you could lose your entire investment.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario,

- 10,000 EUR is invested.

| Example Investment 10,000 EUR | if you exit after 1 year | if you exit after 5 years (recommended holding period) |
|-------------------------------|--------------------------|---|
| Total Costs | 712 EUR | 1,158 EUR |
| Annual cost impact* | 7.1% | 2.6% each year |

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 12.4% before costs and 9.8% after costs.

Composition of costs

| One-off costs upon entry or exit | | Annual cost impact if you exit after 1 year |
|--|--|---|
| Entry costs | 5.00% of the amount you pay in when entering this investment. This is the most you will be charged. The person selling you the product will inform you of the actual charge. | Up to 500 EUR |
| Exit costs | 1.00% of your investment before it is paid out to you. This is the most you will be charged. The person selling you the product will inform you of the actual charge. | 100 EUR |
| Ongoing costs taken each year | | Annual cost impact if you exit after 1 year |
| Management fees and other administrative or operating costs | 0.93% of the value of your investment per year. This is an estimate based on actual costs over the last year. | 93 EUR |
| Transaction costs | 0.19% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell. | 19 EUR |
| Incidental costs taken under specific conditions | | Annual cost impact if you exit after 1 year |
| Performance fees | There is no performance fee for this product. | 0 EUR |
