Accurate as of: 12 April 2024

What is this product?

Type

This product is an investment fund.

Term

The Fund is established for an unlimited duration, with the possibility for the Board of Directors to decide the termination of the Fund at its sole discretion.

Objectives

Robeco Euro ESG Government-Related Bonds belongs to the category of Single Manager Funds.

The Fund seeks to increase the value of its assets over the medium term by investing predominantly in investment grade euro denominated government-related bonds and securities treated as equivalent to bonds issued or guaranteed by a member state of the European Union being part of the euro zone such as fixed-income and floating rate bonds, and also in derivatives on this type of asset.

The minimum asset allocation in such securities will be of 60% of the Fund's net assets (after deduction of the Fund's cash).

The Fund may invest in financial derivative instruments for hedging and optimal portfolio management purposes but also to actively take positions in the global bond market.

Sustainable Investment Policy The Sub-Fund promotes environmental and social characteristics and qualifies as an investment product in accordance with article 8(1) of Regulation (EU) 2019/2088 on sustainability related disclosures in the financial services sector as set out in Book I.

In that respect, the eligible universe is determined using the following criteria: (i) Exclusion filters which exclude from the initial universe issuers and activities that might have a negative effect on society and environment or human rights (activities and norm-based exclusions). When it comes to corporates bonds, are excluded certain controversial activities such as, but not limited to, weapons production, tobacco producers and sellers, GMOs, Gambling, adult entertainment, cannabis for recreational purpose, arctic drilling, shale gas, oil sands, coal mining etc (subject to certain thresholds as per Book I of the Prospectus). Issuers that are "Non-compliant" with the UN Global compact are also excluded. When it comes to Government bonds, are excluded bonds from countries that have not ratified the following international treaties and conventions: Treaty on Non-Proliferation of nuclear weapons, ILO n° 182 on the Worst forms of Child Labour and Paris Agreement on Climate change (listed as per Book I of the Prospectus) (ii) An ESG

selection approach, that is based on the External Investment Manager's scoring methodologies based on proprietary Country and Company SDG Frameworks, assigning issuers with a SDG Score (ranging from -3 to +3). Only issuing entities with a neutral or positive SDG score will be considered for inclusion in the portfolio. Green and social bonds follow a five-step eligibility process and only bonds that have a positive score on each of these criteria will be eligible for investment.

The ESG selection process, along with the exclusions, will result in reducing the initial scope of investment by at least 20%, removing investments that do not qualify (exclusions and/or ESG selection).

The extra-financial analysis covers at least 90% of the portfolio. The derivative instruments are not covered by the ESG analysis.

Relation to the Reference Portfolio This Fund is actively managed and is compared to the Bloomberg Euro Government Related 1-10 Years Index for performance and risk level indicator purposes. However, the reference to this Reference Portfolio does not constitute any objective or limitation in the management and composition of the portfolio and the Fund does not restrain its universe to the Reference Portfolio's components.

The Reference Portfolio does not evaluate or include its constituents on the basis of environmental and/or social characteristics and is therefore not aligned with the ESG characteristics promoted by the sub-fund.

The base currency of the Fund is EUR.

Income is systematically reinvested.

Investors are able to redeem on a daily basis (on Luxembourg bank business days).

Intended retail investor

This product is intended for investors who plan to stay invested for at least 3 years and are prepared to take on a low level of risk of loss to their original capital in order to get a higher potential return. It is designed to form part of a portfolio of investments.

Practical information

Custodian Bank State Street Bank International GmbH, Luxembourg Branch.

Further information Further information about the Fund, the prospectus and the latest annual and semi-annual report may be obtained free of charge, in English, from the Management Company, the local agents or online at www.abnamroinvestmentsolutions.com.

What are the risks and what could I get in return?

Risks

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: this type of scenario occurred for an investment between February 2020 and February 2023.

Moderate: this type of scenario occurred for an investment between May 2018 and May 2021.

Favourable: this type of scenario occurred for an investment between December 2013 and December 2016.

Recommended holding period		3 years	
Example Investment		10,000 EUR	
Scenarios		if you exit after 1 year	if you exit after 3 years (recommended holding period)
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs Average return each year	7,700 EUR -23.0%	7,780 EUR -8.0%
Unfavourable	What you might get back after costs Average return each year	8,210 EUR -17.9%	8,090 EUR -6.8%
Moderate	What you might get back after costs Average return each year	9,460 EUR -5.4%	9,690 EUR -1.0%
Favourable	What you might get back after costs Average return each year	10,110 EUR 1.1%	10,400 EUR 1.3%

What happens if ABN AMRO Funds Robeco Euro ESG Government-Related Bonds is unable to pay out?

If we are not able to pay you out what we owe you, you are not covered by any national compensation scheme. To protect you, the assets are held with a separate company, a depositary. Should we default, the depositary would liquidate the investments and distribute the proceeds to the investors. In the worst case, however, you could lose your entire investment.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario,
- 10,000 EUR is invested.

Example Investment 10,000 EUR	if you exit after 1 year	if you exit after 3 years (recommended holding period)
Total Costs	651 EUR	753 EUR
Annual cost impact*	6.5%	2.5% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 1.5% before costs and -1.0% after costs.

Composition of costs

One-off costs upon entry or exit		Annual cost impact if you exit after 1 year
Entry costs	5.00% of the amount you pay in when entering this investment. This is the most you will be charged. The person selling you the product will inform you of the actual charge.	Up to 500 EUR
Exit costs	1.00% of your investment before it is paid out to you. This is the most you will be charged. The person selling you the product will inform you of the actual charge.	100 EUR
Ongoing costs taken each year		Annual cost impact if you exit after 1 year
Management fees and other administrative or operating costs	0.43% of the value of your investment per year. This is an estimate based on actual costs over the last year.	43 EUR
Transaction costs	0.08% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	8 EUR
Incidental costs taken under specific conditions		Annual cost impact if you exit after 1 year
Performance fees	There is no performance fee for this product.	0 EUR

How long should I hold it and can I take money out early?

Recommended holding period: 3 years

This product is designed for longer term investments; you should be prepared to stay invested for at least 3 years. However, you can redeem your investment without penalty at any time during this period, or hold the investment longer. Redemptions are possible on every bank business day in Luxembourg; it will take 2 working days for you to be paid. The price for the day, reflecting the actual value of the fund, is set each day at noon, and published on our website www.abnamroinvestmentsolutions.com.

How can I complain?

You can send your complaint to the fund's management company at 119-121 boulevard Haussmann, 75008 Paris, France or by e-mail to aais.contact@fr.abnamro.com.

If you have a complaint about the person that advised you about this product, or who sold it to you, they will tell you where to complain.

Other relevant information

Cost, performance and risk The cost, performance and risk calculations included in this key information document follow the methodology prescribed by EU rules. Note that the performance scenarios calculated above are derived exclusively from the past performance of the Company's share price and that past performance is not a guide to future returns. Therefore, your investment may be at risk and you may not get back the returns illustrated.

Investors should not base their investment decisions solely upon the scenarios shown.

Performance scenarios You can find previous performance scenarios updated on a monthly basis at www.abnamroinvestmentsolutions.com.

Past performance You can download the past performance over the last 4 years from our website at www.abnamroinvestmentsolutions.com.

Additional information Further information about the Fund, the prospectus and the latest annual and semi-annual report may be obtained free of charge, in English, from the Management Company, the local agents or online at www.abnamroinvestmentsolutions.com.
