What is this product?

Type

This product is an investment fund.

Term

The Fund is established for an unlimited duration, with the possibility for the Board of Directors to decide the termination of the Fund at its sole discretion.

Objectives

Insight Euro ESG Corporate Bonds belongs to the category of Single Manager Funds.

The Fund seeks to increase the value of its assets over the medium term by investing indirectly in euro denominated investment grade corporate bonds and/or other corporate debt instruments. The minimum asset allocation in such securities will be of 60% of the Fund's net assets.

Selection of investments will rely on a combination of extra-financial (Environment, Social and Governance) and financial criteria. The Fund promotes environmental and social characteristics and qualifies as an investment product in accordance with article 8(1) of Regulation (EU) 2019/2088 on sustainability related disclosures in the financial services sector. The portfolio will be composed of issuers that are either leading in ESG best-practice or attractive due to their progression in ESG. The eligible universe is determined by the combination of exclusion filters and selectivity approach (best in class). In that respect, the ESG process is based on the following criterias: ESG ratings (based on Insight proprietary ESG ratings), Norms-based (UN Global Compact violaters are excluded) and a screening process.

the Fund will comply with the exclusions rules of the Fund manager applicable to article 8 investment products. Next to the Management Company's exclusion lists, the Fund will not invest in companies that have a strategic involvement in Alcohol production.

100% of the bonds in the portfolio receives extra-financial analysis except cash and cash funds. The ESG coverage depends of reported informations from companies and constrained by companies disclosures. An unavailable informations would impact the ability to do proper ESG research.

In addition, the Fund may invest up to 40% of its total net assets in other debt instruments or securities.

Selection of investments will rely on a combination of extra-financial (Environment, Social and Governance) and financial criteria.

To achieve its investment objective, the Fund may invest in derivatives for exposure and hedging purposes.

After hedging, the exposure to currencies other than the euro may be minimised.

This Fund is actively managed and is compared to the Bloomberg Barclays Euro Aggregate Corporate for performance and risk level indicator purposes. However, the reference to this index does not constitute any objective or limitation in the management and composition of the portfolio and the Fund does not restrain its universe to the index components. The index does not evaluate or include its constituents on the basis of environmental and/or social characteristics and is therefore not aligned with the ESG characteristics promoted by the Fund.

Therefore returns may deviate materially from the performance of the reference index.

The base currency of the Fund is EUR.

Income is systematically reinvested.

Investors are able to redeem on a daily basis (on Luxembourg bank business days).

What happens if ABN AMRO Funds Insight Euro ESG Corporate Bonds is unable to pay out?

If we are not able to pay you out what we owe you, you are not covered by any national compensation scheme. To protect you, the assets are held with a separate company, a depositary. Should we default, the depositary would liquidate the investments and distribute the proceeds to the investors. In the worst case, however, you could lose your entire investment.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario,
- 10,000 EUR is invested.

| Example Investment 10,000 EUR | if you exit after 1 year | if you exit after 3 years (recommended holding period) |
|-------------------------------|--------------------------|---|
| Total Costs | 666 EUR | 799 EUR |
| Annual cost impact* | 6.6% | 2.8% each year |

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 3.1% before costs and 0.3% after costs.
