What is this product?

Type

Seabury Sterling Liquidity 2 Fund (the "Fund") is a Sterling denominated sub-fund of a SICAV (société d'investissement à capital variable), abrdrn Liquidity Fund (Lux), incorporated in Luxembourg.

Term

abrdrn Liquidity Fund (Lux) (the "Company") has no maturity date. The Fund and the Company may not be unilaterally terminated by abrdrn Investments Luxembourg S.A.

Objective

The Fund's objective is to preserve capital and provide liquidity whilst aiming to provide a return in line with prevailing short term money market rates for which SONIA has been chosen as a performance comparator.

Portfolio Securities

- The Fund invests in high quality Sterling money market instruments.
- The Fund invests in securities with an outstanding term to maturity of no more than 397 Days. The entire Fund must have a weighted average maturity of no more than 60 days and a weighted average life of no more than 120 days.
- The Fund may have exposure to assets which have zero or negative yields in adverse market conditions.

Management Process

- The Fund is actively managed.
- abrdrn integrate environmental, social and governance (ESG) considerations within the investment process. A comprehensive analysis of ESG factors is therefore performed at the credit quality assessment stage of the investment process. Details on the Fixed Income ESG Integration Approach are published at www.abrdrn.com under "Sustainable Investing".
- The Fund qualifies as a Money Market Fund under the Money Market Funds Regulation (EU) 2017/1131 (MMF Regulation) and more specifically as a Short Term Variable Net Asset Value Money Market Fund.

Derivatives and Techniques

- The Fund will not ordinarily use derivatives but may use other investment techniques to enhance the value of the Fund, including transactions that relate to the sale and repurchase (known as "reverse repos") of an asset over a short period of time.

This fund is subject to Article 6 of the Sustainable Finance Disclosure Regulation ("SFDR").

Investors in the fund may buy and sell shares on any dealing day (as defined in the Prospectus). If you invest in income shares, income from investments in the fund will be paid out to you. If you invest in accumulation shares, income will be added to the value of your shares.

Intended Retail Investor

Investors invested via Phoenix Group only. Investors with basic investment knowledge. Investors wanting to preserve capital. Investors wanting an income and to preserve capital over the short term (less than 1 year). The Fund has specific and generic risks with a risk rating as per the risk indicator. The Fund is intended for general sale to retail and professional investors through all distribution channels with or without professional advice. The Fund's depositary is Citibank Europe plc Luxembourg Branch. The prospectus, the articles of association, the annual reports and interim reports may be obtained free of charge from our website or via the contact details in 'Other relevant information'. What are the risks and what could I get in return?

Risk Indicator

1	2	3	4	5	6	7
---	---	---	---	---	---	---

Lower risk

Higher risk

The risk indicator assumes you keep the product for 6 months. The actual risk can vary significantly if you sell it at an earlier stage. The value of investments and the income from them can go down as well as up, and you may get back less than you invested.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 1 out of 7, which is the lowest risk class. This rates the potential losses from future performance at a very low level, and poor market conditions are very unlikely to impact our capacity to pay you.

Where the currency of the country where you are resident is different to the currency of the product, **please be aware of currency risk**. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Further information on risks is detailed in the prospectus available at www.abrdrn.com or on request from the management company.

This product does not include any protection from future market performance or any capital guarantee against credit risk, so you could lose some or all of your investment.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product / a suitable benchmark over the last 5.5 years. The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

Recommended holding period:		0.5 year
Example Investment:		10,000 GBP
		If you exit after 0.5 year
Scenarios		
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.	
Stress	What you might get back after costs	9,970 GBP
	Average return each year	-0.3%
Unfavourable	What you might get back after costs	9,990 GBP
	Average return each year	-0.1%
Moderate	What you might get back after costs	10,000 GBP
	Average return each year	0.0%
Favourable	What you might get back after costs	10,010 GBP
	Average return each year	0.1%

The figures shown include all the costs of the product itself, and includes the costs of your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

The unfavourable scenario occurred in the benchmark between April 2022 and September 2022. The moderate scenario occurred in the benchmark between March 2015 and August 2015. The favourable scenario occurred in the benchmark between July 2023 and December 2023.

What happens if the Company is unable to pay out?

There is no financial compensation scheme for retail investors in SICAVs domiciled in Luxembourg. In the absence of a compensation scheme applicable to investments in the Fund, investors may face a financial loss of up to their entire investment amount.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- 10,000 GBP is invested.

	If you exit after 0.5 year
Total costs	2 GBP
Cost impact (*)	0.0%

* This illustrates the effect of costs over a holding period of less than 1 year. This percentage cannot be directly compared to the cost impact figures provided for other PRIIPs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.
