# Incorporation

abrdn SICAV II (the Company) was incorporated as a "société d'investissement à capital variable" (SICAV) on 16 November 2000 for an unlimited period and commenced operations on 1 December 2000. It is registered under number B 78.797 with the Luxembourg Trade and Companies Register.

As at 30 June 2024, the Company has issued shares in the following sub-funds:

- Emerging Market Local Currency Debt Fund
- Euro Corporate Bond Fund
- Euro Corporate Sustainable Bond Fund
- Euro Government All Stocks Fund
- European Smaller Companies Fund
- Global Corporate Bond Fund
- Global High Yield Bond Fund
- Global Impact Equity Fund
- Global Income Bond Fund
- Global Inflation-Linked Government Bond Fund
- Global Real Estate Securities Sustainable Fund
- Global Risk Mitigation Fund
- Global Short Dated Corporate Bond Fund
- Global Smaller Companies Fund
- Macro Fixed Income Fund
- Multi-Asset Climate Opportunities Fund

The full name of each sub-fund is constituted by the name of the Company, abrdn SICAV II, followed by a hyphen and then the specific name of the sub-fund. Throughout the Financial Statements, the sub-funds are referred to by their short names as indicated above.

No subscriptions can be received on the basis of this document. Subscriptions are only valid if made on the basis of the current prospectus or on the Key Investor Information Document, accompanied by a copy of the latest annual report or of the subsequent semi-annual report if it has been published.

Please see the Notes to the Financial Statements for changes during the period.

## **Statement of Changes in Portfolio**

A statement giving the changes in the Schedule of Investments for the period ended 30 June 2024 can be obtained free of charge from the registered office of the Company.

# Report of the Board of Directors

As at 30 June 2024, the total net assets of abrdn SICAV II (the "Company") stood at USD 12,064,500,000.

The Company aims to provide the shareholder with a choice of professionally managed sub-funds investing in a wide range of transferable securities and/or other permitted assets in order to achieve an optimum return from capital invested, while reducing investment risk through diversification. As at 30 June 2024, there are 16 active sub-funds in total, each with its own specific investment objectives and individual portfolios, offering investors the opportunity of exposure to selected areas or to conveniently build a diversified global stock and bond portfolio to meet specific investment goals.

The overall strategy of the Company and the separate sub-funds is to seek diversification through investment primarily in transferable securities.

The Board of Directors adheres to the Association of the Luxembourg Fund Industry ("ALFI") code of conduct for Luxembourg investment funds (revised June 2022). The code of conduct sets a framework of high-level principles and best practice recommendations for the governance of Luxembourg investment funds. The Board considers that it has been in compliance with the Principles of the Code in all material respects for the period ended 30 June 2024.

## **The Board of Directors**

**Luxembourg, 20 August 2024**

# Global Overview

## Global equities

Global equity markets performed well in the first half of 2024. Share prices were supported by a softening of inflationary pressures underpinned by rate hikes across Western economies that were both faster and more robust than expected. In turn, this gave investors reason to believe that borrowing costs could start to come down in the latter stages of 2024. Furthermore, economic growth was healthier than anticipated, which eased concerns about higher interest rates triggering a recession. That said, investors remained wary throughout the review period, with, for instance, share prices dipping in April amid concerns that persistent inflation would see interest rates staying higher for an extended period. Equities recovered their poise when the European Central Bank (ECB) lowered its primary refinancing operations rate in June. This was coupled with some encouraging company earnings results.

## UK

The UK stock market, as represented by the FTSE All-Share Index, touched a record high during the review period, with the large-cap FTSE 100 Index outpacing the domestically oriented FTSE 250 Index. However, the defensive bias of the FTSE 100 meant that it trailed most global peers, which contain a more significant portion of growth constituents. However, the FTSE 100 also features some leading mining and energy names, which added value amid elevated commodity prices. On the other hand, smaller companies failed to gain momentum, given concerns about the health of the UK and the global economies. Still, they did improve in the latter stages of the review period as investors grew more confident in the country's growth prospects. Indeed, the government felt the same and called a surprise general election to try and harness the more buoyant economic climate. In policy news, the Bank of England (BoE) maintained the base rate at 5.25%, the highest in 16 years. Consequently, consumer inflation in the UK reached the BoE's 2% target when it fell to 2.0% in May from 2.3% in April.

## US

US share prices also made robust gains during the review period. In particular, stocks in the technology segment did well, led by companies closely associated with artificial intelligence themes. Another supporting factor was the prospect of lower interest rates, given that tech-focused firms are more disposed to cheaper borrowing costs as it positively impacts their future discounted earnings. In other developments, the healthy nature of the US economy saw the US Federal Reserve (Fed) maintain the fed funds rate target range at 5.25-5.50%. Drilling deeper, US share prices rose in the first half of the review period as investors eyed easing inflation positively, believing it could lead to lower interest rates. However, the upbeat tone was more measured in April, when a surprisingly high inflation reading for the first three months of 2024 triggered concerns that borrowing costs might not come down as quickly as hoped. Share prices resumed their upward momentum in the final two months of the period as investors again turned their attention to the prospect of rate cuts by the close of 2024. Stronger-than-anticipated company earnings also helped underpin the optimistic market tone.

## Europe

In tandem with the UK and US, share prices in Europe moved higher during the review period, with the market's mood lifted by easing inflation that was softened by lower energy costs. The latter was helped by improving energy-supply-chain challenges. Surprising economic strength and reduced unemployment also proved helpful. The initial three months of 2024 were positive for European investors; however, the mood was more sober in April when persistently high inflation sowed doubts that borrowing costs might not fall as soon as anticipated. The downbeat tone failed to linger into May and June, as the potential for rate cuts increased and upbeat company earnings helped improve investor sentiment. Turning to political and policy news, French President Emmanuel Macron responded to the surprise defeat of his centrist alliance in June's European Parliament elections by calling a general election. This, along with worries about France's fiscal health and European Union stability, saw French equities plunge. Meanwhile, the ECB maintained its base rate at 4.50% for the bulk of the period under review in an attempt to rein in inflation. Then, in June, the ECB reduced borrowing costs to 4.25%. The same month also saw eurozone inflation dip to 2.5% year on year. Lastly, first-quarter GDP growth for the euro area was a better-than-predicted 0.3%.

## Asia Pacific

Asia Pacific (excluding Japan) stocks climbed in the first six months of 2024 as investors reacted positively to signals that elevated inflation had peaked and was moving lower. In turn, this assuaged concerns about a global downturn. The main laggard over the review period was China, where the challenges faced by its real-estate sector, assertive regulatory action and US-related trade tensions kept share prices in check. In response, the Chinese government and central bank launched a number of policies designed to raise market confidence. On the other hand, share prices in South Korea and Taiwan made healthy gains, given the strong presence of technology-related firms in these markets.

Turning to Japan, the TOPIX Index delivered a solid return. The country has not contended with the same inflationary challenges as other markets, meaning that the Bank of Japan (BoJ) maintained interest rates at -0.1% in the initial stages of the period. However, the central bank increased its key short-term interest rate to around 0-0.1% at its March meeting. The BoJ also terminated its policy of yield-curve control. Against this backdrop of accommodative monetary policy, Japan's currency, the yen, lost value, which prompted the BoJ to intervene in the currency market. Regarding growth,

# Global Overview (continued)

Japan's economy retreated by 0.5% quarter on quarter in the first three months of 2024. This weakness was underpinned by softer consumer activity and negative net trade. Investors balanced this news with a series of positive earnings results.

## Emerging markets

Emerging market equities delivered positive returns in the six months under review. That said, returns were behind those in developed markets, given the instability at the beginning of the year, which was prompted by weakness in China. However, share prices in China subsequently moved higher as the government and the People's Bank of China introduced policies to boost the economy. Despite these moves, Chinese equities underperformed other markets.

In the final stages of the review period, investor sentiment was lifted by news of softer-than-anticipated inflation in the US. The tech rally in Taiwan, led by artificial-intelligence-related themes, added further support. In political developments, there were elections in various leading emerging markets, with Indian stocks, for instance, boosted when re-elected Prime Minister Narendra Modi signaled that his new government would maintain the country's existing political policy framework. On the other hand, a landslide win for the ruling party in Mexico prompted worries about constitutional change and a new fiscal policy direction.

## Bond markets

Global government bonds ended the review period moderately lower. Investor attention was focused on the prospect of interest-rate cuts this year, with the ECB, Bank of Canada and Swiss National Bank having already lowered their borrowing costs. The Fed kept the target rate for the federal funds rate unchanged at 5.00-5.25%, anticipating one interest-rate reduction prior to the year-end. In the UK, the BoE held the base rate at 5.25%. Like the US, we could see a rate cut from the BoE over the next few months. In Europe, the ECB made no changes to interest rates in the first five months of the period. In June, though, it revealed a 0.25% decrease in its main refinancing rate to 4.25%. Conversely, in March, the BoJ increased its key short-term interest rate from -0.1% to 0-0.1% and concluded its yield-curve-control policy for 10-year government bonds.

Corporate bonds performed more robustly than their government counterparts, with investment-grade issuance trailing high-yield bonds. In particular, investment-grade bonds were more affected by sentiment around changing interest rates than the high-yield market, which had a stronger connection to the improving economic climate and more appealing yields.

Overall, credit spreads, which is the additional yield investors gain by lending to riskier companies than governments, were tighter throughout the review period as investors became more comfortable with risk. The perceived financial health of companies also helped the investment-grade market amid the improving economic backdrop.

## Outlook

Investors are coming to terms with the fact that the Fed interest-rate reductions will be pushed back. They are also cognisant that the number of cuts will be lower than anticipated. For instance, the minutes from the Fed's June policy meeting showed that the bulk of policymakers think the US central bank will introduce only one cut in 2024, followed by a further four in 2025. For the UK, even though consumer inflation dipped to 2.0% in May, the BoE opted to keep interest rates unchanged. However, it did suggest a reduction may be in the offing by August. And in Europe, market participants are eyeing a further rate cut in the autumn. Finally, the emerging market outlook remains upbeat. It tends to be the case that when the Fed trims interest rates, the central banks of many emerging economies will do the same – moves made easier by easing inflationary forces across many territories. Coupled with this will be the positive momentum emanating from developments in the technology sphere and the near-shoring trend.

The Morningstar Analyst Rating for Funds is a forward-looking analysis of a fund. Morningstar has identified five key areas crucial to predicting the future success of a fund: People, Parent, Process, Performance, and Price. The pillars are used in determining the Morningstar Analyst Rating for a fund. Morningstar Analyst Ratings are assigned on a five-tier scale running from Gold to Negative. The top three ratings, Gold, Silver, and Bronze, all indicate that our analysts think highly of a fund; the difference between them corresponds to differences in the level of analyst conviction in a fund's ability to outperform its benchmark and peers through time, within the context of the level of risk taken over the long term. Neutral represents funds in which our analysts don't have a strong positive or negative conviction over the long term and Negative represents funds that possess at least one flaw that our analysts believe is likely to significantly hamper future performance over the long term. Long term is defined as a full market cycle or at least five years. Past performance of a security may or may not

<sup>‡</sup> This sub-fund is not authorised in Hong Kong and is not available to Hong Kong residents.

<sup>†</sup> Source: abrdn plc. The other operating charges figure (OOC) is the total expenses paid by each share class, against its average net asset value. This includes the annual management charge, the other operating expenses and any synthetic element to incorporate the ongoing charges of any underlying qualifying investments. The OOC can fluctuate as underlying costs change. Where underlying costs have changed, the OOC disclosed in the Key Information Document will be updated to reflect current changes.

<sup>1</sup> See note 11.

<sup>2</sup> Currency was GBP until 30 June 2022 and USD since 01 July 2022.

# Notes to the Financial Statements

## 1. Presentation

### a) Organisation

abrdrn SICAV II (the "Company") was incorporated under the laws of the Grand Duchy of Luxembourg on 16 November 2000 as a "Société d'Investissement à Capital Variable" ("SICAV") with multiple sub-funds for an unlimited period.

The Company has received approval from the Luxembourg authorities for registration under Part I of the law of 17 December 2010, as amended, relating to Undertakings for Collective Investment in Transferable Securities (the "UCITS Law") in conformity with Directive 2009/65/EC (the "UCITS Directive"). The Company is not a self-managed SICAV. A management company was appointed on 1 July 2013.

The legal notice ("notice légale") required by Luxembourg laws in connection with the issue and sale of shares in the Company has been deposited with the Registrar of the District Court of Luxembourg (the "Registrar"). The Company's articles of incorporation have also been deposited with the Registrar and have been published in the Recueil des Sociétés et Associations (the "Mémorial") on 19 December 2000. The Company has been registered under number B 78.797 at the Luxembourg Trade and Companies Register.

The Company's financial year starts on 1 January and ends on 31 December of each year.

As at 30 June 2024, there were 16 separate active sub-funds, providing shareholders with the opportunities for investment in a wide variety of markets, securities, and currencies.

### b) Presentation of the financial statements

The accompanying financial statements present the assets and liabilities of the individual sub-funds and of the Company taken as a whole. The financial information of each individual sub-fund is expressed in the currency designated in the prospectus for that particular sub-fund and the combined statements of the Company are expressed in US Dollars ("USD"). The financial statements have been prepared in accordance with Luxembourg GAAP, applicable to Undertakings for Collective Investment Funds, and with the format prescribed by the Luxembourg authorities for Luxembourg investment companies.

The combined statements were calculated on the basis of aggregation of individual sub-funds statements with no elimination of cross-investments if any. As of 30 June 2024, the cross-investments within the Company represent USD 6,360,918, or 0.05% of the combined net asset value of the Company.

As the financial statements are produced at a valuation point that is different from the daily dealing Net Asset Values ("NAVs") calculated on 30 June 2024, the NAVs shown throughout the report may differ from those advertised on 28 June 2024 for dealing in the sub-funds. Those NAVs may include dividend declarations effective for the distribution on 30 June 2024 and certain accounting adjustments relating to the period ended 30 June 2024.

The financial statements of the sub-funds have been prepared on a going concern basis.

## 2. Accounting policies

### a) Accounting convention

These financial statements are prepared in accordance with Luxembourg regulations applicable to Undertakings for Collective Investment Funds. The financial statements have been prepared under the historical cost convention modified by the revaluation of investments, except for the sub-funds which will be closed post period-end detailed in the table below:

Sub-funds	Base currency	Closure date
Euro Government All Stocks Fund	EUR	21 August 2024
Multi-Asset Climate Opportunities Fund	EUR	12 September 2024

To reflect the application of the non-going concern basis of accounting, the Funds listed in the table above, which will be closed post period-end, have been valued at their net realisable value, or bid value, at the balance sheet date.

Below is a reconciliation of the NAV of the Funds between their official pricing point on 30 June 2024 and as shown in the financial statements:

### b) Investment valuation

In determining the value of the assets of the Company, each security and money market instrument listed on a recognised stock exchange or dealt on any other regulated market that operates regularly, is recognised and is open to the public, will be valued at their latest available prices at close of business on 30 June 2024. In the event there should be several such markets, they will be valued on the basis of their latest available prices on the main market for the relevant security.

Securities and money market instruments not listed or traded on a stock exchange or not dealt on another regulated market will be valued at their fair value at which it is expected they may be resold as determined prudently and in good faith by the Board of Directors. Suspended or delisted securities held at 30 June 2024 have been valued at fair value as instructed by the Valuation and Pricing Committee, details of these securities are included in Schedule of Investments.

All other securities and other assets will be valued at fair market value as determined in good faith pursuant to procedures established by the Board of Directors.

In the event that the latest available price does not, in the opinion of the Board of Directors, truly reflect the fair market value of the relevant securities and money market instruments, the value of such securities will be defined by the Board of Directors based on the reasonably foreseeable sales proceeds determined prudently and in good faith.

In accordance with the Company prospectus, the fair value adjustment mechanism is applicable whenever a triggering event occurs. During the period, no fair value adjustments were applied to any of the sub-funds.

Mortgage and other asset backed securities are independently priced using appropriate models and certain corporate bonds may be priced using indicative broker quotes.

The liquidating value of future, forward or options contracts, if any, traded on exchanges or on other regulated markets shall be based upon the last available settlement prices of these contracts on exchanges and regulated markets on which the particular future, forward or options contracts are traded by the Company; provided that if a future, forward or options contract could not be liquidated on the day with respect to which net assets are being determined, the basis for determining the liquidating value of such contract shall be such value as the Board of Directors may deem fair and reasonable.

# Notes to the Financial Statements (continued)

## 2. Accounting policies (continued)

### c) Investment income

Interest is accrued on a day-to-day basis. In the case of debt securities issued at a discount or premium to maturity value, the total income arising on such securities, taking into account the amortisation of such discount or premium on an effective interest rate basis, is spread over the life of the security.

Interest income on bonds may be received either in cash or as a Payment in Kind ("PIK"). Where a PIK bond settles physically (either because it matures, or it pays interest) the interest income is recognised as the lower of the market value and the nominal value of the settlement.

In the event where there is no physical settlement, the factor change on that holding is recognised as interest income in the Statement of Operations and Changes in Net Assets at the point when the factor change occurs.

Dividends are accounted for on an ex-dividend basis. Interest and dividend income are stated net of irrecoverable withholding taxes, if any.

Bank interest income is accounted for on an accrual basis. It is composed of interest on bank account and interest on term deposits.

### d) Foreign exchange

The books and records of each sub-fund are denominated in the base currency of the corresponding sub-fund. Amounts denominated in other currencies are translated into the base currency on the following basis:

(i) investment valuations and other assets and liabilities initially expressed in other currencies are converted on each business day into the base currency using exchange rates prevailing on each business day; and

(ii) purchases and sales of foreign investments, income and expenses are converted into the base currency using currency exchange rates prevailing on the respective dates of such transactions.

The combined statements correspond to the sum of the statements of each sub-fund, converted to USD. The combined figures in the Statement of Operations and Changes in Net Assets have been calculated using the exchange rates ruling at the period-end date. The resulting foreign exchange adjustment of USD (202,081,000) represents the movement in exchange rates between 31 December 2023 and 30 June 2024. This is a notional amount, which has no impact on the net assets of the individual sub-funds.

Realised and unrealised exchange differences on the revaluation of foreign currencies are taken to the Statement of Operations and Changes in Net Assets.

Main exchange rates used as at 30 June 2024 are as follows:

1 USD =	1.497342	AUD	1 USD =	129.249063	KES
1 USD =	5.554445	BRL	1 USD =	1,376.500385	KRW
1 USD =	1.368350	CAD	1 USD =	473.709143	KZT

1 USD =	16,374.652039	IDR	1 USD =	32.441200	TWD
1 USD =	3.767202	ILS	1 USD =	40.549856	UAH

# Notes to the Financial Statements (continued)

## 2. Accounting policies (continued)

### d) Foreign exchange (continued)

1 USD =	83.388926	INR	1 USD =	39.435287	UYU
1 USD =	160.859893	JPY	1 USD =	18.259837	ZAR

### e) Realised appreciation and depreciation on investments

A realised investment appreciation or depreciation is the difference between the historic average cost of the investment and the sale proceeds. These are converted into the base currency using currency exchange rates prevailing on the respective dates of the sale transactions.

### f) Forward foreign exchange contracts

Unsettled forward foreign exchange contracts are valued using forward rates of exchange applicable at the period-end date for the remaining period until maturity. All unrealised gains and losses are recognised in the Statement of Operations and Changes in Net Assets. Currently forward positions are not collateralised.

The quoted leverage excludes the impact of the foreign exchange forwards used in currency hedged share classes which are held for those shareholders only. It also excludes the temporary impacts that arise when renewing currency forwards and when closing some exchange cleared derivatives. Although the renewal of currency forwards and closure of exchange traded derivatives results in no change or a reduction in market exposure, gross derivative leverage would increase because new equal and offsetting derivative contracts are traded to facilitate this efficiently. The offsetting contracts are held to their maturity date, which is less than 5 working days for currency forwards.

### g) Futures

Futures contracts are valued at the exchange quoted price at close of business on 30 June 2024. Initial margin deposits are made in cash upon entering into futures contracts. During the period the future contract is open, changes in the value of the contract are recognised as unrealised gains and losses by marking to market on a daily basis to reflect the market value of the contract at the end of each day's trading.

Variation margin payments are made or received, depending upon whether unrealised losses or gains are incurred. Variation margin payments are recorded in the futures margin account in the Statement of Net Assets and related movements on unrealised results are recorded in the Statement of Operations and Changes in Net Assets. When the contract is closed, the sub-fund records a realised gain or loss equal to the difference between the proceeds from (or cost of) the closing transaction and the opening transaction.

### h) Swap/Option contracts

Sub-funds may enter into swap agreements such as credit default swaps, interest rate swaps, swaptions, overnight index swaps and inflation linked swaps. Gains or losses resulting from swap contracts are recognised in the Statement of Operations and Changes in Net Assets. Swaps are valued at fair value determined at close of business on 30 June 2024 using external independent third party supplied prices as determined in good faith, pursuant to procedures established by the Board of Directors.

Any outstanding interest accrual on swaps is recorded as either a net receivable or net payable in the Statement of Net Assets. Similarly, the interest received or paid on swaps is disclosed as a net amount in the Statement of Operations and Changes in Net Assets.

Sub-funds may enter into the purchase of call and put options. Gains or losses resulting from option contracts are recognised in the Statement of Operations and Statement of Changes in Net Assets. Options are valued at the exchange quoted price at close of business on 30 June 2024.

## 3. Share Class Information

### a) General

Within each Fund, the Company is entitled to create different share classes. These are distinguished by their distribution policy or by any other criteria stipulated by the Directors. Please refer to the prospectus for further details. For a list of current live share classes please visit [abrdn.com](http://abrdn.com).

The Funds are valued at 1:00 pm Luxembourg time on each dealing day.

# Notes to the Financial Statements (continued)

## 3. Share Class Information (continued)

### b) UK Reporting Fund Regime

UK Reporting Fund Regime Status is granted prospectively by the UK taxation authorities. It is the intention of the Board of Directors to continue to comply with the requirements of the Reporting Fund Regime for certain share classes.

Equalisation applies only to shares purchased during the distribution period (Group 2 shares).

It is the average amount of income included in the purchase price of Group 2 shares.

Annually and within six months of the year end, the Manager will publish the UK Reporting Regime Report to investors for all share classes granted reporting Fund status on its website ([abrdrn.com](http://abrdrn.com)).

The UK Reporting Regime Report to investors for each share class can also be requested in writing by contacting the Shareholder Service Centre as detailed in the Management and Administration section of this report.

### c) Switches

Except in relation to Global Risk Mitigation Fund, shares in one sub-fund may be exchanged or switched into shares of the same or a different class in another sub-fund or of a different class in the same sub-fund, subject to the qualifications for investment being met, on any dealing day for the relevant sub-funds. Shares of Global Risk Mitigation Fund may be switched into shares of the same or a different class in the same sub-fund. Shares in the same class may be switched between accumulation and distribution shares within the same class. Investors may switch either a specific number of shares or shares of a specified value. For full details on switching contact the Global Distributor, UK Distributor, Transfer Agent or [asi.luxembourg@abrdrn.com](mailto:asi.luxembourg@abrdrn.com).

### d) Swing pricing adjustment

Frequent subscriptions and redemptions can potentially have a dilutive effect on the sub-fund's NAV per share and be detrimental to the long-term investors as a result of the transaction costs that are incurred by the sub-fund in relation to the trades undertaken by the Investment Manager.

The Board of Directors' current policy through delegation to the Investment Managers' Investor Protection Committee (IPC) is to apply a swing pricing adjustment to the NAV of each share class of all sub-funds. A swing factor is applied whenever net subscriptions or redemptions exceed a certain threshold determined by the Board of Directors (having considered prevailing market conditions).

The swing pricing adjustment will be recorded in the relevant sub-fund's NAV and becomes part of the sub-fund's relevant dealing NAV.

The swing pricing adjustment is a percentage adjustment applied to each share class in a sub-fund on a dealing day determined on the basis of estimates of any dealing charges (including commission and/or other costs) and/or any bid/offer spread that the Board of Directors believes are appropriate to take into account in respect of that sub-fund. Such dealing charges will reflect costs and liabilities not included in the calculation of the NAV of the relevant share class. The adjustment is recorded in the Statement of Net Assets and Statement of Operations and Changes in Net Assets as "adjustment due to swing pricing".

The maximum swing factor rate applied on net subscriptions/redemptions exceeding a certain threshold as at and during the period ended 30 June 2024 was 1.77%. There is no pre-set maximum swing factor, the Directors can raise this limit if necessary to protect the interests of investors.

Further information can be found at [www.abrdrn.com](http://www.abrdrn.com).

### e) Equalisation on the subscription and redemption of shares

Equalisation is operated in connection with the subscription and redemption of shares. It represents the income element included in the price for the subscription and redemption of shares.

## 4. Expenses

### a) Investment management fees

The Investment Managers receive fees for the provision and co-ordination of investment services to the Company, which shall not exceed 3% of the NAV of each sub-fund. The fees are calculated as a percentage of the NAV of each sub-fund.

# Notes to the Financial Statements (continued)

## 4. Expenses (continued)

### a) Investment management fees (continued)

For the purpose of the calculation, the value of each sub-fund (and the value attributable to each share class) is taken as at the NAV per share on the previous dealing day, taking into account any subscriptions and/or redemptions on that day.

These fees are accrued daily and are paid monthly in arrears to the Investment Managers. abrdn Investments Limited pays the fees of the Sub-Investment Managers. For certain classes of shares, the Investment Managers reserve the right, at their discretion, to reallocate any investment management fee they receive to certain recognised financial intermediaries or institutions in compliance with applicable laws and regulations.

Where a sub-fund invests in an open-ended collective investment scheme which is operated or managed by the Investment Manager or an associate of the Investment Manager, no additional annual management charge is incurred by the sub-fund on such an investment.

The following investment management fees rates were applicable during the period and as at 30 June 2024:

Sub-fund	Share classes %							
	Class A	Class B	Class D	Class J	Class K	Class S	Class T	Class Z
Emerging Market Local Currency Debt Fund	1.40	0.65	0.65	-	0.45	-	-	0.00
Euro Corporate Bond Fund	1.00	0.45	0.50	0.23	0.18	0.23	0.23	0.00

### b) Management Company charge

The Company pays an annual charge to the Management Company up to a maximum of 0.05% of the NAV of each sub-fund.

For the purpose of the calculation, the value of each sub-fund (and the value attributable to each share class) is taken as at the NAV per share on the previous dealing day, taking into account any subscriptions and/or redemptions on that day.

The Management Company charge shall be accrued daily and payable monthly in arrears. The current Management Company charge is an annual rate of 2.5 basis points (0.025%).

The Management Company charge shall be used to pay the Management Company for the services it provides to the Company (in particular the performance of its monitoring role) and shall include reimbursement for any additional regulatory capital costs incurred by the Management Company by reason of its appointment per annum.

### c) Transaction costs

Transaction costs may arise on the acquisition and disposal of investments and these costs may include fees and commissions paid to agents, advisors, brokers, and dealers. These are included in "Net realised appreciation/ (depreciation) on Investments" in the Statement of Operations and Changes in Net Assets.

Dealing commission is usually paid for transactions in securities and derivatives over an exchange (e.g., equities). Transaction costs may not be separately identifiable for transactions that do not occur over an exchange as the costs may be included in the transaction price (e.g., bonds and money market instruments).

For the period ended 30 June 2024, the sub-funds incurred commission expenses relating to the sale and purchase of future contracts which have been included in the Statement of Operations and Changes in Net Assets as "Net realised appreciation/(depreciation) on future contracts". Similarly, during the period ended 30 June 2024, the sub-funds incurred commission expenses relating to the sale and purchase of option contracts which have been included in the Statement of Operations and Changes in Net Assets as "Net realised appreciation/(depreciation) on option/swaption contracts".

# Notes to the Financial Statements (continued)

## 4. Expenses (continued)

### c) Transaction costs (continued)

During the period ended 30 June 2024, there were no transaction costs incurred relating to the trading of swaps and futures.

For the period ended 30 June 2024, the sub-funds incurred transaction fees which have been defined as commissions and tax relating to purchase or sale of transferable securities, money market instruments, derivatives or other eligible assets as follows:

Sub-fund	Currency	Commissions '000	Taxes '000	Total '000
Emerging Market Local Currency Debt Fund	USD	(8)	23	15

Multi-Asset Climate Opportunities Fund	EUR	1	1	2

### d) General administration charges ("GAC")

Effective 1 June 2024 a general administration charge ("GAC") rate of 0.08% was applied, prior to this the GAC rate was 0.07%.

The operating expenses incurred by the Company are generally paid out of the assets of the relevant sub-fund. To seek to minimise the variability of these expenses, for a number of these operating expenses, a fixed rate charge of up to a maximum of 0.10% is charged to each share class.

The level of the effective GAC below this maximum level may vary at the Board of Directors' discretion, as agreed with the Management Company, and different rates may apply across the sub-funds and share classes. The Board of Directors may amend the maximum fixed level of the GAC applicable to each share class at any time at its discretion upon prior notice to the relevant shareholders.

The effective GAC is calculated in the same way as the investment management fee set out in 4.a) above.

The effective GAC is disclosed as part of the other operating charges of a share class in the relevant PRIIP KID and in the semi-annual and annual reports of the Company.

Full details of the GAC and the expenses that are included within the charges, can be found within the prospectus of the Company.

### e) Expense cap

As at 30 April 2024 the maximum expense caps on the applicable share classes are listed below. Effective 1 May 2024, all expense caps were removed. All expense caps accrued up to and including 30 April 2024 have been crystallised and will be paid post the completion of the 2024 audit.

Amounts receivable resulting from the application of expense caps for the period will be paid annually by the Investment Manager.

Sub-fund	Share classes %							
	Class A	Class B	Class D	Class J	Class K	Class S	Class T	Class Z
Euro Corporate Bond Fund	1.11	0.56	0.57	0.34	0.25	-	0.34	0.07

## 4. Expenses (continued)

### e) Expense cap (continued)

Sub-fund	Share classes %							
	Class A	Class B	Class D	Class J	Class K	Class S	Class T	Class Z
Global Short Dated Corporate Bond Fund	-	-	-	-	-	0.35	-	0.10
Macro Fixed Income Fund	1.39	0.79	0.70	-	-	-	-	0.10

### f) Depositary fees

The depositary fees are calculated at a rate determined by the territory or country in which the sub-fund assets are invested. Currently, the lowest rate is 0.0010% and the highest rate is 0.0055% of the NAV of the relevant sub-fund annually.

### g) Bank interest

Bank interest expenses arise if there are negative interest rates on deposits and also owing to overdrafts that may arise from time to time.

## 5. Dividend distribution

The Directors declared monthly dividends for the sub-funds as listed below, for the period ended 30 June 2024, to all shareholders on record on the last day of the relevant month.

### Global Income Bond Fund

Date	A Inc Hedged EUR	A Inc USD	D Inc Hedged EUR	D Inc Hedged GBP	K Inc Hedged GBP	Z Inc Hedged GBP
January 2024	0.034713	0.039320	0.038799	0.041666	0.043255	0.045436

<sup>1</sup> This dividend was declared on 1 July 2024 and recorded in that day's NAV, in line with the provisions of the prospectus.

# Notes to the Financial Statements (continued)

## 6. Taxation

### a) Taxe d'abonnement

Under legislation and regulations prevailing in Luxembourg, the sub-funds are subject to the "taxe d'abonnement" (subscription tax) at the rate of 0.05% per annum, except for the share classes which benefit from a reduced tax rate of 0.01% being the classes of shares dedicated to institutional investors. The tax is payable quarterly on the basis of the value of the net assets of the sub-funds at the end of the relevant calendar quarter. For sub-funds with investment in funds already subject to taxe d'abonnement there are exemptions available. For more information, please refer to the prospectus.

### b) Withholding tax reclaims

Where possible, withholding tax reclaims have been filed in respect of the withholding tax applied on dividends and interests on bonds received during recent years. Receivables with respect to the potential refunded amounts are only booked when they are virtually certain.

### c) Provision for foreign taxes

Capital gains, dividends and interest on securities received from other countries may be subject to withholding or capital gains taxes imposed by such countries. It is the Company's policy to provide for any material liability to foreign capital gains and income taxes.

## 7. Soft commission/commission sharing

The Investment Manager did not enter into any soft commission/commission sharing arrangements with brokers during the financial period in relation to the Company. Neither the Investment Manager nor any of its connected persons have, or are entitled to, retain any cash rebates from any broker or dealer in consideration of directing transactions on behalf of the sub-funds to that broker or dealer. In any such cases rebates received shall be held for the accounts of the relevant sub-funds.

## 8. Directors' interests and remuneration

None of the Directors were materially interested in any contracts of significance subsisting with the Company either during the period or at 30 June 2024.

The collective remuneration of the Board of Directors charged to the Company amounts to USD 75,022.50 for the period ended 30 June 2024.

## 9. Transactions with connected persons

### a) Cross trades

Transactions with connected parties during the period were entered into in the ordinary course of business and on normal commercial terms between the sub-funds and the Management Company, Investment Manager, Investment Adviser, and any entity in which those parties or their connected persons (as defined in the Code on Unit Trusts and Mutual Funds issued by the Securities and Futures Commission of Hong Kong) have a material interest. To the best of the Management Company's knowledge, the sub-funds' portfolios do not have any other transactions with connected persons except for those disclosed below:

Sub-fund	Currency	Value of Transactions enacted through Citigroup brokers entities '000	Aggregate value of all transactions '000	Transactions enacted through Citigroup broker entities as a % of total transactions	Commissions paid to Citigroup broker entities '000	Average Citigroup broker rate of commission %
Emerging Market Local Currency Debt Fund	USD	29,107	561,644	5.18	(4)	(0.01)
Euro Corporate Bond Fund <sup>A</sup>	EUR	98,910	1,674,883	5.91	-	-

# Notes to the Financial Statements (continued)

## 9. Transactions with connected persons (continued)

### a) Cross trades (continued)

Sub-fund	Currency	Value of Transactions enacted through Citigroup brokers entities '000	Aggregate value of all transactions '000	Transactions enacted through Citigroup broker entities as a % of total transactions	Commissions paid to Citigroup broker entities '000	Average Citigroup broker rate of commission %

Multi-Asset Climate Opportunities Fund <sup>A</sup>	EUR	317	5,331	5.95	-	-

<sup>A</sup> There were no commissions paid to Citigroup broker entities for the period ended 30 June 2024.

<sup>B</sup> The unrounded commissions paid to Citigroup broker entities for the period ended 30 June 2024 was USD 330.

### b) Connected transactions

During the period the Investment Manager undertook certain sale and purchase transactions which were enacted through broker entities forming part of the same group of companies as the Depository, Citibank, and the details of these are included in the table above. Such transactions were carried out on an arm's length basis at current market value and market rates, and consistent with and the best interests of the Company. To the best of the Investment Manager's knowledge as at the date of preparing this semi-annual report, there are no transactions between the sub-funds' portfolios and the Management Company, the Investment Manager or any of their connected persons as principal.

### c) Related party transactions

Transactions with connected persons outlined in the Expenses Note 4 have been entered into in the ordinary course of business and on normal commercial terms. At the reporting date, the Management Company, abrdn Investments Luxembourg S.A. was a subsidiary of abrdn plc.

As at 30 June 2024 other Funds/Trusts and mandates managed by abrdn plc held investments in the Company valued at USD 6,598,432,261.60.

## 10. Collateral

The Company paid/received cash collateral from the counterparties to the OTC financial derivative instruments in order to reduce the counterparty exposure, as detailed below:

# Notes to the Financial Statements (continued)

## 10. Collateral (continued)

Sub-fund	Counterparty	Local currency	Local collateral received from the broker '000	Base currency	Base collateral received from the broker '000	Collateral expressed as a percentage of total net assets %

## 11. Significant events during the reporting period

### 1. Name changes

Effective 16 May 2024 the following sub-funds were renamed:

Previous sub-fund name	New sub-fund name
Total Return Credit Fund	Global Income Bond Fund
Absolute Return Global Bond Strategies Fund	Macro Fixed Income Fund

### 2. Launches of share classes

#### Share class launches

Share classes	Share class currency	Base currency	Launch date
<b>Emerging Market Local Currency Debt Fund</b>			
A Acc Hedged EUR	EUR	USD	2 May 2024
A Acc USD	USD	USD	2 May 2024
<b>Global High Yield Bond Fund</b>			
S Acc Hedged GBP	GBP	USD	21 March 2024
<b>Global Real Estate Securities Sustainable Fund</b>			
S Acc GBP	GBP	EUR	5 April 2024
<b>Global Short Dated Corporate Bond Fund</b>			
Z Acc Hedged CNH	CNH	USD	20 March 2024
Z Acc USD	USD	USD	20 March 2024

### 3. Ukraine conflict

The military offensive from Russia against Ukraine since February 2022 continues to pose widespread sanctions on Russian assets. Geopolitical events can adversely affect assets of sub-funds and performance thereon. To ensure the fair treatment of investors, abrdn's Investor Protection Committee (IPC) undertakes regular reviews of market liquidity across each asset class and sub-fund, making appropriate adjustments where necessary.

# Notes to the Financial Statements (continued)

## 11. Significant events during the reporting period (continued)

### 3. Ukraine conflict (continued)

abrdn's Valuation and Pricing Committee (VPC) also continue to review the valuation of assets and the recoverability of income from those assets, making appropriate adjustments where necessary. The VPC is made up of a wide range of specialists across abrdn with a wide range of experience in asset pricing.

As at 30 June 2024, the securities issued by Russian companies are valued at 'nil' in the portfolio statements of the respective sub-funds exposed to such securities. This nil value may not reflect the intrinsic value of those companies but rather reflect the fact that those securities are not tradable as of 30 June 2024.

### 4. Director changes

Xavier Meyer was appointed as a Director of the Board of Directors, effective 1 February 2024.

Stephen Bird resigned as a Director of the Board of Directors, effective 14 June 2024.

Emily Smart was appointed as a Director of the Board of Directors, effective 12 August 2024.

### 5. Prospectus changes

A new visa stamped prospectus was issued in May 2024.

### 6. Other significant events

On 1 June 2024 the general administration charge rate was increased from 0.07% to 0.08%.

On 1 May 2024 the expenses caps were removed in their entirety.

## 12. Subsequent events

The following sub-funds will be closed post period-end:

### Sub-fund closures

Sub-funds	Base currency	Closure date
Euro Government All Stocks Fund	EUR	21 August 2024
Multi-Asset Climate Opportunities Fund	EUR	12 September 2024

There are no other subsequent events to be reported after the period ended 30 June 2024.

In addition, communications to investors in the Federal Republic of Germany will be sent by mail in the following cases:

# General Information (continued)

## Additional Information for investors in Germany (continued)

- suspension of the redemption of shares,
- termination of the management of the Sub-fund or its liquidation,
- any amendments to the sub-fund rules which are inconsistent with the previous investment principles, which affect material investor rights or which relate to remuneration and reimbursement of expenses that may be paid or made out of the asset pool,
- merger of the sub-fund with one or more other sub-funds, and
- the change of the Company into a feeder fund or the modification of a master fund.

## Additional Information for investors in Switzerland

### 1. Representative

Until 30 September 2024: The representative in Switzerland is BNP Paribas, Paris, Zurich Branch, Selnaustrasse 16, 8002 Zurich, Switzerland. Starting 1 October 2024: The representative in Switzerland is FIRST INDEPENDENT FUND SERVICES LTD, Feldeggstrasse 12, 8008 Zurich, Switzerland.

### 2. Paying agent

Until 30 September 2024: The paying agent in Switzerland is BNP Paribas, Paris, Zurich Branch, Selnaustrasse 16, 8002 Zurich, Switzerland. Starting 1 October 2024: The paying agent in Switzerland is NPB New Private Bank Ltd, Limmatquai 1, 8001 Zurich, Switzerland.

### 3. Place where the relevant documents may be obtained

The Prospectus, the PRIIP KIDs, the Articles of Incorporation, the annual and semi-annual reports and a schedule of purchases and sales for the sub-funds can be obtained free of charge from the Swiss representative.

### 4. Publications

Publications in respect of abrdn SICAV II are published on the electronic platform of fundinfo AG Zurich ([www.fundinfo.com](http://www.fundinfo.com)). The subscription and redemption prices or the NAV with indication of "excluding commissions" are published on a daily basis on [www.fundinfo.com](http://www.fundinfo.com).

### 5. Payment of retrocessions and rebates

In connection with distribution in Switzerland, abrdn Investments Luxembourg S.A. or its affiliates may pay retrocessions in order to cover the distribution and procurement activities of shares. These activities include but are not limited to the organisation of road shows, the attendance of events and fairs, the production of marketing material and the training of distribution collaborators. The recipients of the retrocessions must ensure transparent disclosure and inform investors, unsolicited and free of charge, about the amount of remuneration they may receive for distribution. On request, the recipients of retrocessions must disclose the amounts they actually receive for distributing the sub-funds of the investors concerned. Retrocessions are not deemed to be rebates even if they are ultimately passed on, in full or in part, to the investors. Rebates may also be paid directly to the investors in order to reduce the fees and cost attributed to the sub-fund, as long as they:

- are paid from fees which have been charged to the assets of the sub-fund and not in addition;
- are paid on the basis of objective criteria;
- are paid to all investors fulfilling the objective criteria in the same amount and at the same time.

Rebates can only be paid if the following preconditions are fulfilled:

- The minimum investment in a collective investment scheme or in a range of collective investment schemes;
- The amount of fees resulting from the investment;
- The expected duration of the investment;
- The readiness of the investor to support the launch of the sub-fund.

At the request of the relevant investor receiving such rebate, abrdn Investments Luxembourg S.A. or its affiliates must disclose the amount free of charge.

### 6. Place of performance and jurisdiction

The place of performance and jurisdiction for the shares distributed in or from Switzerland is at the registered office of the representative.

# Appendix 1: Securities Financing Transactions

Securities Financing Transaction Regulation ("SFTR") introduces reporting requirements for securities financing transactions ("SFTs") and total return swaps in the framework of transparency of securities financing transactions and of reuse.

A Securities Financing Transaction (SFT) is defined as per Article 3(11) of the SFTR as:

- repurchase/reverse repurchase agreement;
- securities or commodities lending and securities or commodities borrowing;
- buy-sell back transaction or sell-buy transaction;
- margin lending transaction.

As at 30 June 2024, the following sub-fund held total return swaps as a type of instrument under the scope of the SFTR:

- Global Risk Mitigation Fund.

The sub-funds did not enter into securities lending, repos/reverse repos, buy/sell back transactions during the period ended 30 June 2024.

## Global Risk Mitigation Fund

The net unrealised depreciation of total return swaps held by Global Risk Mitigation Fund as a proportion of the sub-fund's NAV as at 30 June 2024 was 0.78%.

All the counterparties to the total return swaps have been disclosed in the table below:

Counterparty	Counterparty's country of incorporation	Local Currency	Total Return Swaps	
			Local Currency '000	Total Return Swaps USD '000
BNP Paribas	France	USD	116,741	116,741

The following tables provide an analysis of the maturity tenor of open OTC derivative transactions (including total return swaps) and associated collateral (provided)/received by the sub-fund, as at the statement of net assets date:

Maturity tenor	Local Currency	Total Return Swaps (net exposure)	
		Local Currency '000	Total Return Swaps (net exposure) USD '000
1 day	USD	-	-
2 to 7 days	USD	-	-
Open (> 7 days)	USD	116,741	116,741
<b>Total</b>		<b>116,741</b>	<b>116,741</b>

The above maturity tenor analysis has been based on the contractual maturity date of the relevant OTC derivative transaction (total return swaps).

Maturity tenor	Collateral (net exposure)	
	Non-cash collateral USD '000	Cash collateral USD '000
1 day	-	-
2 to 7 days	-	-
Open (> 7 days)	-	470
<b>Total</b>	<b>-</b>	<b>470</b>

The above maturity tenor analysis of cash and non-cash collateral is based the contractual maturity date of the security received/(provided) by the sub-fund as collateral.

There were no issuers of non-cash collateral as at 30 June 2024 for this sub-fund.

The table below discloses the cash collateral (provided)/received by the sub-fund in relation to OTC derivative contracts (including total return swaps) held as at statement of net assets date.

# Appendix 1: Securities Financing Transactions (continued)

## Global Risk Mitigation Fund (continued)

Counterparty	Local currency	Local cash collateral (provided)/received by the sub-fund '000	Base currency	Base cash collateral (provided)/received by the sub-fund '000	Collateral expressed as a percentage of total net assets %
BNP Paribas	USD	470	USD	470	0.40

As at the statement of net assets date, all of the cash collateral received by the sub-fund in respect of OTC derivative transactions (including total return swaps) is either held on deposit with The Bank of New York Mellon SA/NV or re-invested in the Aberdeen Liquidity Fund (Lux), a money market fund.

The following table provides a currency analysis of the cash and non-cash collateral (provided)/received by the sub-fund, in respect of OTC derivative transactions (including total return swaps) as at the statement of net assets date.

Currency	Cash collateral received by the sub-fund USD '000	Cash collateral provided by the sub-fund USD '000	Non-cash collateral received by the sub-fund USD '000	Non-cash collateral provided by the sub-fund USD '000
USD	-	470	-	-
<b>Total</b>	-	<b>470</b>	-	-

There was no income earned/(paid) by the sub-fund from the reinvestment of cash collateral in money market funds for the period ended 30 June 2024.

There was no interest receivable/(payable) on cash collateral by the sub-fund as at 30 June 2024.

Investment grade is the type and quality of non-cash collateral (provided)/received by the sub-funds in respect of OTC derivative transactions (including total return swaps), as at the statement of net assets date.

Investment grade securities are those issued by an entity with a minimum investment grade credit rating from at least one globally recognised credit rating agency, Standard & Poor's, Moody's or Fitch.

A recognised equity index contains at least 20 equities where no single equity represents more than 20% of the total index and no more than five equities combined represent more than 60% of the total index.

## Appendix 2: Sustainability Related Disclosures

The EU Sustainable Finance Disclosure Regulation (SFDR) sets out in Articles 8 and 9 the sustainability-related reporting requirements, respectively for sub-funds that promote environmental or social characteristics and sub-funds that have sustainable investments as their objective. In addition, all financial products are required to disclose (see Company prospectus) their approach to integrating sustainability risks into the investment decision-making in line with Article 6 of the SFDR. The following table outlines the SFDR Article under which the sub-funds make sustainability-related reporting.

<b>Sub-fund</b>	<b>SFDR Article (as at 30 June 2024)</b>
Euro Government All Stocks Fund	Article 6
Global Corporate Bond Fund	Article 6
Global High Yield Bond Fund	Article 6
Global Inflation-Linked Government Bond Fund	Article 6
Global Risk Mitigation Fund	Article 6
Macro Fixed Income Fund	Article 6
Emerging Market Local Currency Debt Fund	Article 8
Euro Corporate Bond Fund	Article 8
Euro Corporate Sustainable Bond Fund	Article 8
European Smaller Companies Fund	Article 8
Global Income Bond Fund	Article 8
Global Real Estate Securities Sustainable Fund	Article 8
Global Short Dated Corporate Bond Fund	Article 8
Global Smaller Companies Fund	Article 8
Global Impact Equity Fund	Article 9
Multi-Asset Climate Opportunities Fund	Article 9

The above Article 6 sub-funds do not promote environmental or social characteristics and have no sustainable investment objectives. The investments underlying these financial products do not take into account the EU criteria for environmentally sustainable economic activities. These sub-funds also do not consider principle adverse impacts.

The above Article 8 sub-funds promote environmental or social objectives. The "do no significant harm" principle applies only to those investments underlying the financial products that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of these financial products do not take into account the EU criteria for environmentally sustainable economic activities.

The above Article 9 sub-funds have sustainable investments as their objective.
