What is this product?

Type

abrdrn - CCBI Belt & Road Bond Fund (the "Fund") is a US Dollar denominated sub-fund of a SICAV (société d'investissement à capital variable), abrdrn SICAV I, incorporated in Luxembourg.

Term

abrdrn SICAV I (the "Company") has no maturity date. The Fund and the Company may not be unilaterally terminated by abrdrn Investments Luxembourg S.A.

Objective

The Fund aims to achieve a combination of income and growth by investing in bonds (which are like loans that can pay a fixed or variable interest rate) issued by companies, governments or other bodies, which in the view of the Investment Manager, could directly or indirectly benefit from the Belt and Road Initiative.

The Belt and Road Initiative is a systematic initiative and global development strategy launched by the Chinese government in 2013 to promote the land and sea connectivity along Asia, Europe, Middle-East, and Africa and their adjacent seas (i.e. the Belt and Road Region) to establish and strengthen economic partnerships and cooperation along these regions.

Portfolio Securities

- The Fund invests at least two-thirds of its assets in bonds issued by government or government-related bodies and/or corporations which, in the view of the Investment Manager, could directly or indirectly benefit from the Belt and Road Initiative.
- The bonds will be of any maturity or credit quality. The Fund may invest up to 100% in Sub-Investment Grade bonds.
- The Fund will invest at least 80% of its assets in bonds denominated in US Dollars. Bonds denominated in other currencies will typically be hedged back to US Dollars.

Management Process

- The Fund is actively managed and does not use a benchmark for portfolio construction, risk management or performance assessment purposes.
- The Investment Manager will aim to diversify country exposure but may at times hold a significant proportion in bonds issued by the Chinese government, government-related bodies or Chinese companies.
- CCB International Asset Management Limited, ("CCBI") has been appointed as investment advisor with respect to the Fund and provides non-binding investment advice in connection with the Belt and Road Initiative.
- Our investment team will seek to reduce the risk of losses and the expected change (as measured by annual volatility) in the value of the Fund is not ordinarily expected to exceed 10%.
- The Investment Manager will review each investment on its own merits and how it is aligned with and expected to benefit from China's Belt and Road initiative. The Investment Manager will assess how the countries and companies exposed to the Belt and Road Region with their respective economies, resources and businesses will cooperate and mutually complement each other in different areas or sectors.
- abrdrn integrate environmental, social and governance (ESG) considerations within the investment process. Details of the Fixed Income ESG Integration Approach are published at www.abrdrn.com under "Sustainable Investing".

Derivatives and Techniques

- Derivatives will only be used for hedging or to provide exposures that could be achieved through investment in the assets in which the Fund is primarily invested. Usage of derivatives is monitored to ensure that the Fund is not exposed to excessive or unintended risks.

This fund is subject to Article 6 of the Sustainable Finance Disclosure Regulation ("SFDR").

Investors in the fund may buy and sell shares on any dealing day (as defined in the Prospectus). If you invest in income shares, income from investments in the fund will be paid out to you. If you invest in accumulation shares, income will be added to the value of your shares.

Intended Retail Investor

Investors with basic investment knowledge. Investors who can accept large short term losses. Investors wanting an income and some growth over the longer term (5 years or more). The Fund has specific and generic risks with a risk rating as per the risk indicator. The Fund is intended for general sale to retail and professional investors through all distribution channels with or without professional advice.

The Fund's depositary is Citibank Europe plc Luxembourg Branch. The prospectus, the articles of association, the annual reports and interim reports may be obtained free of charge from our website or via the contact details in 'Other relevant information'. All documents are available in English and German; the prospectus is also available in French and Italian. What are the risks and what could I get in return?

Risk Indicator

1	2	3	4	5	6	7
---	---	---	---	---	---	---

Lower risk

Higher risk

The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you sell it at an earlier stage. The value of investments and the income from them can go down as well as up, and you may get back less than you invested.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact our capacity to pay you. Where the currency of the country where you are resident is different to the currency of the product, **please be aware of currency risk**. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above. Further information on risks is detailed in the prospectus available at www.abrdn.com or on request from the management company. This product does not include any protection from future market performance or any capital guarantee against credit risk, so you could lose some or all of your investment.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product / a suitable benchmark over the last 10 years. The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

Recommended holding period:		5 years	
Example Investment:		10,000 USD	
		If you exit after 1 year	If you exit after 5 years
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	6,990 USD	7,150 USD
	Average return each year	-30.1%	-6.5%
Unfavourable	What you might get back after costs	7,800 USD	9,050 USD
	Average return each year	-22.0%	-2.0%
Moderate	What you might get back after costs	9,930 USD	11,210 USD
	Average return each year	-0.7%	2.3%
Favourable	What you might get back after costs	10,750 USD	12,680 USD
	Average return each year	7.5%	4.9%

The figures shown include all the costs of the product itself, and includes the costs of your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

The unfavourable scenario occurred in the benchmark between September 2021 and July 2024. The moderate scenario occurred in the benchmark between April 2015 and March 2020. The favourable scenario occurred in the benchmark between January 2016 and December 2020.

What happens if the Company is unable to pay out?

There is no financial compensation scheme for retail investors in SICAVs domiciled in Luxembourg. In the absence of a compensation scheme applicable to investments in the Fund, investors may face a financial loss of up to their entire investment amount.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- 10,000 USD is invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	655 USD	1,546 USD
Annual cost impact (*)	6.5%	2.7% each year

* This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 5.0% before costs and 2.3% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Composition of costs

One-off costs upon entry or exit	If you exit after 1 year
----------------------------------	--------------------------
