## What is this product?

### Type

Global Bond Fixed Maturity 2025-II Fund (the "Fund") is a US Dollar denominated sub-fund of a SICAV (société d'investissement à capital variable), abrdrn SICAV III, incorporated in Luxembourg.

### Term

The Fund has a fixed maturity date of 30/06/2025. abrdrn SICAV III (the "Company") and the Fund may not be unilaterally terminated by abrdrn Investments Luxembourg S.A.

### Objective

The Fund aims to generate income and repay capital on the Fund's Maturity Date (30 June 2025) by investing in bonds. The Fund does not target a minimum or specific level of income and there is no certainty or promise that the Fund will achieve this objective.

### Portfolio Securities

- Prior to 12 months before the Maturity Date, the Fund will invest at least 60% in bonds denominated in US Dollars which mature prior to the Maturity Date, issued by companies, governments, or government-related bodies which are based in, or carry out the majority of their business in any country worldwide.
- The Fund may invest up to 40% in sub-investment grade bonds and may also invest in other transferable securities, collective investment schemes, money-market instruments, and cash.
- The Fund will not invest in mortgage-backed securities, asset-backed securities, collateralised loan obligations or convertible bonds.
- From 12 months before the Maturity Date, the Fund will increasingly invest in money market instruments and cash.

### Management Process

- The Fund is actively managed and does not use a benchmark for portfolio construction, risk management or performance measurement.
- The Fund invests in a diverse portfolio of bonds which seek an attractive income whilst also reducing the risk of losses. The expected change (as measured by annual volatility) in the value of the Fund is not ordinarily expected to exceed 7.5%.
- Additional details of how the fund is managed are captured in our "Global Bond Fixed Maturity 2025-II Fund Investment Approach", which is published at [www.abrdrn.com](http://www.abrdrn.com) under the "Fund Centre".
- abrdrn integrate environmental, social and governance (ESG) considerations within the investment process. Details of the Fixed Income ESG Integration Approach are published at [www.abrdrn.com](http://www.abrdrn.com) under "Sustainable Investing".

### Derivatives and Techniques

- The Fund will not ordinarily use derivatives.

### This fund is subject to Article 6 of the Sustainable Finance Disclosure Regulation ("SFDR").

Investors in the fund may buy and sell shares on any dealing day (as defined in the Prospectus). If you invest in income shares, income from investments in the fund will be paid out to you. If you invest in accumulation shares, income will be added to the value of your shares.

## What are the risks and what could I get in return?

### Risk Indicator

Lower risk

Higher risk

The risk indicator assumes you keep the product until 30/06/2025. The actual risk can vary significantly if you sell it at an earlier stage. The value of investments and the income from them can go down as well as up, and you may get back less than you invested.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact our capacity to pay you.

Where the currency of the country where you are resident is different to the currency of the product, **please be aware of currency risk**. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Further information on risks is detailed in the prospectus available at [www.abrdn.com](http://www.abrdn.com) or on request from the management company.

This product does not include any protection from future market performance or any capital guarantee against credit risk, so you could lose some or all of your investment.

## Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product / a suitable benchmark over the last 8 years. The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

<b>Recommended holding period:</b>		<b>3 years</b>	
<b>Example Investment:</b>		<b>10,000 USD</b>	
		<b>If you exit after 1 year</b>	<b>If you exit after 3 years</b>
<b>Scenarios</b>			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	6,090 USD	6,920 USD
	Average return each year	-39.1%	-11.6%
Unfavourable	What you might get back after costs	7,590 USD	7,520 USD
	Average return each year	-24.1%	-9.1%
Moderate	What you might get back after costs	9,560 USD	9,390 USD
	Average return each year	-4.4%	-2.1%
Favourable	What you might get back after costs	10,780 USD	10,270 USD
	Average return each year	7.8%	0.9%

The figures shown include all the costs of the product itself, and includes the costs of your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

The unfavourable scenario occurred in the benchmark between November 2019 and October 2022. The moderate scenario occurred in the benchmark between November 2017 and October 2020. The favourable scenario occurred in the benchmark between September 2018 and August 2021.

## What happens if the Company is unable to pay out?

There is no financial compensation scheme for retail investors in SICAVs domiciled in Luxembourg. In the absence of a compensation scheme applicable to investments in the Fund, investors may face a financial loss of up to their entire investment amount.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- 10,000 USD is invested.

	<b>If you exit after 1 year</b>	<b>If you exit after 3 years</b>
<b>Total costs</b>	537 USD	604 USD
<b>Annual cost impact (*)</b>	5.4%	2.1% each year

\* This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 0.0% before costs and -2.1% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

## Composition of costs

<b>One-off costs upon entry or exit</b>	<b>If you exit after 1 year</b>
Entry costs	5.00% of the amount you pay in when entering this investment. This is the most you will be charged. The person selling you the product will inform you of the actual charge.
Exit costs	We do not charge an exit fee for this product.
<b>Ongoing costs taken each year</b>	0 USD

Management fees and other administrative or operating costs	0.35% of the value of your investment per year. This is an estimate based on actual costs over the last year and includes any known future changes.	35 USD
Transaction costs	0.02% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	2 USD
<b>Incidental costs taken under specific conditions</b>		
Performance fees	There is no performance fee for this product.
