WHAT IS THIS PRODUCT?

TYPE

This Sub-Fund is a UCITS according to European Directive 2009/65/EC.

TERM

The Sub-Fund has been set-up for an indefinite period of time. In accordance with the Sub-Fund's rules, the assets belonging to the Sub-Fund are owned jointly by the Sub-Fund's shareholders. A general meeting of the Sub-Fund's shareholders may terminate the Sub-Fund's management according to the Sub-Fund's rules. In this case, the Sub-Fund's appointed depository will either entrust the Sub-Fund's management to another management company or the Sub-Fund's appointed depository will liquidate the Sub-Fund and distribute the proceeds to the Sub-Fund's shareholders.

OBJECTIVES

Long term capital growth by investing in global Bond Markets. Sub-Fund assets are primarily invested in global bonds as described in the investment objective. Sub-Fund assets may be completely invested in Emerging Markets. Sub-Fund assets (excluding ABS/MBS) may be completely invested in High Yield bonds bearing a typically higher risk and higher potential of gains. Max. 20 % of Sub-Fund assets may be invested in ABS and/or MBS with a good credit rating. All bonds and money market instruments must have at the time of acquisition a rating of at least B- or a comparable rating from a recognised rating agency. Max. 10% of Sub-Fund assets may be invested in Equities. Included in the aforementioned limit are Equities and comparable securities or rights in the exercise of subscription, conversion and option rights on investments such as convertible bonds, contingent convertible bonds and bonds with warrants. The credit long / short strategy encompasses a broad diversity of credit strategies mainly implemented in the bond market. One common strategy is to benefit from price discrepancies between the securities of one or more issuers with the same sector or market segment. Strategies may vary in respect of credit-rating

requirements, regional exposure and other additional requirements. Max. 100% Sub-Fund assets may be held in deposits and/or may be invested directly in Money Market Instruments and/or (up to 10% of Sub-Fund assets) in money market funds on a temporary basis for liquidity management and/or defensive purpose. Max. 10% non-EUR Currency Exposure. The Duration of Sub-Fund assets should be between minus 1 and plus 2 years.

We follow an active management approach with the aim to outperform the Benchmark. In selecting and weighting the Sub-Fund's assets we do not replicate or reproduce the Benchmark. Sub-Fund assets therefore deviate significantly from the Benchmark.

Benchmark: €STR (in EUR).

Due to its investment strategy we expect a high volume of transactions which results in higher transactions costs reducing the return of the fund.

You may redeem shares of the Sub-Fund usually on each business day. We reinvest the income into the Sub-Fund. Derivatives may be used to offset exposure to price fluctuations (hedging), to take advantage of price differences between two or more markets (arbitrage) or to multiply gains although it may also multiply losses (leverage).

Depository: State Street Bank International GmbH - Luxembourg Branch

WHAT HAPPENS IF ALLIANZ GLOBAL INVESTORS GMBH IS UNABLE TO PAY OUT?

A default by the management company has no direct impact on your payouts, as the law stipulates that in the event of the insolvency of Allianz Global Investors GmbH, the Sub-Fund does not become part of the insolvency estate of Allianz Global Investors GmbH, but remains independent.

Therefore, neither an insolvency of the management company

nor of the Sub-Fund's appointed depository will result in an investor losing money in the Sub-Fund.

In case of insolvency of the management company, the Sub-Fund's depository will either liquidate the Sub-Fund and distribute the proceeds to Sub-Fund's investors or entrust its management to another management company.

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

Recommended holding period: 4 years

Due to its investment strategy, the Sub-Fund's value may vary considerably over the short time. You should therefore stay invested for at least 4 years to profit from gains on the longer term. If you disinvest earlier, there is a higher risk that you might get back only poor returns, or not even the sum you invested. The

Sub-Fund is open-ended which means you can redeem money back at every NAV calculation and without having to pay penalties. If applicable to your Sub-Fund you will pay the exit fees only. The detailed procedure to redeem from the Sub-Fund is described in the Prospectus.
