Management company	Allspring Global Investments Luxembourg S.A. is authorized in Luxembourg, and regulated by the CSSF.
KID production date	04/12/24

What is this product?

Type	Allspring (Lux) Worldwide Fund (the "Fund") is a Societe d'Investissement à Capital Variable (SICAV) composed of several separate sub-funds organised under the laws of Luxembourg.
Term	The Fund has been established for an indefinite period of time. The PRIIP Manufacturer reserves the right to liquidate the Fund, subject to approval by the Board of Directors.

Allspring (Lux) Worldwide Fund - Climate Transition Global Equity Fund (the "Sub-Fund") seeks long-term capital appreciation. The Sub-Fund promotes environmental and/or social characteristics but does not have a sustainable investment objective. The Sub-Fund invests at least two-thirds of its total assets in equity securities of companies located worldwide. Under normal market conditions, the Sub-Fund invests in equity securities of issuers located in at least five different countries, including the U.S. The Sub-Fund may also invest up to 20% of its total assets in equity securities through ADRs, CDRs, EDRs, GDRs, IDRs and similar depository receipts as well as equities denominated in US Dollars issued by Non-US Issuers. In terms of environmental characteristics, the Sub-Investment Manager will use a combination of data from providers that specialise in climate data and internal analysis to construct a portfolio of global companies that the Sub-Investment Manager believes are well positioned for a transition to a decarbonised economy by investing in companies within the MSCI All Country World Index identified as being aligned with an average global temperature increase of 2 degrees Celsius or less. The Sub-Investment Manager will target to decarbonise the Sub-Fund by 2050. This is intended to be achieved by initially setting a cap on the weighted average carbon intensity for the Sub-Fund that is lower than that of the MSCI All Country World Index. The cap will reduce along a trajectory that will decline in order to decarbonise the Sub-Fund by 2050.

Objectives

The Sub-Fund may also use futures, forward contracts, options, or swap agreements, as well as other derivatives, for hedging or efficient portfolio management purposes.

Through the use of a negative screening process, the Sub-Fund seeks to exclude securities in accordance with its exclusion policy. A copy of the methodology and list of excluded investments (including the revenue thresholds) is available under [allspringglobal.com](https://www.allspringglobal.com). Shareholders may also request a copy from the Fund or the Management Company. The Sub-Investment Manager then employs a "quantamental" investment approach to the list of companies identified as being aligned with an average global temperature increase of 2 degrees Celsius or less, utilising a combination of quantitative methods and fundamental analysis to identify companies based on valuation, quality and momentum characteristics that give a comprehensive view of each company's relative valuation, operational and financial performance, and stock price behaviour. The Sub-Investment Manager's approach seeks to achieve positive excess returns relative to the MSCI All Country World Index by using stock selection to take controlled active risks in the portfolio including sector and regional relative weights. The Sub-Fund is actively managed but uses the MSCI All Country World Index as a reference for selecting investments and for performance comparison. The investments of the Sub-Fund may deviate significantly from the components of and their respective weightings in the benchmark.

You may redeem your investment upon demand on each business day when banks in Luxembourg are open for normal business and the New York Stock Exchange is open for trading (a "Business Day").

This share class does not distribute dividends. Income is reinvested in the Sub-Fund.

Depository	Brown Brothers Harriman (Luxembourg) S.C.A.
Additional information	This document describes a share class of a sub-fund of Allspring (Lux) Worldwide Fund. The assets and liabilities of each sub-fund are segregated and no sub-fund is responsible for the liabilities of another. The prospectus and financial reports are prepared for Allspring (Lux) Worldwide Fund as a whole. You may obtain free copies of these documents in English, French, and German from Allspring (Lux) Worldwide Fund, c/o Brown Brothers Harriman (Luxembourg) S.C.A., 80 Route d'Esch, L-1470 Luxembourg or at allspringglobal.com . Price Publication: Net asset value per share is calculated on each Business Day and is available in local media and/or with the Fund's local agent in certain countries and at the registered office of the Fund.

Intended investor

This product is intended for investors of all knowledge and/or experience levels who are prepared to experience higher levels of volatility in pursuit of higher returns, who have an investment horizon of 5 years or longer and who have a risk tolerance compatible with the product's SRI rating.

What are the risks and what could I get in return?

Summary risk indicator

← Lower risk

Higher risk →

The risk indicator assumes you keep the product for 5 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level; and poor market conditions are very unlikely to impact the capacity of the Sub-Fund to pay you. **Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.**

Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product / a suitable benchmark over the last 10 years. The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

Recommended holding period:		5 years	
Example investment:		USD 10,000	
Scenarios		If you exit after 1 year	If you exit after 5 years
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress scenario	What you might get back after costs	1,580 USD	1,640 USD
	Average annual return	-84.2%	-30.3%
Unfavourable scenario	What you might get back after costs	7,900 USD	11,510 USD
	Average annual return	-21.0%	2.8%
Moderate scenario	What you might get back after costs	11,140 USD	15,660 USD
	Average annual return	11.4%	9.4%
Favourable scenario	What you might get back after costs	15,460 USD	19,780 USD
	Average annual return	54.6%	14.6%

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

- **Stress scenario:** This type of scenarios shows what you might get back in extreme market circumstances.
- **Unfavourable scenario:** This type of scenario occurred for an investment between March 2015 and March 2020
- **Moderate scenario:** This type of scenario occurred for an investment between April 2017 and April 2022
- **Favourable scenario:** This type of scenario occurred for an investment between June 2016 and June 2021

What happens if Allspring Global Investments Luxembourg S.A. is unable to pay out?

The value of your investment would not be affected by a default by the PRIIP Manufacturer. The value of your investment is not guaranteed but you will not face financial loss greater than the amount of your investment.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed: in 2025 you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

Investment USD 10,000		
Scenarios	If you exit after 1 year	If you exit after 5 years
Total costs	622 USD	1,759 USD
Annual cost impact(*)	6.2 %	2.4 %

(*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at maturity your average return per year is projected to be 11.8% before costs and 9.4% after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry cost	5.0% of the amount you pay in when entering this investment	500 USD
Exit cost	0.0% of your investment before it is paid out to you	0 USD

Ongoing costs [taken each year]		
Management fees and other administrative or operating costs	1.2% of the value of your investment per year. This is an estimate based on actual costs over the last year.	120 USD
Transaction costs	0.0% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	2 USD

Incidental costs taken under specific conditions		
Performance fee	There is no performance fee for this product.	0 USD

How long should I hold it and can I take my money out early?

Recommended holding period: 5 years

There is no minimum or maximum required period for investors to hold shares in this product, but the shares may not be suitable for investors intending to hold them for less than the recommended holding period. You may sell your shares without penalty on any Business Day.

How can I complain?

Complaints regarding the operation of the Fund or the conduct of the PRIIP Manufacturer or the person advising on or selling the Sub-Fund must be submitted in writing to the following address: Allspring Global Investments Luxembourg S.A., Building H20 - 2nd floor, 33 rue de Gasperich, L-5826, Luxembourg or via email to AllspringLuxembourg@allspringglobal.com. The complaint policy may be found at allspringglobal.com.
