What is this product?

Term

Туре	Allspring (Lux) Worldwide Fund (the "Fund") is a Societe d'Investissement à Capital Variable (SICAV) composed of several separate sub-funds organised under the laws of Luxembourg.

The Fund has been established for an indefinite period of time. The PRIIP Manufacturer reserves the right to liquidate the Fund, subject to approval by the Board of Directors

Allspring (Lux) Worldwide Fund - Global Equity Enhanced Income Fund (the "Sub-Fund") seeks a high level of current income and long-term capital appreciation by investing primarily in equity securities broadly diversified among major economic sectors and global geographic regions and may invest in stocks of any market capitalisation and style (e.g., value or growth) issued by issuers in any industry or sector. Under normal market conditions, the Sub-Fund invests at least 90% of its total assets in equity securities of companies located worldwide of which at least 90% will be invested in dividend paying equity securities. Securities will be chosen using a proprietary fundamental investment process by which the Sub-Investment Manager seeks to identify quality companies around the world with a proven track record of delivering consistent or rising dividends and companies likely to raise their dividends meaningfully and/or to pay a significant special dividend. The Sub-Fund promotes environmental and/or social characteristics but does not have a sustainable investment objective. Under normal market conditions, the Sub-Fund invests in equity securities of issuers located in at least five different countries, including the U.S., and expects to maintain an allocation to U.S. securities within 10% of its benchmark allocation in U.S. securities. The Sub-Fund will also employ a strategy of writing (selling) call options on a variety of U.S. and non-U.S.- based eligible securities indices, on exchange-traded funds (qualifying as UCITS or UCIs) providing returns based on certain indices, countries, or market sectors, and, to a lesser extent, on futures contracts and individual securities. The Sub-Fund will use this strategy in an attempt to generate premium income from written call options and may write call options with an aggregate net notional amount of up to 100% of its total assets. The Sub-Investment Manager seeks to provide a targeted yield for the Sub-Fund based on prevailing market conditions, although there is no guarantee that the Sub-Fund will generate the targeted yield, or any other income or returns. The Sub-Fund targets: 1. an overall carbon footprint and carbon intensity for the portfolio that is at least 30% lower than the MSCI All Country World Index and 2. creating a portfolio with a higher weighted average ESG score than the MSCI All Country World Index based on data from an independent third party that assesses companies' exposure to ESG risks and management of those risks. Through the use of a negative screening process, the Sub-Fund seeks to exclude certain securities in accordance with its exclusion policy. A copy of the methodology and list of excluded investments (including the revenue thresholds) is available under allspringglobal.com. Shareholders may also request a copy from the Fund or the Management Company.

The Sub-Fund may also use futures, forward contracts, options, or swap agreements, as well as other derivatives, for hedging, efficient portfolio management or investment purposes. The Sub-Investment Manager may enter into currency exchange transactions with respect to the Sub-Fund equity investments, in order to hedge against changes in the U.S. dollar value of dividend income the fund expects to receive in the future and that is denominated in currencies other than the U.S. dollar, or in the U.S. dollar values of securities held by the Sub-Fund denominated in currencies other than the U.S. dollar.

The Sub-Fund is actively managed but uses the MSCI All Country World Index as a reference for performance comparison. The investments of the Sub-Fund may deviate significantly from the components of and their respective weightings in the benchmark.

You may redeem your investment upon demand on each business day when banks in Luxembourg are open for normal business and the New York Stock Exchange is open for trading (a "Business Day").

This share class intends to distribute dividends gross of expenses quarterly.

Brown Brothers Harriman (Luxembourg) S.C.A.

This document describes a share class of a sub-fund of Allspring (Lux) Worldwide Fund. The assets and liabilities of each sub-fund are segregated and no sub-fund is responsible for the liabilities of another. The prospectus and financial reports are prepared for Allspring (Lux) Worldwide Fund as a whole. You may obtain free copies of these documents in English, French, and German from Allspring (Lux) Worldwide Fund, c/o Brown Brothers Harriman (Luxembourg) S.C.A., 80 Route d'Esch, L-1470 Luxembourg or at allspringglobal.com. Price Publication: Net asset value per share is calculated on each Business Day and is available in local media and/or with the Fund's local agent in certain countries and at the registered office of the Fund.

This product is intended for investors of all knowledge and/or experience levels who are prepared to experience higher levels of volatility in pursuit of higher returns, who have an investment horizon of 5 years or longer and who have a risk tolerance compatible with the product's SRI

Additional information

Intended investor

What are the risks and what could I get in return?

Summary risk indicator

The risk indicator assumes you keep the product for 5 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level; and poor market conditions are very unlikely to impact the capacity of the Sub-Fund to pay you. Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product / a suitable benchmark over the last 10 years. The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

Recommended holding per	riod: 5 years				
Example investment:	USD 10,000				
Scenarios		If you exit after 1 year	If you exit after 5 years		
Minimum	Minimum There is no minimum guaranteed return. You could lose some or all of your investment.				
Stress scenario	What you might get back after costs	1,530 USD	1,640 USD		
Stress scenario	Average annual return	-84.7%	-30.3%		
Unfavourable scenario	What you might get back after costs	8,070 USD	11,510 USD		
Cinavourable scenario	Average annual return	-19.3%	2.8%		
Moderate scenario	What you might get back after costs	10,980 USD	14,970 USD		
Moderate Scenario	Average annual return	9.8%	8.4%		
Favourable scenario	What you might get back after costs	15,100 USD	18,910 USD		
	Average annual return	51.0%	13.6%		

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

- Stress scenario: This type of scenarios shows what you might get back in extreme market circumstances.
- Unfavourable scenario: This type of scenario occurred for an investment between March 2015 and March 2020
- Moderate scenario: This type of scenario occurred for an investment between December 2014 and December 2019
- Favourable scenario: This type of scenario occurred for an investment between February 2016 and February 2021

What happens if Allspring Global Investments Luxembourg S.A. is unable to pay out?

The value of your investment would not be affected by a default by the PRIIP Manufacturer. The value of your investment is not guaranteed but you will not face financial loss greater than the amount of your investment.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed: in 2025 you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

Investment USD 10,000				
Scenarios	If you exit after 1 year	If you exit after 5 years		
Total costs	56 USD	425 USD		
Annual cost impact(*)	0.6 %	0.6 %		

(*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at maturity your average return per year is projected to be 9.0% before costs and 8.4% after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year		
Entry cost	0.0% of the amount you pay in when entering this investment	0 USD		
Exit cost	0.0% of your investment before it is paid out to you	0 USD		
Ongoing costs [taken each year]				
Management fees and other administrative or operating costs	0.4% of the value of your investment per year. This is an estimate based on actual costs over the last year.	35 USD		
Transaction costs	0.2% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	21 USD		
Incidental costs taken under specific conditions				
Performance fee	There is no performance fee for this product.	0 USD		

How long should I hold it and can I take my money out early?

Recommended holding period: 5 years

There is no minimum or maximum required period for investors to hold shares in this product, but the shares may not be suitable for investors intending to hold them for less than the recommended holding period. You may sell your shares without penalty on any Business Day.

How can I complain?

Complaints regarding the operation of the Fund or the conduct of the PRIIP Manufacturer or the person advising on or selling the Sub-Fund must be submitted in writing to the following address: Allspring Global Investments Luxembourg S.A., Building H2O - 2nd floor, 33 rue de Gasperich, L-5826, Luxembourg or via email to AllspringLuxembourg@allspringglobal.com. The complaint policy may be found at allspringglobal.com.
