What is this product?			
Туре	Allspring (Lux) Worldwide Fund (the "Fund") is a Societe d'Investissement à Capital Variable (SICAV) composed of several separate sub-funds organised under the laws of Luxembourg.		
Term	The Fund has been established for an indefinite period of time. The PRIIP Manufacturer reserves the right to liquidate the Fund, subject to approval by the Board of Directors.		
	Allspring (Lux) Worldwide Fund - U.S. Large Cap Growth Fund (the "Sub-Fund") seeks long-term capital appreciation by investing, under normal market conditions, at least two-thirds of its total assets in equity securities of U.S. large-capitalisation companies (currently considered to be those within the market capitalisation range of the Russell 1000 Index at the time of purchase), and up to 25% of its total assets in equity securities of non-U.S. issuers through ADRs, CDRs, EDRs, GDRs, IDRs and similar depository receipts as well as U.S. dollar-denominated equity securities of non-U.S issuers. U.S. equity securities are securities issued by companies with their principal office in the United States or exercising a predominant part of their economic activities in the United States. The Sub-Fund invests principally in the equity securities of approximately 30 to 40 large-capitalisation companies that it believes offer the potential for capital growth. The Sub-Fund may invest in any sector, and at times it may emphasize one or more particular sectors.		
Objectives	The Sub-Fund may use futures, forward contracts, options or swap agreements, as well as other derivatives, for hedging or efficient portfolio management purposes. Price objectives are determined based on industry-specific valuations methodologies and in addition to meeting with management, the Sub-Fund takes a surround-the-company approach to obtain multiple perspectives that help the Sub-Investment Manager make better investment decisions.		
	The Sub-Fund is actively managed but uses the Russell 1000 Index as a reference for selecting investments and the Russell 1000 Growth Index for performance comparison. The investments of the Sub-Fund may deviate significantly from the components of and their respective weightings in the benchmarks.		
	You may redeem your investment upon demand on each business day when banks in Luxembourg are open for normal business and the New York Stock Exchange is open for trading (a "Business Day").		
	This share class does not distribute dividends. Income is reinvested in the Sub-Fund.		
Depositary	Brown Brothers Harriman (Luxembourg) S.C.A.		
Additional information	This document describes a share class of a sub-fund of Allspring (Lux) Worldwide Fund. The assets and liabilities of each sub-fund are segregated and no sub-fund is responsible for the liabilities of another. The prospectus and financial reports are prepared for Allspring (Lux) Worldwide Fund as a whole. You may obtain free copies of these documents in English, French, and German from Allspring (Lux) Worldwide Fund, c/o Brown Brothers Harriman (Luxembourg) S.C.A., 80 Route d'Esch, L-1470 Luxembourg or at allspringglobal.com. Price Publication: Net asset value per share is calculated on each Business Day and is available in local media and/or with the Fund's local agent in certain countries and at the registered office of the Fund.		
Intended investor	This product is intended for institutional investors of all knowledge and/or experience levels who are prepared to experience higher levels of volatility in pursuit of higher returns, who have an investment horizon of 5 years or longer and who have a risk tolerance compatible with the product's SRI rating.		

What are the risks and what could I get in return?

Summary risk indicator ←Lower risk Higher risk→

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as 5 out of 7, which is a medium high risk class. This rates the potential losses from future performance at a medium high level; and poor market conditions are very unlikely to impact the capacity of the Sub-Fund to pay you. Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product / a suitable benchmark over the last 10 years. The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

What happens if Allspring Global Investments Luxembourg S.A. is unable to pay out?

The value of your investment would not be affected by a default by the PRIIP Manufacturer. The value of your investment is not guaranteed but you will not face financial loss greater than the amount of your investment.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed: in 2025 you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
