What is this product?

Type: AMUNDI WELT ERTRAG NACHHALTIG is a UCITS fund established in Germany.

Term: The Fund has an unlimited term. We are entitled to terminate the management of the Fund, subject to a notice period of at least six months, via an announcement in the Federal Gazette (Bundesanzeiger) and also in the annual or semi-annual report.

We may suspend the redemption of units if exceptional circumstances so require, taking into account the interests of investors.

Objectives: The Fund is classified in accordance with Article 8 of the Disclosure Regulation, i.e. it pursues an investment policy aligned with ESG criteria.

The aim of the Fund Management is to achieve long-term capital growth by means of a sustainable and growth-oriented investment policy.

The Fund aims to distribute 4% per year.

To achieve these objectives, a total of at least 30%, but not more than 70%, of the value of the Fund's assets are invested in equities. At least 51% of its value is invested in securities, money market instruments and other investment instruments whose issuers are considered sustainable. Issuers are assessed as sustainable based on environmental criteria, social considerations and the type of corporate governance. A separate ESG scoring methodology is used for this purpose. The assessment process results in an overall assessment: the ESG rating. The ESG rating is a weighted average of the scores for the ESG areas, ranging from A to G, where A is the highest and G is the lowest. Issuers with an ESG rating of A to D are defined as sustainable.

The investment strategy, which is geared toward sustainability, is also complemented by the application of a targeted exclusion policy.

The Fund may use derivative transactions for hedging, speculative purposes and for efficient portfolio management. In addition, the Fund may invest in accordance with the "General and Special Conditions of Investment".

The Fund does not track a securities index, nor does the company base itself on a fixed benchmark for the Fund. At its own discretion, the Fund Management actively decides on the selection of assets, taking into account analyses and valuations of financial instruments as well as economic and political developments. It aims to achieve positive performance.

Intended retail investors: This product is intended for investors with basic knowledge and with no or limited experience of investing in funds who are seeking to increase the value of their investment and receive income over the recommended holding period and who are able absorb losses up to the investment amount.

Redemption and dealing: The shares in the Fund can generally be redeemed on valuation days.

Distribution policy: The Fund income is ordinarily distributed.

More information: You can obtain further information about the Fund, including the prospectus, investor information document and financial report, free of charge on request from:

What are the risks and what could I get in return?

RISK INDICATOR

Lower risk

Higher risk

The risk indicator assumes you keep the product for four years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is medium-low risk class. The risk of potential losses from future performance is therefore classified as medium-low. In very unfavourable market conditions, it is unlikely that the ability to execute your redemption requests will be compromised.

Additional risks: Market liquidity risk could amplify the variation of product performances.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Beside the risks included in the risk indicator, other risks may affect the Product's performance. Further information can be found in the prospectus or the investor information document of AMUNDI WELT ERTRAG NACHHALTIG.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

COSTS OVER TIME

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you keep the product and how well the product performs. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods, we have assumed the product performs as shown in the moderate scenario.
- EUR 10,000 is invested.

Example investment EUR 10,000

Scenarios	If you exit after	
	1 year	4 years*
Total costs	€479	€974
Annual Cost Impact**	4.8%	2.3%

* Recommended holding period.

* This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the end of the recommended holding period, your average return per year is projected to be 5.70% before costs and 3.38% after costs.

These figures include the maximum distribution fee that the person selling you the product may charge (3.50% of amount invested/EUR 350). This person will inform you of the actual distribution fee.

If you are invested in this product as part of an insurance contract, the costs shown do not include additional costs that you could potentially bear.
