

KEY INVESTOR INFORMATION

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of this fund. You are advised to read it so you can make an informed decision about whether to invest.

Aviva Investors Emerging Markets Local Currency Bond Fund, Class B EUR, Accumulation shares, EUR, a sub fund of the Aviva Investors SICAV (ISIN: LU0273496686). This fund is managed by Aviva Investors Luxembourg.

Objectives and Investment Policy

The Fund aims to provide income with the prospect for capital growth.

It will invest in a broad range of bonds (loans that pay a fixed or variable rate of interest) issued by companies and governments from emerging market countries around the world. The bonds will be priced in local currencies.

It may also invest in 'derivatives', which are instruments linked to the rise and fall of other assets. Derivatives will be used both to achieve the investment objective, and with the aim of simply reducing risk or manage the Fund more efficiently.

A relatively small price movement in an asset which a derivative is linked to can result in larger movements of the Fund's share price. The fund may also choose derivatives which generate returns when certain stocks or indices rise or fall.

The Fund Manager actively makes the investment selection decisions for the Fund.

You can buy and sell shares on any Luxembourg business day.

For full investment objectives and policy details please refer to the Prospectus.

Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

If you invest in a distributing share class, distributions arising from the Sub-fund will be paid to you. If you invest in an accumulating share class, income arising from the Sub-fund is not distributed and will remain in the Sub-fund.

Risk and reward profile

- This indicator is based on historical data, calculated using European Union rules, and may not be a reliable indication of the future risk profile of the Fund.
- The risk and reward category shown is not guaranteed to remain unchanged and may change over time. The lowest category does not mean 'risk free'.
- The value of investments and the income from them will change over time.
- The Fund price may fall as well as rise and as a result you may not get back the original amount you invested.
- Full information on the risks applicable to the Fund is detailed in the Prospectus.

The Fund has been allocated a risk number based on the historic volatility of its share price or where insufficient information is available appropriate asset classes.

- Bond values are affected by changes in interest rates, and the bond issuer's creditworthiness. Bonds that produce a higher level of income usually have a greater risk of default.
- Financial derivatives may only require a low initial deposit relative to the asset exposure, a relatively small price movement in the underlying asset may result in substantial losses to the Fund.
- Non-developed market investments can be less easy to buy and sell, and their values may be influenced the economic and political risks of the countries of issue.
- The value of investments will be affected by changes in exchange rates.
