Simplified Prospectus – February 2012

A SICAV authorised under the
Luxembourg Law of 17 December 2010

Aviva Investors – Global High Yield Bond Fund (the "Sub-Fund")

This simplified prospectus contains key information about the Sub-Fund. If you would like more information before you invest, please consult the full prospectus of Aviva Investors (the "Company") which contains information on all sub-funds of the Company. For details about the Sub-Fund's holdings please see the Company's most recent annual or semi-annual report. The rights and duties of the investor as well as the legal relationship with the Sub-Fund are set out in the full prospectus of the Company (the "Prospectus"). The Prospectus and the periodical reports may be obtained free of charge from the Company and from all distributors.

The Company is organised as a société anonyme under the laws of the Grand Duchy of Luxembourg and is qualified as a société d'investissement à capital variable with multiple sub-funds. The Company was incorporated in Luxembourg on 16 January 1990 and is subject to the Luxembourg law of 10 August 1915 on commercial companies, as amended, and to Part I of the Luxembourg law of 17 December 2010. The Company operates separate sub-funds and may issue shares (the "Shares") within each sub-fund in different classes (herein referred to as "Class or Classes"). This simplified prospectus does not comprise a description of all the current sub-funds of the Company, for which separate simplified prospectuses are available.

Investment Objectives and Policy

The aim of the Sub-Fund is to produce a high total return through high income and capital appreciation by investing primarily in a portfolio of high yield corporate bonds issued by firms domiciled across the globe, mainly North America and Europe.

To achieve the investment objective, investments may be made in bonds issued by corporate issuers and in financial derivative instruments such as futures, options, swap contracts, swaptions, forward currency exchange contracts, foreign exchange OTC options and credit default swaps, each of which may be traded either through recognised exchanges or via the over-the-counter market.

At all times at least two-thirds of its total assets (excluding liquidities) will be invested in bonds of worldwide corporate issuers which are either unrated or rated below BBB- by Standard & Poor's or Baa3 by Moody's.

Investments in shares or other participation rights and in convertible bonds are not permitted. The sub-fund may invest up to 30% in money market instruments and bank deposit.

The Sub-Fund may also use financial derivative instruments for hedging purposes and techniques and instruments for efficient portfolio management within the limit set forth in Appendix A "Investment and Borrowing Powers and Restrictions" of the Prospectus.

Cash and/or cash equivalent may be held on an ancillary basis.

Sub-Fund Risk Profile

As described in the investment objectives above, the Sub-Fund comprises financial derivative instruments. Because of the low margin deposits normally required in trading financial derivative instruments, a high degree of leverage is typical for trading in derivatives instruments. As a result, a relatively small price

movement in the underlying of a derivative contract may result in substantial losses to the Sub-Fund's assets.

There can be no guarantee that the Sub-Fund will meet its investment objectives. Information relating to the risk management of the Sub-Fund will be provided to investors upon request.

For further details, please consult the Prospectus.

Historical performance of the Sub-Fund up to 31 December 2010 (for A \$ Share Class only)*

Annual total return (%)

* The historical performance of other Share Classes is similar but may vary according to the amount of fees charged or as a result of other specific features such as their dividend policy. Historical performance may also vary as a result of the currency denomination or hedging policy applicable in relation to any specific Share Class.

Notice

Past performance is not a guide to the future performance of the Sub-Fund. The value of an investment and the income from it can go down as well as up and you may not get back the amount you invested. Future returns will depend on the development of interest rates and the impact this will have on global bond markets and on how successful the Investment Manager is in executing the Sub-Fund's investment policy.

Profile of a Typical Investor

Considering the investment objectives, as stated above, the Sub-Fund may appeal to investors looking to:

- Gain exposure to corporate bonds which are either unrated or rated below BBB- by Standard and Poor's or Baa3 by Moody's
- Receive returns through the receipt of dividends or in the form of capital growth
- Make an investment for the medium to long term

Notwithstanding the above, any investment in this Sub-Fund should only be made after the long term financial objectives and requirements of the investor and the "Risk Warnings" set out in the Prospectus have

been duly considered. It is intended that Shares in the Sub-Fund will be marketed and made available to such categories of investors.

Treatment of income

In relation to Accumulation Share Classes no distributions will be made and all interest and other income earned by the Sub-Fund on its investments will be reflected in the net asset value of the Shares (the "Net Asset Value"). In relation to Dividend Share Classes, it is the intention of the board of directors of the Company to distribute dividends attributable to such shares of the Sub-Fund within the limitations set forth by Luxembourg law.

Share Classes

A complete list of available Share Classes can be found in the Appendix E – "Available Share Classes" of the Prospectus or may be obtained from the registered office of the Company or from the Management Company in Luxembourg. The Sub-Fund may launch A, B, C, I, M, V and Z Share Classes that have any combination of the following features as represented by a suffix to the Share Class name:

- Share Classes may be offered in the reference currency of the Sub-Fund, or may be denominated in any other currency. Each Share Classes will be identified by the relevant currency sign;
- Share Classes may be either hedged or unhedged. For the hedged Share Classes, the Management Company or the Investment Manager have the ability to hedge the value of the Class currency against the currencies in which the underlying assets of the Sub-Fund are denominated in accordance with the section "Available Share Classes" of the Prospectus. Hedged Share Classes will be identified by the suffix "h";
- Share Classes may be either Accumulation or Dividend Share Classes. Dividend Share Classes will be identified by the suffix "x".

The "I Share Class" is strictly limited to institutional investors as defined in section "Available Share Classes" of the Prospectus. The "M Share Class" is only available to Aviva in-house funds as well as to discretionary managed clients of Aviva Investors Global Services Limited which have signed an agreement covering the charging structure relevant to clients' investments in such shares ("Clients of AIGSL"). The "V Share Class" is only available to selected clients of AIGSL which have signed an agreement covering the charging structure relevant to clients' investment in such shares. The "Z Share Class" is strictly limited to companies affiliated to the Aviva group or undertakings for collective investment sponsored by Aviva group companies.

(*) In addition the Management Company may charge an amount, to the benefit of the Sub-Fund, representing dealing costs not exceeding 1 per cent of the Net Asset Value, to the extent that the swing pricing adjustment described in item Appendix B – 5e) of the Prospectus is not applied.

(**) Conversions to C Shares may entail additional charges as more closely described in the Prospectus.

The Company will also pay, out of its assets, a fee and its reasonable out of pocket expenses, to the Registrar and Transfer Agent dependent on transactions' volume per Share Class (except for M and V Share Classes). It is not expected that the amount exceeds 0.025%¹ per annum of the aggregate average daily Net Asset Value per Share Class but it is subject to a transaction fee which may result in a higher fee than the former in certain circumstances.

For further details, please consult the Prospectus.

Taxation

Under present Luxembourg law and practice, the Company is not liable to any Luxembourg income tax nor are dividends paid by the Company liable to any Luxembourg withholding tax (subject to the provisions of the Council Directive 2003/48/EC on taxation of savings income in the form of interest payments, as implemented in Luxembourg law and as more fully described in the Prospectus). No Luxembourg capital gains tax is payable on the realised or unrealised capital appreciation of the assets of the Company.

The Sub-Fund is liable in Luxembourg to a tax of 0.05 % per annum of its net assets. Class I Shares are subject to a reduced tax of 0.01% per annum of the value of their net assets, any such tax being payable quarterly on the basis of the value of the net assets of the Sub-Fund at the end of the relevant calendar quarter.

The impact of an investment in the Company on the individual tax bill of an investor depends on the fiscal regulations applicable in his or her particular case. Consulting a local tax adviser is therefore recommended.

¹ From 1 April 2012, this figure will be changed to 0.07%.

Daily price publication

The Net Asset Value, the issue price and the redemption price may be obtained from the Management Company and will be published in the financial press and/or on the website: www.avivainvestors.com.

How to buy/sell Shares

Applications for issue, redemptions and conversions may be sent to the Registrar and Transfer Agent, to which the Management Company delegates the registrar and transfer agency functions, and/or an authorised distributor.

The Management Company has agreements with distributors in various European countries where the Sub-Fund is officially registered. These agreements allow the distributors to sell the Sub-Fund's Shares. The list of these distributors can be obtained at the address mentioned below.

Applications for issue, redemption or conversion should be received prior to 13:00 CET on any bank business day in Luxembourg with the exception of the Friday before Easter Monday (Good Friday) and 24 December (Christmas Eve).

The minimum initial investment is described in the table above in the section Share Classes.
