This Key Information Document is dated 19/03/2024.

You are about to purchase a product that is not simple and may be difficult to understand.

What is this product?

Type

This product is a Sub-Fund of Aviva Investors, an open ended investment company with variable capital and an umbrella fund with segregated liability between the sub-funds, established under the laws of Luxembourg and authorised by Commission de Surveillance du Secteur Financier.

Term

The Fund has no minimum fixed term.

The Management Company has the ability to terminate the PRIIP with adequate notice to investors.

Objective: The objective of the Fund is to earn income and increase the value of the Shareholder's investment, while outperforming the Bloomberg Global High Yield Excl CMBS & EMG 2% Cap Index over the long term (5 years or more).

Investment Policy: The Fund invests mainly in high yield bonds issued by corporations anywhere in the world, with an emphasis on North America and Europe. At all times, the Fund invests at least two-thirds of its total net assets (excluding ancillary liquid assets, eligible deposits, money markets instruments and money market funds) in bonds that are rated below BBB- by Standard and Poor's or Baa3 by Moody's, or are unrated. The Fund may invest in shares or units of UCITS or other UCIs, but not in convertible securities. The Fund may invest in up to 10% of total net assets in Additional tier-1 (AT1) and contingent convertible bonds.

Derivatives and Techniques: The Fund may use derivatives for investment purposes. The Fund may also use derivatives for hedging and for efficient portfolio management.

Securities lending

Expected level: 10% of total net assets; maximum: 20%.

Underlying securities in scope: limited to assets permitted by the fund's investment policy.

Strategy: The investment process includes consideration of environmental, social and governance (ESG) criteria. The Investment Manager will exclude direct investments in companies which manufacture products that seek to do harm when used as intended. This would include:

- Companies manufacturing tobacco products

Further ESG exclusions related to companies involved in the manufacture of controversial weapons can be found within the Aviva Investors ESG Baseline Exclusions Policy under the Responsible Investment section of the Prospectus.

Benchmark (performance comparison): The Fund's performance is compared against and the Fund aims to outperform the Bloomberg Global High Yield Excl

CMBS & EMG 2% Cap (the "Benchmark" or the "Index"), however the reference benchmark is not aligned with all of the environmental or social characteristics promoted by the Fund. The Fund does not base its investment process upon the Index, which is only a representation of the investment universe. Therefore the Fund will hold bonds that are not part of the Index and will only hold a relatively small proportion of bonds relative to the number in the Index. The Fund is expected to operate with lower volatility than the Benchmark over the long term.

Sustainability Disclosures: This Fund promotes environmental and social characteristics however does not have a sustainable investment objective. To be eligible for investment, all investments that are selected as part of the Investment Manager's ESG analysis must follow good governance practices and not be excluded by the Investment Manager's ESG Baseline Exclusions Policy. The Investment Manager actively engages with companies and uses voting rights with the aim of positively influencing company behaviour and helping to create competitive returns. The Investment Manager integrates qualitative and quantitative data on adverse sustainability impacts into its investment processes. The Fund does not make any minimum commitment to invest in one or more environmentally sustainable investments. Further information regarding how the Investment Manager integrates ESG into its investment approach (including information on its ESG Baseline Exclusions Policy) and how it engages with companies is available in the Responsible Investment Philosophy section and on the website www.avivainvestors.com.

Intended retail investor

This share class is intended for the Investment Manager's clients.

The Fund is appropriate for an investor with only basic knowledge of this type of investment, an informed investor or an experienced investor who are prepared to risk loss to the value of their investment in order to potentially generate both income and capital growth, and who plan to stay invested for at least 5 years. It can be purchased with or without professional financial advice.

The Investment Manager actively makes the investment selection decisions for the Fund.

The portfolio and benchmark will be hedged to the base currency of the Fund; the base currency of this Fund is USD.

Depositary

BNY Mellon, Asset Servicing, 2-4, rue Eugène Ruppert - L-2453 Luxembourg

Further Information

You can buy and sell shares on any full bank business day in Luxembourg.

This is an accumulation share class.

What are the risks and what could I get in return?

Risk indicator

The risk indicator assumes you keep the product for 5 years.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class.

Be aware of currency risk. You might receive payments in a different currency other than the base currency of the Fund. The final return you will get might depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment.

However, you may benefit from a consumer protection scheme (see the section "What happens if Aviva Investors Luxembourg S.A. is unable to pay out"). The indicator shown above does not consider this protection.

Other materially relevant risks for the fund are; Currency risk, Market risk, Counterparty risk, Derivatives risk, Illiquid securities risk, Credit risk, Interest rate

risk — bonds, Default risk, Contingent convertible securities risk, Underlying fund risk, Leverage risk and Sustainability risk For full and detailed definitions of the additional risks impacting this Fund, please refer to the Funds' prospectus, available on the company website, www.avivainvestors.com.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

Recommended holding period:		5 years	
Example Investment:		€10000	
		If you exit after 1 year	If you exit after 5 years
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.

Favourable	What you might get back after costs	€12090	€12750
	Average return each year	20.90%	4.98%

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: this type of scenario occurred for an investment between 2017 and 2022.

Moderate scenario: this type of scenario occurred for an investment between 2015 and 2020.

Favourable scenario: this type of scenario occurred for an investment between 2016 and 2021.

What happens if Aviva Investors Luxembourg S.A. is unable to pay out?

The assets of the Fund are held in safekeeping by its depository. In the event of the insolvency of the Manager, the Fund's assets in the safekeeping of the Depository will not be affected. However, in the event of the Depository's insolvency, or someone acting on its behalf, the Fund may suffer a financial loss. However, this risk is mitigated to a certain extent by the fact the Depository is required by law and regulation to segregate its own assets from the assets of the Fund. The Depository will also be liable to the Fund and the investors for any loss arising from, among other things, its negligence, fraud or intentional failure properly to fulfil its obligations (subject to certain limitations).

There is no compensation or guarantee scheme protecting you from a default of the Fund's depository.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Cost over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- EUR 10,000.00 is invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	€11	€60
Annual cost impact (*)	0.1%	0.1% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 3.2% before costs and 3.1% after costs.

Composition of Costs

How long should I hold it and can I take money out early?

This product has no required minimum holding period but is designed for long-term investment; you should have an investment horizon of at least 5 years.

The Management Company shall redeem units of any Fund at the redemption price on each dealing day. Redemptions of the applicable Fund will be effected at the valuation point on the relevant dealing day. The price is based on the net asset value per unit of each class determined at the valuation point. Redemption requests received after the dealing deadline will be treated as having been received by the following dealing deadline unless otherwise determined by the Management Company.

Please contact your broker, financial adviser or distributor for information on any costs and charges relating to the sale of the shares.
