

KEY INVESTOR INFORMATION

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Aviva Investors – UK Equity Unconstrained Fund, Class I, Accumulation shares, GBP, a sub-fund of Aviva Investors (ISIN: LU0160960752). The Fund is managed by Aviva Investors Luxembourg S.A.

OBJECTIVES AND INVESTMENT POLICY

Objective: The objective of the Fund is to increase the value of the Shareholder's investment over the long term (5 years or more) by investing in shares of UK companies.

Investment Policy: The Sub-Fund invests mainly in equities of UK companies. Specifically, at all times, the Sub-Fund invests at least 80% of total net assets (excluding cash and cash equivalents) in equities and equity-related securities of UK companies (incorporated or domiciled in the UK), or non-UK companies which are listed in the UK or which have significant trading activities in the UK.

Sustainability Disclosures: Sustainability Risk indicators are considered alongside a range of financial and non-financial research, and the sustainability risks or impacts are weighed against all other inputs when considering an investment decision, with no specific limits imposed, therefore the Investment Manager retains discretion over which investments are selected. The Investment Manager actively engages with companies and uses voting rights with the aim of positively influencing company behaviour and helping to create competitive returns.

In addition, the Fund has limited exclusions based on the Management Company's Sustainability Risk Policy.

This Sub-Fund does not have a sustainable investment objective and the Investment Manager will consider the adverse impacts of an investment to the extent they are financially material. For further information please refer to the sustainability disclosure section of the prospectus and the website www.avivainvestors.com.

Derivatives and Techniques: The Fund may use derivatives for hedging and for efficient portfolio management.

Securities lending: Expected level: 10% of total net assets; maximum: 20%. Underlying securities in scope: equities.

Strategy: The Sub-Fund is actively managed with an unconstrained investment style, allowing the Investment Manager the freedom to invest in selected

companies of any size, and at any stage of the business cycle (that is consistent with Aviva Investors' ESG philosophy). This will include investing in market leading and mature companies with the potential for superior earnings growth and sustainable dividends, as well as identifying companies which are out of favour at a particular point in time but where there is a specific opportunity for the company's value to increase in the future.

Benchmark (performance comparison): The Sub-Fund's performance is compared against the FTSE All Share TR Index (the "Benchmark" or the "Index"). The Sub-Fund does not base its investment process upon the Index so will not hold every component in the Index and may also hold equities that do not form part of it. The Sub-Fund is expected to have an average yearly tracking error of between 3% and 8% when compared to the Index. In certain conditions the Sub-Fund may be outside of this range.

You can buy and sell shares on demand on any full bank business day in Luxembourg.

Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

This is an accumulation share class and any income from the Fund will remain in the Fund and is reflected in the share price.

For full investment objectives and policy details please refer to the Prospectus.

RISK AND REWARD PROFILE

Lower risk

Typically lower rewards

This indicator is based on historical data, calculated using European Union rules, and may not be a reliable indication of the future risk profile of the Fund.

The risk and reward category shown is not guaranteed to remain unchanged and may change over time. The lowest category does not mean that the investment is 'risk free'.

The value of investments and the income from them will change over time.

The Fund price may fall as well as rise and as a result you may not get back the original amount you invested.

The Fund has been allocated a risk number based on the historic volatility of its share price or where insufficient information is available appropriate asset classes.

Currency risk: Changes in currency exchange rates could reduce investment gains or increase investment losses. Exchange rates can change rapidly, significantly and unpredictably.

Equities Risk: Equities can lose value rapidly, can remain at low prices indefinitely, and generally involve higher risks — especially market risk — than bonds or money market instruments. Bankruptcy or other financial restructuring can cause the issuer's equities to lose most or all of their value.

Market risk: Prices of many securities (including bonds, equities and derivatives) change continuously, and can at times fall rapidly and unpredictably.

Counterparty risk: The Fund could lose money if an entity with which it does business becomes unwilling or is unable to meet its obligations to the Fund.

Derivatives risk: Derivatives are instruments that can be complex and highly volatile, have some degree of unpredictability (especially in unusual market conditions), and can create losses significantly greater than the cost of the derivative itself.

Illiquid securities risk: Certain assets held in the Fund could, by nature, be hard to value or to sell at a desired time or at a price considered to be fair (especially in large quantities), and as a result their prices could be very volatile.

Operational risk: Human error or process/system failures, internally or at our service providers, could create losses for the Fund.

Sustainability risk: This risk is any environmental social or governance event or condition that could impact the value of investments. The Investment Manager primarily relies on its in-house ESG analysis and climate risk indicators to categorise the potential level of Sustainability risks in each sub-fund. The level of sustainability risk may fluctuate depending on which investment opportunities the Investment Manager identifies. This means that the sub-fund is exposed to Sustainability Risk which may impact the value of investments over the long term.

Full information on the risks applicable to the Fund is detailed in the Prospectus.

CHARGES

One-off charges taken before or after you invest*

Entry charge	5.00%
Exit charge	None

The entry and exit charges shown are maximum figures. In some cases (including when switching to other funds or share classes in Aviva Investors) you might pay less – you can find the actual entry and exit charges from your financial adviser/distributor.

Charges taken from the Fund over a year

Ongoing charges	0.96%
-----------------	-------

The ongoing charges figure is based on last year's expenses for the year ending December 2021. The figure for ongoing charges excludes performance fees and portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective investment undertaking.

Charges taken from the Fund under certain specific conditions

Performance fee	None
-----------------	------

A switching charge of up to 1% may be applied when switching to other funds or share classes in Aviva Investors.

*This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.

For more information about charges, including a full explanation of any performance fee (if applicable) please see the charges sections of the Fund's Prospectus.

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

PAST PERFORMANCE

Past performance is no guide to future performance.

The past performance shown in the chart opposite takes into account all charges except entry charges.

The Share Class was launched on 20 January 2003.

Performance is calculated in the Share Class currency which is GBP.

The Fund made changes to the Investment objectives on 9th February 2022. The past performance prior to this date was measured against difference performance targets.
