This Sub-Fund is managed by AXA Funds Management S.A., part of the AXA IM Group

Objective and Investment Policy

Investment Objective

The Sub-Fund is actively managed without reference to any benchmark and seeks to generate income by investing in high yield debt securities (sub-investment grade corporate bonds) denominated in USD while seeking to avoid the risk of defaults.

Investment Policy

The Sub-Fund is actively managed in order to capture opportunities in US high yield debt markets.

The following investment decisions are undertaken after comprehensive macroeconomic and microeconomic analysis of the market:

- issuer selection
- sector allocation
- credit curve positioning (the credit curve illustrates the relationship between the investment term and the credit yield)

The Sub-Fund invests in high yield fixed or floating rate bonds primarily issued by corporates domiciled primarily in the US and with an expected life term or redemption inferior to 3 years on the basis of the asset manager anticipations. Such high return bonds have a rating lower than BBB- according to Standard & Poor's or equivalent (Moody's or other rating agencies) or are not rated.

The Sub-Fund may invest up to 10% of net assets in contingent convertible bonds (CoCos). The Sub-Fund may also, and up to 10%, hold Distressed and Defaulted Securities as a result of holding bonds whose rating would have been downgraded to be defaulting or distressing, if, in the opinion of the Investment Manager, such bonds are consistent with the Sub-Fund's investment objective.

The Sub-Fund is a financial product that promotes environmental and/or social characteristics within the meaning of article 8 of the Regulation (EU) 2019/2088 of 27 November 2019 on sustainability-related disclosures in the financial sector.
