The Autorité des Marchés Financiers (AMF) is responsible for supervising AXA INVESTMENT MANAGERS PARIS S.A. in relation to this Key Information Document.

This Product is authorised in Luxembourg and in accordance with the UCITS Directive.

**Date of Production of the KID:** 20/11/2024

## What is this product?

### Type

The Product is a share class of the Sub-Fund "AXA World Funds - US High Yield Bonds" (the Sub-Fund) which is part of the SICAV "AXA World Funds" (the "Company").

### Term

This product has no maturity date, although it has been created for 99 years and could be liquidated under the conditions laid down in the articles of incorporation of the company.

### Objectives

#### Investment Objective

The Sub-Fund investment objective is to seek high income and capital growth by investing in US high yield debt securities over a long term period.

#### Investment Policy

The Sub-Fund is actively managed in order to capture opportunities in the US high yield debt market, primarily investing in securities that are part of the ICE BofA US High Yield Master II benchmark index (the "Benchmark") universe. As part of the investment process, the Investment Manager has broad discretion over the composition of the Sub-Fund's portfolio and can take, based on its investment convictions, exposure to companies, countries or sectors not included in the Benchmark or take different positioning in terms of duration, geographical allocation and/or sector or issuer selection compared to the Benchmark, even though the Benchmark constituents are generally representative of the Sub-Fund's portfolio. Thus, the deviation from the Benchmark is likely to be significant.

The following investment decisions are undertaken after comprehensive macroeconomic and microeconomic analysis of the market:

- issuer selection
- sector allocation
- credit curve positioning (the credit curve illustrates the relationship between the investment term and the credit yield)

The Sub-Fund invests:

- permanently two thirds of its total assets in high yield fixed or floating rate bonds issued by public or private companies domiciled in US. Such high return bonds have a rating lower than BBB- according to Standard & Poor's or equivalent rating (Moody's or other rating agency) or are not rated
- not more than one third of its assets in securities domiciled in Canada or European markets or in sovereign debt securities or in money market instruments
- not more than 10% of its assets in convertible securities (including contingent convertible bonds (CoCos)) and not more than one tenth of its assets in equities or equity related securities. The Sub-Fund may invest in or be exposed to 144A securities, in a substantial way depending on the opportunity.

The Sub-Fund may, up to 10%, hold distressed and defaulted securities as a result of their rating downgrade, if they are considered to be consistent with the Sub-Fund's objective. These securities are expected to be sold within 6 months unless specific events prevent the Investment Manager from sourcing their liquidity.

The total assets of the Sub-Fund may be invested in or exposed to callable bonds.

The Sub-Fund's portfolio has a weighted average duration of no less than one year.

The selection of credit instruments is not exclusively and mechanically based on their publicly available credit ratings but also on an internal credit or market risk analysis. The decision to buy or sell assets is also based on other analysis criteria of the Investment Manager.

The Sub-Fund may invest up to 10% of net assets in contingent convertible bonds (CoCos).

Derivatives, including Credit Default Swaps, may be used for efficient portfolio management and hedging.

The Sub-Fund is a financial product that promotes environmental and/or social characteristics within the meaning of article 8 of the Regulation (EU) 2019/2088 of 27 November 2019 on sustainability-related disclosures in the financial sector.

### Income

For Distribution share classes (Dis), the dividend is distributed.

### Investment Horizon

The risk and the reward of the product may vary depending on the expected holding period. We recommend holding this product at least for 5 years.

### Processing of subscription and redemption orders

The subscription, conversion or redemption orders must be received by the Registrar and Transfer Agent on any Valuation Day no later than 3 p.m. Luxembourg time. Orders will be processed at the Net Asset Value applicable to such Valuation Day. The investor's attention is drawn to the existence of potential additional processing time due to the possible involvement of intermediaries such as Financial Advisers or distributors.

The Net Asset Value of this Sub-Fund is calculated on a daily basis.

### Intended retail investor

The sub-fund is designed for retail investors who have neither financial expertise nor any specific knowledge to understand the sub-fund but nevertheless may bear total capital loss. It is suitable for clients who seek growth of capital. Potential investors should have an investment horizon of at least 5 years.

### Depositary

State Street Bank International GmbH (Luxembourg Branch)

### Further Information

Please refer to the 'Other relevant information' section below.

## What are the risks and what could I get in return?

### Risk Indicator

The risk indicator assumes you keep the product for 5 years.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

### Performance Scenarios

We have classified this product as 3 out of 7 which is the a medium-low risk class. This rates the potential losses from future performance at a medium-low level. The risk category associated to this product was determined based on past observations, it is not guaranteed and can evolve in the future.

**Be aware of currency risk.** You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Other risks not included in the Summary risk indicator can be materially relevant, such as counterparty risk. For further information, please refer to the prospectus.

This product does not include any protection from future market performance so you could lose some or all of your investment.

The figures shown include all the costs of the Product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average and best performance of the product and the suitable benchmark over the last 10 years. Markets could develop very differently in the future.

<b>Recommended holding period:</b>		<b>5 years</b>	
<b>Example Investment:</b>		<b>\$10 000</b>	
		<b>If you exit after 1 year</b>	<b>If you exit after 5 years</b>
<b>Scenarios</b>			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment		
Stress	What you might get back after costs	\$6 370	\$6 870
	Average return each year	-36.30%	-7.23%
Unfavourable	What you might get back after costs	\$8 330	\$9 510
	Average return each year	-16.70%	-1.00%
Moderate	What you might get back after costs	\$9 940	\$10 850
	Average return each year	-0.60%	1.64%
Favourable	What you might get back after costs	\$11 440	\$13 230
	Average return each year	14.40%	5.76%

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable Scenario: This type of scenario occurred for an investment between 12 2021 and 01 2024.

Moderate Scenario: This type of scenario occurred for an investment between 01 2019 and 01 2024.

Favourable scenario: this type of scenario occurred for an investment between 01 2016 and 01 2021.

The performance was calculated using the Product's benchmark.

## What happens if AXA INVESTMENT MANAGERS PARIS S.A. is unable to pay out?

The product is constituted as a separate entity from AXA Investment Managers Paris S.A. In case of default of AXA Investment Managers Paris S.A., the assets of the product kept by the custodian will not be affected. In case of default of the custodian, the risk of financial loss of the product is mitigated because of the legal segregation of the assets of the custodian from those of the product.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- USD 10 000 is invested

	<b>If you exit after 1 year</b>	<b>If you exit after 5 years</b>
Total costs	\$560	\$1 868
Annual cost impact (*)	5.6%	3.3% each year

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4.93 % before costs and 1.64 % after costs.

We may share part of the costs with the person selling you the Product to cover the services they provide to you. They will inform you of the amount.

These figures include the maximum distribution fee that the person selling you the product may charge (100 EUR). This person will inform you of the actual distribution fee.

### Composition of Costs

<b>One-off costs upon entry or exit</b>		<b>If you exit after 1 year</b>
Entry costs	We do not charge an entry fee.	\$0
Exit costs	3.00% of your investment before it is paid out to you. This is the maximum that can be charged.	\$300
<b>Ongoing costs taken each year</b>		
Management fees and other administrative or operating costs	2.47% of the value of your investment per year. This percentage of ongoing costs is an estimate.	\$247
Transaction costs	0.13 % of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	\$13
<b>Incidental costs taken under specific conditions</b>		
Performance fees (and carried interest)	There is no performance fee for this Product.	\$0

A Contingent Deferred Sales Charge ("CDSC") is levied on Shares that are redeemed within 3 years from the day of purchase. The rate of the CDSC is calculated based on the length of the investment, as described within the Prospectus and in particular 3% in case of redemptions within the first year of purchase, 2% in case of redemptions within the second year and 1% in case of redemptions within the third year, without any pro-rata within the year.

---

## How long should I hold it and can I take money out early?

### **Recommended holding period: 5 years**

This Product has no minimum required holding period, the 5 years has been calculated to be in line with the time frame which the Product may need in order to achieve its investment objectives.

You may sell your investment before the end of the recommended holding period without penalty. The performance or risk of your investment may be negatively impacted. The section "What are the costs?" provides information on the impact of costs over time.

Exit costs may be applied when you cash-in under conditions described in the section "What are the costs?"

Please refer to the "What is this product" section for the redemption procedure.

---

## How can I complain?

Complaints shall be addressed to the Complaint Handling Officer with the complainant's details (name, role, contact details, involved account numbers and any other relevant document) to the following address AXA World Funds 49, avenue J.F. Kennedy L-1855 Luxembourg Grand Duchy of Luxembourg or to [compliancelux2@axa-im.com](mailto:compliancelux2@axa-im.com).
