WHAT IS THIS PRODUCT?

Type

This Product is an undertaking for collective investment in transferable securities (UCITS). It is a sub-fund of BNP Paribas Funds, an open-ended investment company (société d'investissement à capital variable "SICAV") governed by the provisions of Part I of the Luxembourg Law of 17 December 2010 (the "2010 Law") relating to undertakings for collective investment as well as by UCITS Directive 2009/65.

Term

This Product has no maturity date.

BNPP AM Luxembourg is not entitled to terminate the Product unilaterally. The board of directors of the SICAV has the authority to decide on the merger, split, liquidation or the closure of the sub-fund. Furthermore, the SICAV may be wound up by decision of an extraordinary general meeting of shareholders.

Objectives

This Product is actively managed. The benchmark €STR is used for performance comparison only. The Product is not benchmark constrained and its performance may deviate significantly from that of the benchmark.

The Product belongs to the category of money market funds («MMF») as defined by Regulation (EU) 2017/1131 of the European Parliament and of the Council of 14 June 2017 on money market funds (the «Regulation»). It seeks to achieve the best possible return in EUR in line with prevailing money market rates, over a 3-month period while aiming to preserve capital consistent with such rates and to maintain a high degree of liquidity and diversification, the 3-month period corresponds to the recommended investment horizon of the Product.

The Product is a standard variable net asset value MMF as defined by the Regulation.

It invests within the limits of the Regulation in a diversified portfolio of EUR denominated money market instruments, deposits with credit institutions, units or shares of short term MMF or other standard MMF, and ancillary liquid assets denominated in EUR.

Financial derivative instruments (e.g. Interest Rate Swaps) are used only for the purpose of hedging the interest rate of the Product. The impact of these financial derivative instruments will be taken into account for the calculation of the Weighted Average Maturity.

The Product is not a guaranteed product. An investment in a money market sub-fund is different from an investment in deposits, with the risk that the principal invested in a money market sub-fund is capable of fluctuation. The Product does not rely on external support for guaranteeing the liquidity of the Product or stabilising the NAV per share. The risk of loss of the principal is to be borne by the shareholders.

There is no currency exposure, other than to the EUR.

Environmental, social and governance (ESG) criteria contribute to, but are not a determining factor in, the manager's decision making.

A dividend may be distributed.

Investors are able to redeem on a daily basis (on Luxembourg bank business days) as described in the prospectus.

Intended retail investors

This Product is designed for investors who have neither financial expertise nor any specific knowledge to understand the Product but nevertheless may bear a total capital loss. It is suited for clients who seek preservation of and/or growth of and/or income from capital. Potential investors should have an investment horizon of at least 3 months.

Practical Information

- Depository: BNP PARIBAS, Luxembourg Branch
- This key information document is prepared for the aforementioned share class and describes a sub-fund of BNP Paribas Funds. Further information about the Product is contained in the prospectus and periodical reports which are issued at the level of the SICAV. Under the 2010 Law, there is segregated liability between sub-funds, meaning that the assets of the sub-fund will not be available to meet a claim of a creditor or another third-party made against another sub-fund.
- Investors may switch between sub-funds of the SICAV. Please see the prospectus or contact your financial adviser for details.
- Further information about the Product including the latest prospectus, Articles of Association, key information document, net asset values, latest published prices of share(s), periodical report, investment description, may be obtained free of cost, in English, from BNPP AM Luxembourg or online at <https://www.bnpparibas-am.com>.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

Risk Indicator

The risk indicator assumes you keep the Product for 3 months.

The summary risk indicator is a guide to the level of risk of this Product compared to other Products. It shows how likely it is that the Product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this Product as 1 out of 7, which is the lowest risk class. This risk category is justified by the investment in eligible money market instruments as per Regulation and short term bonds that have a low volatility.

Be aware of currency risk. If the currency of your account is different from the currency of this Product, the payments you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Other risks materially relevant to the Product not included in the summary risk indicator:

- **Credit risk:** the risk that the creditworthiness of an issuer may deteriorate or that it may default, potentially causing the value of the associated instruments to fall.
- **Liquidity risk:** this risk arises from the difficulty of selling a security at its fair value and within a reasonable period of time due to a lack of buyers.
- **Operational risk:** in the event of an operational breakdown within the management company, one of its representatives or the depositary, investors could face various disruptions (late payment, delivery etc.).

For additional details regarding the risks, please refer to the prospectus.

This Product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

The figures shown include all the costs of the Product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate and favourable scenarios presented represent examples using the best and worst performance, as well as the average performance of the Product and/or appropriate benchmark over the last 10 years. The markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances.

Recommended holding period: 3 months

Example Investment: EUR 10,000

If you exit after 3 months

WHAT HAPPENS IF BNPP AM LUXEMBOURG IS UNABLE TO PAY OUT?

The SICAV is incorporated as a separate entity distinct from BNPP AM Luxembourg. In the event BNPP AM Luxembourg would default, the assets of the Product/SICAV, held by a depositary, would not be affected by this default.

In case of default of the depositary, the risk of financial loss of the Product/SICAV is mitigated by the legal segregation of the assets of the depositary from those of the Product/SICAV.

WHAT ARE THE COSTS?

The person advising on or selling you this Product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the Product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year, you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the Product performs as shown in the moderate scenario.
- EUR 10,000 is invested.
