The Commission de Surveillance du Secteur Financier ("CSSF") is responsible for supervising the Product and BNPP AM Luxembourg.

Date of production of the KID: 29/04/2024

WHAT IS THIS PRODUCT?

Type

This Product is an undertaking for collective investment in transferable securities (UCITS). It is a sub-fund of BNP Paribas Funds, an open-ended investment company (société d'investissement à capital variable "SICAV") governed by the provisions of Part I of the Luxembourg Law of 17 December 2010 (the "2010 Law") relating to undertakings for collective investment as well as by UCITS Directive 2009/65.

Term

This Product has no maturity date.

BNPP AM Luxembourg is not entitled to terminate the Product unilaterally. The board of directors of the SICAV has the authority to decide on the merger, split, liquidation or the closure of the sub-fund. Furthermore, the SICAV may be wound up by decision of an extraordinary general meeting of shareholders.

Objectives

The Product is actively managed without reference to an index.

The Product's investment objective is first to increase the value of its assets over the medium term through participation in the performance of the Eurozone equity markets and, second, to minimize the risk of a decrease in the Product's net asset value.

The Product will be managed under portfolio insurance techniques that aim to adjust a «low risk asset» and a «risky asset» exposure, taking into consideration capital protection constraints and market anticipations from the portfolio manager.

The Product is first invested into «low risk asset» to support the NAV protection level defined as the Guaranteed NAV described below.

It consists in an investment in a portfolio of equity securities (at least 75% of the assets of the Product) the performance of which is swapped against a monetary rate performance through the use of TRS, in UCITS (including UCITS ETF hedged against their reference benchmark) or UCIs and in money market and short term instruments denominated in Euro with a maturity no longer than 18 months (up to 25% of the assets of the Product).

The part of the portfolio available once the NAV protection parameters have been taken into account is invested into «risky asset» to support the performance.

It provides exposure to the Eurozone equity markets through a dynamic call options and /or future trading strategy and through UCITS/UCIs.

At least, 75% of the assets of the Product will be invested at all times in equities issued by companies that have their registered office in a member country of the European Economic Area, other than non-cooperative countries in the fight against fraud and tax evasion.

In addition, BNP Paribas («the Guarantor») commits towards the Company to, for this Product and for each quarter (each season), that the NAV of a share class is at least equal to 80% of the NAV (excluding dividends, the case being) of that same share class (the «Guaranteed NAV») observed 12 months ago which qualifies as an observation date (the «Observation Date»), provided that the share class is effectively launched 12 months ago at this Observation Date or before.»

With regards to the guarantee, each 3rd Friday of March (Spring), June (Summer), September (Autumn) and December (Winter) is named an Observation Date. The first Observation Date was the 15 December 2017 (Winter 2017). If one of these dates is not a bank business day in Luxembourg, and/or an open day on the Eurex options market, the corresponding Observation date will be the preceding open day on Eurex which is also a bank business day in Luxembourg.

Shareholder can find all the necessary information on protection level and relevant Observation Dates on the management company website: www.bnpparibas-am.com.

Incomes are systematically reinvested.

Investors are able to redeem on a daily basis (on Luxembourg bank business days) as described in the prospectus.

Intended retail investors

This Product is designed for investors who have neither financial expertise nor any specific knowledge to understand the Product but nevertheless may bear limited capital loss and expect a protection of their capital up to 80 %. It is suited for clients who seek growth of capital. Potential investors should have an investment horizon of at least 5 years.

Practical Information

■ Depository: BNP PARIBAS, Luxembourg Branch

■ This key information document is prepared for the aforementioned share class and describes a sub-fund of BNP Paribas Funds. Further information about the Product is contained in the prospectus and periodical reports which are issued at the level of the SICAV. Under the 2010 Law, there is segregated liability between sub-funds, meaning that the assets of the sub-fund will not be available to meet a claim of a creditor or another third-party made against another sub-fund.

■ Further information about the Product including the latest prospectus, Articles of Association, key information document, net asset values, latest published prices of share(s), periodical report, investment description, may be obtained free of cost, in English, from BNPP AM Luxembourg or online at <https://www.bnpparibas-am.com>.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

Risk Indicator

The summary risk indicator is a guide to the level of risk of this Product compared to other Products. It shows how likely it is that the Product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this Product as 4 out of 7, which is a medium risk class. The risk category is justified by the investment mainly in stocks and shares, the value of which can fluctuate considerably. These fluctuations are often amplified in the short term.

Be aware of currency risk. If the currency of your account is different from the currency of this Product, the payments you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Other risk materially relevant to the Product not included in the summary risk indicator:

- Operational risk: in the event of an operational breakdown within the management company, one of its representatives or the depositary, investors could face various disruptions (late payment, delivery etc.).

For additional details regarding the risks, please refer to the prospectus.

You are entitled to receive back at least 80% of your capital. Any amount over this, and any additional return, depends on future market performance and is uncertain.

Performance Scenarios

The figures shown include all the costs of the Product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances.

Recommended holding period: 5 years	If you exit after 1 year	If you exit after 5 years
Example Investment: EUR 10,000		

Scenarios

Minimum	8,000 EUR are guaranteed at maturity (i.e. 80% of your invested capital). The investor may lose part or all of his investment if he exits before maturity.	
Stress	What you might get back after costs	5,240.74 EUR
	Average return each year	-47.59%
Unfavourable	What you might get back after costs	8,399.65 EUR
	Average return each year	-16.00%
Moderate	What you might get back after costs	10,300.66 EUR
	Average return each year	3.01%
Favourable	What you might get back after costs	12,675.71 EUR
	Average return each year	26.76%

The unfavourable, moderate and favourable scenarios presented represent examples using some of the best and worst performances, as well as the median performance of the Product and/or appropriated benchmark simulated from scenarios drawn from the last 10 years.

WHAT HAPPENS IF BNPP AM LUXEMBOURG IS UNABLE TO PAY OUT?

The SICAV is incorporated as a separate entity distinct from BNPP AM Luxembourg. In the event BNPP AM Luxembourg would default, the assets of the Product/SICAV, held by a depositary, would not be affected by this default.

In case of default of the depositary, the risk of financial loss of the Product/SICAV is mitigated by the legal segregation of the assets of the depositary from those of the Product/SICAV.

WHAT ARE THE COSTS?

The person advising on or selling you this Product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the Product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year, you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the Product performs as shown in the moderate scenario.

- EUR 10,000 is invested.

	If you exit after 1 year	If you exit after 5 years
Total Cost	441.72 EUR	1,283.4 EUR
Annual Cost Impact (*)	4.46%	2.20% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 7.70% before costs and 5.51% after costs.

Composition of costs

One-off entry or exit costs	If you exit after 1 year	
Entry costs	Up to 3.00% of the amount you pay in when entering this investment.	Up to 300 EUR
Exit costs	We do not charge an exit cost.	0 EUR
Recurring costs levied annually		
Management costs and other administrative and operating costs	1.21% of the value of your investment per year. The amount is based on past expenses calculated on 31/12/2023.	116.89 EUR
Transaction costs	0.25% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the Product. The actual amount will vary depending on how much we buy and sell.	24.84 EUR
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this Product.	0 EUR

Conversions not allowed with other funds. In case of conversion within the Fund, the investors may be charged a maximum fee of 1.50%.

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?**Recommended holding period ("RHP"): 5 years.**

The RHP has been defined and based on the risk and reward profile of the Product.

Investors are able to redeem on a daily basis (on Luxembourg bank business days) as described in the prospectus.

Any redemption occurring before the end of the RHP may adversely impact the performance profile of the Product.

HOW CAN I COMPLAIN?

For any claim, you are invited to contact your usual relationship manager that advised you on the Product. You can also contact BNPP AM Luxembourg, as described on its website www.bnpparibas-am.lu (Footnote 'Complaints management policy'), by sending an email to amlu.complaints@bnpparibas.com or by writing to BNPP AM Luxembourg - Client Services - 10, rue Edward Steichen L-2540 Luxembourg.
