WHAT IS THIS PRODUCT?**Type**

This Product is an undertaking for collective investment in transferable securities (UCITS). It is a sub-fund of BNP Paribas Funds, an open-ended investment company (société d'investissement à capital variable "SICAV") governed by the provisions of Part I of the Luxembourg Law of 17 December 2010 (the "2010 Law") relating to undertakings for collective investment as well as by UCITS Directive 2009/65.

Term

This Product has no maturity date.

BNPP AM Luxembourg is not entitled to terminate the Product unilaterally. The board of directors of the SICAV has the authority to decide on the merger, split, liquidation or the closure of the sub-fund. Furthermore, the SICAV may be wound up by decision of an extraordinary general meeting of shareholders.

Objectives

The Fund is actively managed. The composite benchmark 80% cash Index €ster + 20% Bloomberg Euro Aggregate 1-3 years (EUR) RI. is used for performance comparison only.

The Fund is not benchmark constrained and its performance may deviate significantly from that of the benchmark.

The Fund seeks to achieve a performance that is higher than the rate of return of the euro money market over a minimum investment period of 12 months by investing in euro-denominated debt instruments which are chosen given their practices in terms of sustainable development (social responsibility and/or environmental responsibility and/or corporate governance).

It is based on active management based on a systematic and disciplined approach to securities selection, combining extra-financial research, financial research and quantitative analysis.

Exposure to currencies other than the EUR will be less than 5%.

Investment grade structured debts may represent up to 20% of the assets. It may not be invested in equities.

The investment team applies also BNP PARIBAS ASSET MANAGEMENT's sustainable Investment Policy, which takes into account Environmental, Social and Governance (ESG) criteria such as but not limited to reduction of emissions of greenhouse gas, respect of human rights, respect of minority shareholders rights, at each step of the of the investment process of the Fund.

The Fund follows the Enhanced ESG approach which means that the Fund implements more explicit ESG tilts (Invest in the most sustainable companies according to specific criteria and/or incorporating a wider range of exclusions) leading to more stringent ESG and/or Carbon performance targets.

The approach is implemented in order to consistently eliminate at least 20% of the investment universe being bonds issued by private issuers from the Eurozone and having a maturity between 1 to 3 years prior to applying ESG filters.

An extra-financial strategy may comprise methodological limitations such as the ESG Investment Risk as defined by the asset manager

Incomes are systematically reinvested.

Investors are able to redeem on a daily basis (on Luxembourg bank business days) as described in the prospectus.

WHAT HAPPENS IF BNPP AM LUXEMBOURG IS UNABLE TO PAY OUT?

The SICAV is incorporated as a separate entity distinct from BNPP AM Luxembourg. In the event BNPP AM Luxembourg would default, the assets of the Product/SICAV, held by a depositary, would not be affected by this default.

In case of default of the depositary, the risk of financial loss of the Product/SICAV is mitigated by the legal segregation of the assets of the depositary from those of the Product/SICAV.
