GENERAL INFORMATION

Brandes Investment Funds plc (the “Fund”) was incorporated in Ireland on 11 April 2002 and is an open-ended umbrella type investment company with variable capital established as an undertaking for collective investment in transferable securities under the laws of Ireland as a public limited company and is authorised by the Central Bank of Ireland (the “Central Bank”) pursuant to the European Communities (Undertakings for Collective Investments in Transferable Securities) Regulations 2011 (as amended) (the “UCITS Regulations”).

At 30 June 2024, the Fund comprised four separate portfolios of investments (each a “Sub-Fund”, collectively the “Sub-Funds”), each of which is represented by a separate series of Redeemable Participating Shares. These Sub-Funds are the Brandes Global Value Fund which commenced operations on 24 September 2002, Brandes European Value Fund which commenced operations on 14 January 2003, Brandes U.S. Value Fund which commenced operations on 17 July 2003 and Brandes Emerging Markets Value Fund which commenced operations on 10 May 2012. The Fund is an umbrella fund with segregated liability between its sub-funds and accordingly any liability incurred on behalf of or attributable to any Sub-Fund shall be discharged solely out of the assets of that Sub-Fund.

The following are active share classes in each of the respective Sub-Funds at the financial period end:

LETTER FROM THE MANAGER

2024 marks the 50th anniversary of Brandes Investment Partners. The milestone invites us to reminisce, reflect, and delve into the rich history of our firm and the marketplace. Among the memorabilia we came across was a 1974 Financial Analysts Journal article by Benjamin Graham titled “The Future of Common Stocks.” For those familiar with the history of Brandes, it is probably no surprise that this article stood out to us. 1974 was the year of our founding as an investment firm based on the value principles and philosophies of Benjamin Graham, whom Charles Brandes had the honor to meet and develop a relationship with.

In going through the article, we noticed how its content revealed striking parallels to today’s market environment. Graham wrote, “The distinction I have just made is clearly relevant to the present situation because of the recent advent of the “two-tiered market,” resulting from the massive preference of institutions for large, high-growth companies. This in turn has brought about disparities in the P/E ratios for issues of investment character-differences as high as ten to one-that have been unexampled in all my experience, except perhaps at the height of the 1929 madness with its celebrated “blue-chip” issues.”ⁱ Are we sure Graham isn’t describing the current market environment? As the following chart highlights, concentration in the S&P 500 Index has returned to levels last seen when Graham penned this article in 1974.

Nifty Fifty Revisited?

S&P 500 Has Become More Concentrated

JANUARY 20, 1972 TO MARCH 20, 2024 | Source: Ned Davis Research, FactSet, Brandes. Chart used with permission from NDR, Inc. Further distribution prohibited without prior permission. See NDR Disclaimer at <https://www.ndr.com/terms-of-service>. It is not possible to invest directly in an index.

The concentration extends beyond holdings composition to market performance as well. For the six months ended June 30, 2024, approximately 60% of MSCI ACWI’s return was driven by just 10 companies, eight of which are based in the United States. Similarly, over 70% of the S&P 500’s performance was attributed to 10 companies, nearly all of which could be categorized as high growth, technology-related, or AI (artificial intelligence) trend beneficiaries.

This raises the question: How does Brandes approach these high-growth companies? Graham noted, “But the first-tier, high-growth issues present a real challenge to past experience. Obviously, they would be wonderful private or market-type investments if obtainable at book value or even twice that figure. The trouble is, of course, that most of them sell at more than five times book value-and some more than ten times. Last year the ratios were a good deal higher than that. At these levels, they take on a speculative character which is due entirely to their price level, and in no sense to any weakness of the companies themselves.”ⁱⁱ

LETTER FROM THE MANAGER (Continued)

A couple of points stood out to us:

1. Growth and quality: Graham emphasized investing in “first-tier, high growth issues”, not just the deeper value bargain issues he is more known for.
2. Price matters!

Following Graham’s approach to investing, Brandes is a fundamental, price-sensitive value investment firm. While we do consider-and appreciate-companies with high-growth and high-quality attributes in our search for value potential, we will only make an investment at what we consider the right price (and we do think there is a right price for almost everything!). We believe this approach is advantageous in today’s investing landscape as it helps us avoid businesses that are likely overvalued and identify those that are potentially undervalued.

So, what are the prospects for value in a market environment that bears a lot of similarities to the one from 1974? Graham said it well when he concluded the article with this quote from Virgil, his favorite poet: “O fortunati nimium...(etc.) Agricolae!”

Graham noted, “Virgil addressed this apostrophe to the Roman farmers of his day, but I shall direct it at the common-stock buyers of this and future years: O enviably fortunate Investors, if only you realized your current advantages!”ⁱⁱⁱ

MANAGER'S REPORT

The Brandes Global Value Fund (the "Sub-Fund") Class I USD rose 7.12%, underperforming the MSCI World Index, which appreciated 11.75% in the six months ended 30 June 2024.

The strongest contributors included holdings in industrials, particularly Rolls-Royce and Brazilian regional jet manufacturer Embraer. Select holdings in financials also helped performance, led by U.S.-based Wells Fargo and Citigroup, U.K.-based NatWest, and Austria's Erste Group Bank.

Select holdings in technology, such as TSMC, Micron Technology, and Germany-based SAP, showed robust results, but our significant underweight to technology-related companies, both in the technology and communication services sectors, hurt relative returns. These two sectors were by far the best-performing components of the index this year, up over 20% while most other sectors rose by single digits or declined marginally.

Other detractors included holdings in health care (e.g., Spanish biotech firm Grifols, CVS, Fortrea) and consumer staples (e.g., Ambev, French retailer Carrefour). Grifols' shares declined mainly in the first quarter following a short seller's report that questioned the company's accounting and corporate governance practices. We continue to believe there is a meaningful upside potential in the company. Grifols recently completed the sale of an equity stake in Shanghai RAAS, which should help it improve its financial leverage in the near term.

The Sub-Fund continues to hold its key positions in the economically sensitive financials sector and the more defensive health care sector, while maintaining its largest sector underweight to technology. Geographically, we continue to hold overweight positions in the United Kingdom, France, and emerging markets, while remaining underweight in the United States and Japan. We believe the differences between the Sub-Fund and the MSCI World Index make it an excellent complement and diversifier to passive and growth-oriented strategies.

We've continued to observe a wide dispersion of sector performance in the index, with companies in the technology and communication services sectors materially outperforming the MSCI World Index. Following the sector's appreciation this past year, technology has become a larger component of the MSCI World Index, and our allocation is less than half the index's 26% weighting. Meanwhile, more defensive areas, such as consumer staples and health care, have underperformed the index. Unsurprisingly, we have noticed more attractively valued companies in these sectors and have modestly increased our allocation over the past year.

With the valuation gap between value and growth stocks widening in the past year, we are increasingly optimistic about the return potential for value stocks. Following the outperformance of the growth index (MSCI World Growth vs. MSCI World Value), fueled largely by a few U.S. tech-related companies, value stocks are trading at the largest discount relative to growth stocks since the inception of the style indices. This valuation disparity is evident across various metrics, such as price/earnings, price/cash flow and enterprise value/sales. Historically, such valuation differentials have often signaled attractive future returns for value stocks over longer-term horizons. Notably, our portfolio, guided by our value philosophy and process, has tended to outperform the index when value stocks outperformed the MSCI World Index.

We are excited about the long-term prospects of our holdings, which in aggregate trade at more compelling valuation levels than the index, in our opinion.

Please see important disclosures on pages 58- 59.

MANAGER'S REPORT

The Brandes European Value Fund (the “Sub-Fund”) Class I EUR rose 11.94%, outperforming the MSCI Europe Index, which appreciated 9.05% in the six months ended 30 June 2024.

Stock selection across sectors drove performance. Holdings in financials were among the standout contributors, led by Italy’s Intesa Sanpaolo, Austria-based Addiko Bank, Slovenian Nova Ljubljanska Banka, and Spanish Linea Directa Aseguradora. Consumer staples holding Greencore also lifted performance, as did communication services firms Magyar Telekom and Millicom International.

Other contributors included French automaker Renault and U.K.-based aerospace and defense firm Rolls-Royce, which continued to benefit from the ongoing recovery in its end-markets.

Several investments in health care detracted from returns, most notably French pharmaceutical Euroapi and Spain-based Grifols. Grifols’ stock declined (mainly in the first quarter) following a short seller’s report that questioned the company’s debt and corporate governance practices. We continue to see a meaningful upside potential in the company. Grifols recently completed the sale of an equity stake in Shanghai RAAS, which should help it improve its financial leverage in the near term.

Holdings in France also hurt performance. Besides Euroapi, Carrefour saw its share price fall, as did luxury goods company Kering, telecommunications firm Orange, and Societe BIC.

The Sub-Fund holds key overweight positions in consumer staples and communication services, while maintaining significant underweights to technology, materials and industrials. Geographically, the Sub-Fund’s largest allocations continue to be in the United Kingdom and France. It remains underweight in Switzerland and has no exposure to companies in the Nordic Region.

While we maintain our lower weighting to Germany relative to the index, our underweight has narrowed with the recent purchases of Infineon and Deutsche Post. We believe the differences between the Sub-Fund and the MSCI Europe Index make it an excellent complement and diversifier to passive and growth-oriented strategies.

As of 30 June 2024, value stocks (MSCI Europe Value) continued to trade in the least-expensive decile relative to growth (MSCI Europe Growth) since the inception of the style indices. This was evident across various valuation measures, including price/earnings, price/cash flow, and enterprise value/sales. Historically, such discount levels have often signaled attractive subsequent returns for value stocks. This is encouraging to us because the Sub-Fund, guided by our value philosophy and process, has tended to outperform the value index when it outperformed the index.

We remain optimistic about the long-term prospects of the companies held in the Sub-Fund.

Please see important disclosures on pages 58 - 59.

MANAGER'S REPORT

The Brandes U.S. Value Fund (the "Sub-Fund") Class I USD rose 7.87%, outperforming the Russell 1000 Value Index, which appreciated 6.28% in the six months ended 30 June 2024.

Holdings in financials and industrials drove performance, led by Wells Fargo, Citigroup, and Bank of America, as well as FedEx and building products company Johnson Controls. Technology holdings Micron Technology and Flex also helped performance, as did health care positions McKesson, Merck, and HCA Healthcare. Additionally, our lack of exposure to real estate aided relative returns as the sector was the worst-performing part of the index.

Our underweight to utilities hurt relative performance. At the holding level, notable detractors included health care holdings Fortrea and CVS, software firm Open Text, and media firm Comcast.

The Sub-Fund's weightings have been largely unchanged this year. The Sub-Fund continues to have overweight positions in financials, health care, and communication services, while maintaining key underweights in real estate and utilities. Although we also remain underweight consumer staples, the underperformance of the sector has given rise to our recent opportunistic purchase of personal products business Kenvue. At the same time, the appreciation of the technology sector has led us to trim a couple of our holdings in the sector.

Given the widening valuation gap between value and growth stocks (MSCI USA Value vs. MSCI USA Growth) over the past year, we are increasingly optimistic about the return potential for value stocks. Following the performance of the growth index, which was largely fueled by a select few tech-related names, value stocks are now trading at the largest decile discount relative to growth stocks since the inception of the style indices. This valuation disparity is evident across various metrics, such as price/earnings, price/cash flow, and enterprise value/sales. Historically, such valuation differentials have often signaled compelling subsequent returns for value stocks over longer-term horizons. This is encouraging to us because our portfolio, guided by our value philosophy and process, has tended to outperform the Russell 1000 Value index when the index outperforms the broader Russell 1000 Index.

As of 30 June 2024, the Sub-Fund trades at more compelling valuation levels than the index, in our opinion. We believe the current fundamentals of our holdings bode well for the long term, and we are excited about the Sub-Fund's prospects.

Please see important disclosures on pages 58- 59 .

Benchmarks - any references to indicative benchmarks throughout the course of this report are for illustrative purposes only. There is no guarantee that the Sub-Funds will outperform the benchmarks.

MANAGER'S REPORT

The Brandes Emerging Markets Value Fund (the “Sub-Fund”) Class I USD rose 2.01%, underperforming the MSCI Emerging Markets Index, which appreciated 7.49% for the six months ended 30 June 2024.

Holdings in the information technology, industrials and communication services sectors helped returns, led by India’s Indus Towers, Brazilian regional jet manufacturer Embraer, Taiwan’s Wiyynn Corporation, and South Korea’s SK hynix.

Mexico was among the worst-performing markets in the index as the presidential election results led to investor concerns about the potential for less market-friendly policies by the new government. Several of our holdings were impacted by the negative market sentiment, most notably the above-mentioned real estate investment trust Fibra Uno, household products company Kimberly-Clark de Mexico, and Cemex. Moreover, our overweight hurt relative returns.

Amid the macroeconomic challenges, we maintain confidence in the company fundamentals of our holdings in Mexico. In our opinion, they are well managed, with low susceptibility to government intervention and long histories navigating turbulent times.

Beyond Mexico, several of our holdings in China weighed on performance, including solar modules manufacturer LONGi Green Energy Technology, Chinese air travel information technology services company TravelSky Technology, and specialty retailer Topsports International. Other detractors included Bank Rakyat Indonesia and Brazilian grocer Sendas Distribuidora.

Bank Rakyat Indonesia delivered weaker-than-expected results due to rising credit costs, while also lowering its net-interest-margin outlook and noting a deterioration in asset quality for its small and micro business segment. We view these issues as temporary and took advantage of the share-price pressure to add to our position.

As of 30 June 2024, the Sub-Fund held key overweight positions in financials, consumer staples, and industrials, while maintaining significantly lower allocations to information technology, materials, energy, and health care than the index. On a geographic basis, the Sub-Fund’s largest overweight positions were in Brazil and Mexico. We continue to find value potential in Latin America through our diversified positions in telecommunications, utilities, energy, and real estate, while maintaining underweights to India, Taiwan, and China.

As of 30 June 2024, the Sub-Fund trades at more compelling valuation levels than the index, in our opinion. We believe the current fundamentals of our holdings bode well for the long term, and we are excited about the Sub-Fund’s prospects.

Please see important disclosures on pages 58- 59.

Benchmarks - any references to indicative benchmarks throughout the course of this report are for illustrative purposes only. There is no guarantee that the Sub-Funds will outperform the benchmarks.

NOTES TO THE CONDENSED INTERIM UNAUDITED FINANCIAL STATEMENTS

FOR THE FINANCIAL PERIOD ENDING 30 JUNE 2024

1. ACCOUNTING POLICIES

These condensed interim unaudited financial statements have been prepared for the six month financial period ended 30 June 2024.

Statement of compliance

These condensed interim unaudited financial statements have been prepared in accordance with the Financial Reporting Standard 104 'Interim Financial Reporting' ("FRS 104"), the UCITS Regulations and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investments in Transferable Securities) Regulations 2019 (the "Central Bank UCITS Regulations") and should be read in conjunction with the Fund's annual audited financial statements for the financial year ended 31 December 2023 which were prepared in accordance with FRS 102, the UCITS Regulations, the Central Bank UCITS Regulations and Irish Statute comprising the Companies Act 2014. Accounting standards generally accepted in Ireland in preparing financial statements giving a true and fair view are those published by the Institute of Chartered Accountants in Ireland and issued by the Financial Reporting Council ("FRC").

Basis of preparation of condensed interim unaudited financial statements

The condensed interim unaudited financial statements are prepared under the historical cost convention as modified by the revaluation of financial assets and financial liabilities at fair value through profit or loss. The accounting policies have been applied consistently by the Fund to all periods presented in the condensed interim unaudited financial statements and with those applied to the Fund's annual audited financial statements for the financial year ended 31 December 2023.

In addition, the Fund has availed of the exemption available to open-ended investment funds under FRS 102 to not present a cash flow statement.

All references to net assets throughout the documents refer to Net Assets Attributable to Holders of Redeemable Participating Shares unless otherwise stated.

These condensed interim unaudited financial statements are unaudited. We note that the statutory auditor's report in the Fund's annual audited financial statements for the year ended 31 December 2023 was unqualified.

Foreign Exchange Translation

Functional and Presentation Currency

The functional and presentation currency is U.S. Dollar(US\$) in the case of Brandes Global Value Fund, Brandes U.S. Value Fund and Brandes Emerging

Markets Value Fund and Euro (EUR) in the case of Brandes European Value Fund. These are considered to be the currencies of the primary economic environments of the sub-funds of the Fund (the "Sub-Funds"). The presentation currency of the Fund's condensed interim aggregate financial statements is US\$.

The Statement of Financial Position is translated using exchange rates at the financial period end and the Statement of Comprehensive Income and Statement of Changes in Net Assets are translated at an average rate for Brandes European Value Fund for inclusion in the condensed interim aggregate financial statements of the Fund. See Note 11 for further details.

Critical accounting judgements and estimates

Management may make judgements, estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the condensed interim unaudited financial statements and the reported amount of income and expenses during the financial period. The resulting accounting estimates will, by definition, seldom equal the actual results. Revisions to accounting estimates are recognised in the period in which an estimate is revised.

Distribution Policy

The constitution of the Fund (the "Constitution") empowers the Directors to declare dividends in respect of any redeemable participating shares out of net income (including interest and dividend income) and/or the excess of realised and unrealised capital gains over realised and unrealised losses in respect of investments of the Fund. Net realised and unrealised capital gains of the Sub-Funds attributable to the Redeemable Participating Shares are expected to be retained by the relevant Sub-Fund. Distributions for the financial period are included within finance costs in the Statement of Comprehensive Income.

2. MANAGER, DISTRIBUTOR, ADMINISTRATOR AND DEPOSITARY FEES

a) Manager

The Manager is entitled to receive from the Fund out of the assets of each Sub-Fund an annual fee, equal to 0.70% of the NAV of Brandes Global Value Fund, Brandes European Value Fund, Brandes U.S. Value Fund and 0.85% of the NAV of Brandes Emerging Markets Value Fund.

These fees are calculated and accrue at each valuation point and are payable monthly in arrears.

As manager for the financial period ended 30 June 2024, the Manager earned a fee of US\$5,713,788 (30 June 2023: US\$4,536,783), of which US\$942,705 (31 December 2023: US\$1,666,374) was outstanding at the financial period end.

Notes continue on the next page

2. MANAGER, DISTRIBUTOR, ADMINISTRATOR AND DEPOSITARY FEES (Continued)

a) *Manager (Continued)*

The Manager has agreed to manage the total annual fund operating expenses for each of the classes in the Brandes Emerging Markets Value Fund by waiving, reducing or reimbursing all or any portion of its fees, to the extent that (and for such period of time that) the operating expenses are in excess of the percentage, per annum, specified below for the relevant share class NAV (the "Fee Cap"). With effect from 1 April 2020, the relevant fee cap is 0.95% for Class I Shares and 1.95% for Class A Shares, per annum, calculated on a daily basis on the NAV of the Sub-Fund. The Fee Cap may be removed at the discretion of the Manager provided that Shareholders will be given at least two weeks' notice prior to such removal. During the financial period ended 30 June 2024, the Manager reimbursed fees amounting to US\$30,787 (30 June 2023: US\$59,543), of which US\$2,931 (31 December 2023: US\$Nil) was outstanding at the financial period end.

b) *Distributor*

For the Class A shares, there is an additional fee of up to 1.00% of the NAV of the relevant Class A Share as a distribution fee. The fee is calculated and accrued at each valuation point and is payable quarterly in arrears to the distributors. Distribution fees attributable to Brandes Investment Partners, L.P ("Brandes LP") who acts as a distributor for the Fund, are paid directly to certain sub-distributors in accordance with the outstanding agreements between the Fund, Brandes LP and those sub-distributors.

In aggregate, Distributors earned fees of US\$1,084,697 for the financial period ended 30 June 2024 (30 June 2023: US\$1,184,126), of which US\$556,966 (31 December 2023: US\$516,160) was outstanding at the financial period end.

c) *Administrator*

The Administrator is entitled to receive an annual fee of US\$25,800 for financial reporting services including semi-annual and annual financial statements.

The Administrator is entitled to receive from the Fund out of the assets of each Sub-Fund an annual fee up to 0.0375% of the NAV of the Sub-Fund. These rates are inclusive of two base currency Share Classes per Sub-Fund with an additional US\$150 to be charged for additional base currency Share Classes or US\$250 to be charged for additional non-base currency Share Classes. Administration fees will be subject to a fixed annual minimum of US\$180,000 per Sub-Fund, calculated in aggregate across the umbrella. If the aggregate minimum for the umbrella is met, then the Sub-Fund minimums will not apply. This fee is calculated and accrued at each valuation point and is payable monthly in arrears.

The Administrator is entitled to receive an annual fee, accrued daily and payable monthly, of up to US\$1,800 per Sub-Fund per annum, for administrative tax reporting services in relation to the distribution in Germany and Austria. This fee is charged on a jurisdiction basis.

The Administrator shall also be entitled to receive reasonable vouched out-of-pocket expenses incurred in the performance of its duties.

The Administrator earned fees of US\$407,235 for the financial period ended 30 June 2024 (30 June 2023: US\$419,342), of which US\$325,646 (31 December 2023: US\$214,294) was outstanding at the financial period end.

d) *Depositary*

The Depositary is entitled to receive from the Fund out of the assets of each Sub-Fund an annual depositary fee up to a maximum of 0.075% of NAV for the safekeeping of assets and an annual trustee fee of 0.015% of the NAV of each Sub-Fund. This fee is calculated and accrued at each valuation point and is payable monthly in arrears.

As depositary for the financial period from 1 January 2024 to 30 June 2024, the Depositary earned a fee of US\$251,946 (30 June 2023: US\$224,589), of which US\$194,668 (31 December 2023: US\$110,525), was outstanding at the financial period end.

3. OPERATING EXPENSES

The Fund also pays out of assets of the Sub-Funds various fees incurred in the operation of the Fund. These fees include, but are not limited to, the publication and circulation of details of the NAV per Redeemable Participating Share, stamp duties, taxes, brokerage, the fees and expenses of auditors, dividend receipt, prepaid registration, overdraft, listing, legal and other professional advisers.

4. DIRECTORS' FEES AND EXPENSES

Each Director is entitled to charge a fee for their services at a rate determined by the Directors up to a maximum fee per Director of EUR25,000 per annum. Director, Oliver Murray is a member of Brandes LP, and Directors Adam Mac Nulty and Dylan Turner are employees of Brandes Investment Partners (Europe) Limited, all agreed to voluntarily waive their entitlement to a fee for the financial period ended 30 June 2024 and financial year ended 31 December 2023. All Directors will be entitled to reimbursement by the Fund of expenses properly incurred in connection with the business of the Fund or the discharge of their duties. Total Directors Fees were charged at EUR9,625 per Director for the financial period ended 30 June 2024 (31 December 2023: EUR19,250).

Total Directors fees for the financial period ended 30 June 2024 amounted to US\$30,571 (30 June 2023: US\$30,508). Total Directors insurance for the financial period ended

4. DIRECTORS' FEES AND EXPENSES (Continued)

30 June 2024 amounted to US\$27,395 (30 June 2023: US\$27,338). As at 30 June 2024, Directors fees payable amounted to US\$Nil (31 December 2023: US\$Nil). Income taxes and charges for the financial period ended 30 June 2024 amounted to US\$16,080 (30 June 2023: US\$16,384), with amounts payable at 30 June 2024 of US\$Nil (31 December 2023: US\$Nil).

The Directors' and officers' indemnity and Fund reimbursement liability insurance for the financial period ended 30 June 2024 was US\$27,395 (30 June 2023: US\$27,338).

5. SOFT COMMISSIONS

Brandes LP may execute brokerage transactions for the Fund with full service brokers who provide Brandes LP with research and brokerage products and services. In addition, Brandes LP currently maintains a limited number of soft-dollar arrangements with several brokers for the provision of third-party research (Client Commission Arrangements or "CCAs").

The Fund participates in the CCA programme of Brandes LP and has entered into soft commission arrangements involving commissions of the Fund for the provision of third party research or services during the financial period.

6. FINANCIAL RISK MANAGEMENT

Strategy in using Financial Instruments

In pursuing its investment objective, the Fund is exposed to a variety of financial risks including: market risk (including: price risk, currency risk and to a lesser extent interest rate risk), credit risk and liquidity risk that could result in a reduction in the Fund's net assets. The Fund's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Sub-Funds' financial performance.

The risks, and the Directors' approach to the management of those risks, are as follows.

Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of unfavourable movements in instrument market prices, foreign currency exposure and interest rates. The Fund is exposed to market risk on investments in that the Fund may not be able to readily dispose of its holdings when it so chooses and also that the prices obtained on held instruments upon disposal would be below that at which the investment is included in the Fund's condensed interim unaudited financial statements. Market risk can be analysed under three unique risk types: price risk, foreign currency risk and interest rate risk.

Price Risk

Price risk is the risk that the future fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from currency risk and interest rate risk), whether those factors are caused by factors specific to individual financial instruments or its issuer, or other factors affecting similar financial instruments traded in the market. At 30 June 2024 and 31 December 2023, the exposure of the Fund to financial instruments is disclosed in the schedule of investments on pages 7-9 for Brandes Global Value Fund, pages 14-16 for Brandes European Value Fund, pages 21-22 for Brandes U.S. Value Fund and pages 27-29 for Brandes Emerging Markets Value Fund.

The Sub-Funds' security investments consist of quoted equities, investment funds, depositary receipts and real estate investments trusts for which the values are determined by market forces. All security investments present a risk of loss of capital. The Manager moderates this risk through a careful selection of securities within specified limits. The maximum risk resulting from financial instruments is determined by the fair value of the financial instruments. The board of directors (the "Board"/the "Directors") manages the price risks inherent in the investment portfolios by ensuring full and timely access to relevant information from the Manager.

The Board meets regularly and at each meeting reviews investment performance and overall market positions, monitors the Manager's compliance with the Sub-Funds' investment objectives and is responsible for investment strategy and asset allocation. There were no material changes to the Fund's policies and processes for managing price risk and the methods used to measure risk since the financial period end.

The Sub-Funds' security investments are susceptible to market price risk arising from uncertainties about future prices of the instruments. The Sub-Funds' market price risk is managed through diversification of the investment portfolio.

At 30 June 2024 and 31 December 2023 the Fund's market price risk is affected by two main components: changes in actual security prices and foreign currency movements. Foreign currency movements are covered in the note that follows.

Currency Risk

Currency risk is the risk that the future fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Certain of the Sub-Funds' assets, liabilities and income are denominated in currencies other than the functional currency of the relevant Sub-Fund. Therefore, they are exposed to currency risk as their value will fluctuate due to changes in foreign exchange rates. Income and expenses denominated in foreign currencies are converted to the functional currency of the relevant Sub-Fund.

Notes continue on the next page

6. FINANCIAL RISK MANAGEMENT (Continued)

Currency Risk (Continued)

In accordance with the Fund's policy, the Manager monitors each of the Sub-Funds' currency position on a daily basis and the Board reviews it on a quarterly basis with reference to the schedule of investments analysed by country and appropriate commentary provided by the Manager. However, it is not the policy for the Fund to hedge currency positions that arise as a result of investment decisions by the Manager. There were no material changes to the Fund's policies and processes in respect of currency risk and the methods used to measure risk since the financial period end.

Interest Rate Risk

The majority of the Sub-Funds' financial assets and liabilities are non-interest bearing. As a result, the Sub-Funds are not subject to significant amounts of risk due to fluctuations in the prevailing levels of market interest rates. Typically, excess cash is held in an interest bearing account custodied at State Street Custodial Services (Ireland) Limited, where interest earned is the prevailing short term market interest rate.

This excess cash held with the Depositary may achieve a negative interest rate on deposits invested. Effects of negative interest rates on interest-bearing financial assets relate to changed business circumstances according to which some depositaries used by the Depositary charged negative interest rates on deposits held by the Depositary with those banks.

Credit Risk

The Sub-Funds take on exposure to credit risk, which is the risk that a counterparty or an issuer will be unable to pay amounts in full when due.

The Sub-Funds invest in financial assets, which have an investment grade as rated by a well-known rating agency. For unrated assets a rating is assigned using an approach that is consistent with rating agencies.

As 30 June 2024 and 31 December 2023, all of the Sub-Funds' cash was held with State Street Bank and Trust Company which had a credit rating of AA- (Standard & Poor's Rating) (31 December 2023: AA-)

The Sub-Funds' securities are maintained within the Depositary's custodial network in segregated accounts. The Depositary will ensure that any agent it appoints to assist in safekeeping the assets of the Sub-Fund will segregate the assets of the Sub-Fund. Thus in the event of insolvency or bankruptcy of the Depositary, the Sub-Fund's assets are segregated and protected. This further reduces counterparty risk. The Sub-Funds will, however, be exposed to the risk of the Depositary or certain depositaries used by the Depositary, in relation to the Sub-Funds' cash held by the Depositary.

In the event of insolvency or bankruptcy of the Depositary, the Sub-Funds will be treated as a general creditor of the Depositary in relation to cash holdings of the Sub-Funds.

Credit risk resulting from securities lending activity is managed in the context of the appointment of a securities lending agent and the Fund's oversight of the securities lending programme. The Board approves each counterparty for inclusion in the Fund's agency securities lending program based on a list of eligible counterparties provided by State Street Bank International GmbH, the Fund's securities lending agent.

All eligible counterparties have previously been reviewed by the Credit Department of State Street Bank International GmbH for its own internal credit review purposes as well as the financials sector research team of Brandes LP prior to becoming an eligible counterparty.

In addition, all lending transactions are fully collateralised per terms established in the Fund's lending agreement with the agent. The Fund is indemnified for the replacement value of lent securities in the event of a borrower's failure to return such securities. No securities were out on loan as of 30 June 2024 or 31 December 2023. In accordance with the Fund's policy, the Manager monitors the Sub-Funds' credit position on a daily basis, and the Board reviews it on a quarterly basis. There were no material changes to the Fund's policies and processes for managing credit risk and the methods used to measure risk since the financial period end.

There were no material changes to the Fund's policies and processes for managing credit risk and the methods used to measure risk since the financial period end.

At the reporting date, the principal credit risk exposure facing the Fund was through its holdings with the Depositary by the carrying amount of these holdings as stated in the Fund's Statement of Financial Position. At the reporting date, the Depositary had a credit rating of AA- attributed by Standard & Poor's (31 December 2023: AA-).

Liquidity Risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with short term financial liabilities. The Sub-Funds are exposed to daily cash redemptions of redeemable participating shares. The Sub-Funds invest the majority of their assets in equities and other financial instruments that are traded in an active market and can be readily disposed of. At any particular time, they invest only a limited proportion of their assets in investments not actively traded on a stock exchange.

The Sub-Funds' listed securities are considered readily realisable as they are listed on a stock exchange.

Notes continue on the next page

6. FINANCIAL RISK MANAGEMENT (Continued)

Liquidity Risk (Continued)

Per the prospectus of the Fund, generally the maximum amount that should be invested in any one holding is 5% of the Sub-Funds' total assets at the time of purchase.

In accordance with the Fund's policy, the Manager monitors the Sub-Funds' liquidity positions on a daily basis, and the Board reviews it on a quarterly basis. There were no material changes to the Fund's policies and processes for managing liquidity risk and the methods used to measure risk since the financial period end.

7. FAIR VALUE ESTIMATION

The fair value of financial instruments is based on their official quoted market price on a recognised exchange or sourced from a reputable broker/counterparty in the case of non-exchange traded instruments, at the Statement of Financial Position date without any deduction for estimated future selling costs. The Administrator may however adjust the value of financial assets if it considers such adjustment is required to better reflect the fair value thereof.

If a quoted official market price is not available on a recognised stock exchange or from a broker/counterparty, the probable realisation value shall be calculated with care and in good faith by the Directors or a competent person, including the Manager (being approved by the Depositary as a competent person for such purpose), with a view to establishing the probable realisation value for such assets as at the valuation point.

Such probable realisation values may be determined using valuation techniques that include recent arm's length market transactions, discounted cash flow techniques, or any other valuation technique that provides a reliable estimate of prices obtained in actual market transactions. There were no securities for all Sub-Funds that were priced in this manner as at 30 June 2024 and as at 31 December 2023.

FRS 102 Section 11.27 on "Fair Value: Disclosure" requires disclosure relating to the fair value hierarchy in which fair value measurements are categorised for assets and liabilities. The disclosures are based on a three-level fair value hierarchy for the inputs used in valuation techniques to measure fair value.

The fair value hierarchy as required under FRS 102 is based on the valuation inputs used to fair value the

financial assets and liabilities and consideration of the market activity for each individual financial asset and liability. The definitions for Levels 1, 2 and 3 are set out below.

Level 1: The unadjusted quoted price in an active market for identical assets or liabilities that the entity can access at the measurement date. This category includes instruments valued using quoted prices in active markets for similar instruments; quoted prices for identical similar instruments in markets that are considered less than active; or valuation techniques for which all significant inputs are directly or indirectly observable from market data.

Level 2: Inputs other than quoted prices included within Level 1 that are observable (i.e. developed using market data) for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: Valuation techniques using significant unobservable inputs. This category includes all instruments for which the valuation technique includes inputs not based on observable data and the unobservable inputs have a significant effect on the instruments valuation (i.e. for which market data is unavailable) for the asset or liability.

The level in the fair value hierarchy within which the fair value measurement was categorised in its entirety was determined on the basis of the lowest level input that was significant to the fair value measurement in its entirety. For this purpose, the significance of an input was assessed against the fair value measurement in its entirety. If a fair value measurement used observable inputs that required significant adjustment based on unobservable inputs, that measurement was a Level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety required judgement, considering factors specific to the asset or liability. The determination of what constituted "observable" required significant judgement by the Manager.

The Manager considered observable data to be market data that was readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

Fair value of financial assets and financial liabilities that are not measured at fair value

The Directors consider that the carrying amounts of these financial assets and liabilities recognised in the financial statements approximate the fair value. These are short-term financial assets and financial liabilities whose carrying amounts approximate fair value, because of their short-term nature and the high credit quality of counterparties.

During the financial period under review the Fund issued Redeemable Participating Shares representing different classes of shares as a consequence of different fee structures in relation to distribution fees, dividend policy and currency hedging policy applied to each share class.

8. SHARE CAPITAL AND REDEEMABLE PARTICIPATING SHARES

Management Shares and Redeemable Participating Shares

The authorised share capital of the Fund is €38,091 divided into 38,091 management shares of €1.00 each and 500,000,000,000 shares of no par value initially designated unclassified shares.

The issued management share capital of the Fund is €7 divided into seven management shares of €1.00 each of which €7 has been paid up and which are beneficially owned by Brandes LP (four shares) and the Manager (three shares). Shares do not entitle the holders to any dividend and on a winding down entitle the holder to receive the amount paid up thereon but not otherwise to participate in the assets of the Fund.

The Net Assets Attributable to Holders of Redeemable Participating Shares are at all times equal to the NAV of the Fund. The Redeemable Participating Shares are in substance a liability of the Fund to its shareholders, under FRS 102, as they can be redeemed at the option of the shareholder.

9. TAXATION

Under current law and practice, the Fund qualifies as an investment undertaking as defined in S739B(1) of the Taxes Consolidation Act, 1997, as amended. It is not generally chargeable to Irish tax on its income or capital gains. However, Irish tax may arise on the happening of a "chargeable event". A chargeable event includes distribution payments to shareholders or encashments, redemptions, cancellations, transfers of shares or the 8 year anniversary of holding shares in the Fund. Any tax arising on a chargeable event is a liability of the shareholder, albeit it is paid by the Fund (although if the Fund fails to deduct the tax or the correct amount of tax it becomes ultimately a liability of the Fund). No tax will arise on the Fund in respect of chargeable events in respect of:

- (i) a shareholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided the necessary signed statutory declarations are held by the Fund, and;

- (ii) an exempt Irish resident shareholder (as defined in section 739D of the Taxes Consolidation Act, 1997 (as amended)) who has provided the Fund with the necessary signed statutory declarations.

The Minimum Tax Directive provides for a European Union wide implementation of the Organisation for Economic Cooperation and Development ("OECD") Inclusive Framework on Base Erosion Profit Shifting ("BEPS") Pillar Two rules. The Pillar Two legislation was enacted in Ireland and is effective for the financial year beginning 01 January 2024. The Trust meets the definition of an investment entity under BEPS Pillar Two rules, and the clause within it that seeks to protect the tax neutrality of investment funds. This excludes the Trust from quantitative disclosures under BEPS Pillar Two requirement along with Qualified Domestic Minimum Top-up Tax ("QDMTT") requirement.

Dividend interest and capital gains (if any) received on investments made by the Fund may be subject to withholding taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the Fund or its shareholders.

10. EFFICIENT PORTFOLIO MANAGEMENT (“EPM”)

The Sub-Funds may employ investment techniques and instruments for efficient portfolio management (“EPM”) purposes and/or for short-term investment purposes under the conditions and limits set out by the Central Bank under the UCITS Regulations and in the Constitution. These techniques and instruments may include investment in financial derivative instruments (“FDIs”).

The Sub-Funds may enter into swap agreements, futures, forwards, options, and contracts for difference, repurchase and reverse repurchase agreements and securities lending agreements for EPM purposes, hedging purposes, to reduce portfolio risk or to obtain in a more efficient way exposure that would otherwise be obtained by direct investment in securities in accordance with the investment objectives. Transactions for EPM purposes may be undertaken with a view to achieving a reduction in risk and/or a reduction in costs and may not be speculative in nature. New techniques and instruments may be developed which may be suitable for use by a Sub-Fund and the Manager may employ such techniques and instruments.

The Sub-Funds may enter into repurchase agreements, reverse repurchase agreements and securities lending for EPM purposes only in accordance with normal market practice. There are no material revenues arising from the use of repurchase agreements or reverse repurchase agreements. All assets received by Sub-Funds in the context of EPM techniques should be considered as collateral. Any counterparty to a repo contract or stock lending arrangement shall be subject to an appropriate internal credit assessment carried out by the Manager (or its delegate), which shall include amongst other considerations, external credit ratings of the counterparty, the regulatory supervision applied to the relevant counterparty, industry sector risk and concentration risk.

None of the Sub-Funds entered into any FDI transactions for EPM purposes during the financial period ended 30 June 2024 or financial year ended 31 December 2023.

PORTFOLIO CHANGES - MATERIAL ACQUISITIONS

In accordance with the UCITS Regulations the annual report needs to document material changes that have occurred in the disposition of the assets of the Sub-Funds during the financial period. A material change is defined as aggregate purchases of a security exceeding 1 per cent of the total value of purchases for the financial period or aggregate disposals greater than 1 per cent of the total value of sales. If there were fewer than 20 purchases that met the material changes definition, the Sub-Funds shall disclose those purchases and such number of the next largest purchases so that at least 20 purchases are disclosed. If there are fewer than 20 sales that met the material changes definition, the Sub-Funds shall disclose those sales and such number of the next largest sales so that at least 20 sales are disclosed.

The purchases and sales of the Sub-Fund in relation to money market instruments for cash management purposes have been excluded from the below.

Neither the Letter from the Manager or the Manager's Reports (collectively the "Reports") constitute an offer to subscribe for shares in the Brandes Investment Funds plc (the "Fund"). Full details regarding the Fund are set out in the Prospectus for the Fund and a copy of the same can be obtained without cost from the Administrator for the Fund, your financial representative or the Fund's website at www.brandes.com/ucits. The foregoing Reports reflects the thoughts and opinions of Brandes exclusively and is subject to change without notice.

Past performance is not a guarantee of future results. The information provided in this material should not be considered a recommendation to purchase or sell any particular security. It should not be assumed that any security transactions, holdings or sectors discussed were or will be profitable, or that the investment recommendations or decisions we make in the future will be profitable or will equal the investment performance discussed herein. Portfolio holdings and allocations are subject to change at any time and should not be considered a recommendation to buy or sell particular securities. Strategies discussed herein are subject to change at any time by the Manager in its discretion due to market conditions or opportunities. Indices are unmanaged and are not available for direct investment. Market conditions may impact performance. The performance results presented were achieved in particular market conditions which may not be repeated. Moreover, the current market volatility and uncertain regulatory environment may have a negative impact on future performance. International investing is subject to certain risks such as currency fluctuation and social and political changes which may result in greater share price volatility; such risks are increased when investing in emerging markets. Additional risks associated with emerging markets investing include smaller-sized markets, liquidity risks, and less established legal, political, social and business systems to support securities markets. Emerging markets investments can experience substantial price volatility in the short term and should be considered long-term investments. Investments in small and medium capitalisation companies tend to have limited liquidity and greater price volatility than large capitalisation companies. There is no assurance that forecasts and forward-looking statements will be accurate. Because of the many variables involved, an investor should not rely on them without realising their limitations.

The foregoing reflects the thoughts and opinions of Brandes Investment Partners exclusively and is subject to change without notice.
