

## Key investor information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

## Capital Growth Fund

Security code: DWS0UY ISIN: DE000DWS0UY5

Management Company: Deutsche Asset Management Investment GmbH, a member of the Deutsche Bank Group.

## Objectives and investment policy

The objective of the investment policy is to achieve sustainable capital growth. To achieve this, the fund invests up to 100% of its assets in equities, fixed rate and floating rate securities, investment funds and money market instruments. In addition, investments may be made in various derivatives (derivatives are financial instruments whose value depends on the performance of one or more underlyings, such as a security). These include investment of up to 30% of the fund's assets in swaps, credit default swaps (derivatives where the default risk, of, for example a bond, is traded – CDS), forwards, futures and options. Up to 30% of the fund's assets may be invested in units of 'Other' investment funds. The selection of the individual investments is at the discretion of the fund management. The currency of the fund is EUR. The fund distributes annually. You may request the redemption of shares on each valuation day. The redemption may only be suspended in exceptional cases taking into account your interests as an investor.

## Risk and reward profile

The calculation of the risk and reward profile is based on historical data that cannot be used as a reliable indicator for the future risk profile. This risk indicator is subject to changes; the classification of the fund may change over time and cannot be guaranteed. Even a fund that is classified in the lowest category (category 1) does not represent a completely risk-free investment. The fund is classified in category 5 because its share price fluctuates comparatively strongly and the likelihood of both losses and gains is therefore relatively high. The following risks could be of particular significance for the fund. These risks can impair the performance of the fund and thus impact negatively on the net asset value per unit and on the capital invested by the investor. The unit value may at any time fall below the purchase price paid by the client.

There is the risk of loss resulting from the inadequacy or failure of internal systems, processes or people and as a result of external events. The fund invests a substantial portion in other funds. When investing in other funds, it must be taken into consideration that multiple target funds may follow investment strategies which are identical or contrary to one another. This can result in a cumulative effect of existing risks, and any opportunities for returns might be offset. The fund invests in equities. Equities are subject to strong price fluctuations and thus also to the risk of price decreases. The fund invests in bonds, the value of which depends on whether the issuer is able to afford its payments. The deterioration of credit quality (ability and willingness to repay) may have an adverse affect on the value of the bond. A more detailed description of risks and other general information can be found under "Risk warnings" in the sales prospectus.

## Charges

The costs and fees borne by you are used for the management, administration and custody of the fund, as well as for its distribution and marketing. These costs restrict the potential growth of your investment.

One-off charges taken before or after you invest	
<b>Entry charge</b>	No initial sales charge
<b>Exit charge</b>	No redemption fee
Charges taken from the fund over a year	
<b>Ongoing charge</b>	0,50 %
Charges taken from the fund under certain specific conditions	
<b>Performance fee</b>	None

The current costs specified here were incurred in the fiscal year of the fund, which ended on 30.09.2017. They may change from year to year. The current costs do not include the performance-based fee and the transaction costs. Additional information on costs can be found under "Costs" in the sales prospectus.

## Past performance

Past performance is not a reliable indicator of future performance. All costs and fees that were withdrawn from Capital Growth Fund were deducted during the calculation. Capital Growth Fund was launched in 2008. The performance was calculated in EUR.

## Practical information
