CARMIGNAC PORTFOLIO – Grande Europe Sub-fund

Investment objectives of the SICAV

The objective of the SICAV is to achieve the highest possible overall return for its shareholders and to enable them to benefit from professional management. It will offer its shareholders the opportunity to invest in several diversified portfolios of transferable securities with worldwide scope in order to realise long-term capital gains, without neglecting short-term income.

Shareholders have the option to choose the level of investment that they wish to make in any of the SICAV's sub-funds, according to their requirements or to their own views on future market trends.

The SICAV does not guarantee that the above-mentioned objective will be achieved; this depends on the positive or negative performance of the markets. In consequence, the net asset value may fall as well as rise. The SICAV is therefore unable to guarantee that its objective will be fully achieved.

The main objective of the accumulation shares of the Sub-fund is capital growth, which is reinvested in the SICAV.

Investment policy of the Sub-fund

The objective of the Sub-fund is to achieve long-term capital growth by investing its assets mainly in equities of European Union Member States and, on a supplementary basis, in equities of non-EU Member States or candidates for accession, Russia and Turkey.

However, investments in Russia together with investments in transferable securities other than those described in article 3.1.1 of the Prospectus may not exceed 10% of the net assets of the Sub-fund.

The assets which are not invested in equities of the countries specified above shall be preferably but not automatically invested in international transferable securities.

This Sub-fund may use derivative market techniques and instruments such as options and futures, provided that they are used in accordance with the investment policy and objectives of the portfolio.

This Sub-fund may acquire units of other undertakings for collective investment in transferable securities (UCITS) and/or open-ended undertakings for collective investment (UCIs) provided that no more than 10% of its net assets is invested in the units of these UCITS and/or UCIs.

It may also hold cash on an ancillary basis.

On an ancillary basis, the Sub-fund may invest in other transferable securities depending on forecasts for the market.

Risk profile

The risk profile of the Sub-fund is to be considered over an investment horizon of more than 5 years.

The Sub-fund is classed as risk category 3 on a scale of risk from 0 (lowest risk) to 6 (highest risk); 0 risk means very low volatility, but does not mean zero risk.

Potential investors must be aware that the assets of the Sub-fund are subject to the fluctuations of the international markets and to the risks inherent in investments in transferable securities and other assets in which the Sub-fund invests.

As a result of the Sub-fund's investment policy, the main risks incurred are:

- *Equity risk*: the Sub-fund is exposed to the equity risk of European Union Member States and of non-EU Member States or candidates for accession as well as of Russia and Turkey.
- *Currency risk*: the Sub-fund is exposed to currency risk through its acquisition of non-euro denominated securities or indirectly through the acquisition of euro-denominated financial instruments where the investments are not hedged against currency risk, as well as currency futures transactions.
- *Liquidity risk*: the Sub-fund is exposed to liquidity risk arising from the fact that the markets in which the Sub-fund is invested may occasionally be affected by a temporary lack of liquidity. These market distortions may have an impact on the pricing conditions under which the Sub-fund might be caused to liquidate, initiate or modify its positions.
- *Counterparty risk*: the Sub-fund is exposed to the risk of a counterparty defaulting on a payment.

Moreover, it should be noted that the management undertaken by the Sub-fund is discretionary; it is based on anticipating the evolution of the various markets. This being the case, there is a risk that the Sub-fund might not be invested in the best-performing markets at all times.

Shareholders have no guarantee that they will get back the capital invested.

Shareholders must be aware that investments in the emerging markets involve additional risks because of the political and economic situation in the emerging countries that may affect the value of the investments.

For further details regarding the risks inherent in investment in the Sub-fund, investors are advised to refer to the full Prospectus.

Investor profile

This Sub-fund is intended for all types of investors, be they natural persons or legal entities, seeking to diversify their investment via international stocks. Given the exposure of the Sub-fund to the equity market, the recommended investment period is over 5 years.

The appropriate amount to invest in this Sub-fund depends on the personal situation of the shareholder. To determine this amount, investors' personal wealth, their cash requirements now and 5 years from now as well as their degree of risk aversion must all be taken into account. It is recommended that the shareholder seek the advice of a professional in order to diversify his investments and to decide on the proportion of his financial portfolio or wealth that should be invested in this Sub-fund. It is also recommended that his investments be sufficiently diversified so as to avoid exposure exclusively to the risks of this Sub-fund.

Taxation

It is the responsibility of each shareholder to ascertain the tax treatment applicable in his case resulting from the law of his country, nationality or residence.

Under current legislation, shareholders are not required in the Grand Duchy of Luxembourg to pay any tax on income (which does not include a possible withholding tax), on capital gains, on *inter vivos* gifts, on inheritances, or any other tax, except, however, (a) those shareholders with their domicile or residence or permanent establishment in Luxembourg, (b) certain non-residents of Luxembourg holding 10% or more of the equity capital of the SICAV and who sell all or part of their shares within 6 months of their acquisition and (c) in a few restricted cases, certain categories of ex-residents of Luxembourg if they own 10% or more of the equity capital of the SICAV.

Nevertheless, the shareholders may, under certain conditions, be subject to withholding tax. Thus, the Luxembourg law of 21 June 2005, which came into force on 1 July 2005, has transposed Directive 2003/48/EC of the Council of the European Union of 3 June 2003 on taxation of savings income in the form of interest payments.

The purpose of this law is to introduce a withholding tax on savings income in the form of interest payments made in Luxembourg in favour of beneficial owners who are natural persons and resident for tax purposes in a Member State of the European Union other than Luxembourg.

In application of this law, the rate of withholding tax applicable will in time gradually be scaled up. It is currently 20% and shall be increased to 35% as of 1 July 2011. The withholding tax will not be applied if the beneficial owner expressly authorises the Paying Agent to disclose information to the authorities of his/her country of residence for tax purposes.

The foregoing provisions are based on the legislation currently in force and are subject to change.

Potential subscribers and shareholders are recommended to acquaint themselves and, if necessary, to seek advice regarding the laws and regulations (such as those concerning taxation and exchange controls) applicable to the subscription, purchase, holding and sale of shares in their countries of origin, residence and domicile.

The attention of shareholders resident in France for tax purposes is drawn to the fact that the Carmignac Grande Europe Sub-fund is eligible for the French equity savings plan (PEA), meaning that a minimum of 75% of the portfolio is permanently invested in securities or rights eligible for the PEA.
