DPAM B Real Estate EMU Dividend Sustainable

(a sub-fund of DPAM B SA, a public SICAV under Belgian law)

managed by DPAM SA

Classe E - ISIN: BE0947578820

Objectives and investment policy

Objective

- The objective of this sub-fund is to offer shareholders the highest long-term return by investing its assets in securities representative of the real estate sector in the broad sense in the EMU zone. The weighted average dividend yield of the fund's assets must exceed the dividend yield of the FTSE EPRA/NAREIT Eurozone Capped Net Return Index. These companies are selected on the basis of environmental, social and governance (ESG) criteria. The fund promotes a combination of environmental and social aspects, and invests partly in assets with a sustainable investment objective, as defined in Regulation (EU) 2019/2088 on sustainability-related disclosures for the financial services sector. This is an actively managed fund, which means that the portfolio manager does not aim to replicate the performance of a benchmark.

Investment policy

- Without limitation, the fund invests in securities representing the real estate sector in the broad sense in the EMU zone, notably including securities of REITS (real estate investment trusts), property companies, companies involved in property promotion and development and companies investing in real estate receivables. These companies must be domiciled or incorporated in the EMU zone or be listed on an organised market of the EMU zone. A significant portion of their assets or activities, or their profit centres or decision-making centres must be located in the EMU zone. The EMU zone comprises all countries that have adopted the euro as their national currency. The selection is based on a methodology that, across the entire portfolio, a) excludes companies that are not in compliance with certain global standards, including the UN Global Compact (human rights, labour, environmental protection and anti-corruption), b) excludes companies that are involved in controversial activities (tobacco, gambling, thermal coal, etc.) or involved in major ESG controversies (incidents, allegations related to environmental, social, governance issues). The selection is also based on an analysis and rating of the ESG profile of the invested company using ESG Scorecards (grids analysing the most relevant and material ESG risks

to which companies are exposed) only for the portion of investments with a sustainable objective. Finally, for the portion of investments with a sustainable objective, impact research and sustainability themes ensure that the company's products and/or services finance – in proportion to its turnover – sustainable development. More information can be found on the website: www.dpamfunds.com.

Benchmark: FTSE EPRA/NAREIT Eurozone Capped Net Return index.

Use of the benchmark: the benchmark is used to compare performance and to select a large part of the portfolio. Tracking error: The tracking error is the annualised volatility of the differences between the returns of the reference unit and the benchmark (or the reference index). This indicator measures (ex post) the extent to which the performance of the reference unit can deviate from that of its benchmark (or the reference index). The risk and return profile of the sub-fund may be aligned with that of the benchmark as the sub-fund invests mainly in the same securities as the benchmark. This may result in a tracking error of less than 3%.

Subscription/Redemption

- Subscription or redemption requests are processed once per week by Banque Degroof Petercam SA (cut-off time for receiving orders: every Wednesday that is a bank business at 3 p.m. (Belgian time)).

Types of Units

- The units of the fund are distribution units, issued in the form of shares, which give right to a dividend.

Investment holding period

- This fund may not be appropriate for investors who intend to withdraw their capital within 5 years of the initial investment.

Risk and reward profile

- All investments being risky by nature, the return (performance) is subject to a high degree of uncertainty. The risk and reward profile of your investment is reflected by a synthetic indicator which ranks the fund over a risk/return scale from the lowest (1) to the highest (7) risk category.
- The computation of this risk/reward profile is based on the portfolio's net asset value fluctuations (volatility) recorded over the past 5 years (or on simulations based on an appropriate benchmark for funds or share classes of less than 5 years). It gives an indication of the fund's potential performance and of your capital risk exposure, but it does not guarantee that the risk/reward profile currently published will remain unchanged.
- Historical data, such as those used in calculating the synthetic indicator, may not be a reliable indication of the future risk profile of the fund.
- The lowest risk/return category (level 1) does not mean a risk-free investment.
- The risk/return profile mentioned herein is essentially due to the presence of equities in the portfolio.
- The capital invested in this fund is neither guaranteed nor protected. You may therefore lose all or part of your investment.

Certain risks are not (or not adequately) reflected in the risk and reward profile mentioned herein. Amongst those risks, the following could have a material impact on the risk and reward profile of the fund:

- Liquidity risk: instruments in the real estate sector may have high liquidity risk. This risk mainly arises during periods of market tension.
- Concentration risk: as the portfolio is mainly composed of equities issued by real estate companies in the Eurozone, it is likely to be more specifically exposed to the economic development of this sector and area.

Charges

The charges are used to pay the costs of running the fund (including the marketing and distribution costs thereof). These costs reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	1.00%
Exit charge	N/A.

This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.
