### What is this product?

**Type** Capitalisation shares (shares for which income and capital growth are retained in the share price) of a sub-fund of a SICAV, a regulated open-ended fund whose sub-funds are independent from a liability point of view.

### Investment objectives and policy

**Objective(s)** To increase the value of your investment until the sub-fund reaches maturity (scheduled for 29 December 2028), while pursuing a sustainable objective.

**Benchmark(s)** The fund is managed without reference to an index.

**Investment policy** Under normal market conditions, the sub-fund invests primarily in investment grade bonds denominated in euros. In particular, the sub-fund favors companies whose products and services contribute to sustainability issues such as access to healthcare and education, renewable energies, responsible consumption and biodiversity protection.

The sub-fund may use derivatives to hedge against market fluctuations and reduce its costs, and also to generate additional income.

**Investment process** As part of the active management of the sub-fund, the manager uses macroeconomic, market and credit analysis in order to identify securities with a potential return that is advantageous in relation to the risk incurred.

**ESG approach** In its decision-making process, the manager integrates sustainability criteria such as the alignment of issuers' activities with the United Nations' Sustainable Development Goals. The manager excludes issuers that are highly controversial by international standards or have an unfavorable sustainability profile.

**SFDR Category** Article 9.

**Base currency** EUR

### What are the risks and what could I get in return?

#### Risk indicator

← Lower risk Higher risk →

The risk indicator assumes that you keep the product for at least **4 years**. The actual risk can vary significantly if you cash in before maturity and you may get back less.

The risk indicator is used to compare products on the basis of their potential risks. It is calculated using a regulatory methodology that takes

**Product availability** This sub-fund is available, with or without advice, for retail investors with basic financial knowledge and professional investors.

**Investor profile** This sub-fund is intended for investors who understand the risks of the sub-fund and:

- are looking for an investment that combines income generation and capital growth, and has a sustainable dimension
- are interested in exposure to developed bond markets, either as a core investment or for diversification purposes
- have a medium risk tolerance and can tolerate a moderate loss on this investment.

**Placing orders** You can buy, exchange or sell shares of the sub-fund every full Luxembourg bank business day.

#### Terms to understand

**article 9** Financial product that has a sustainable investment objective according to European regulations (SFDR).

**ESG** Environmental, social and governance.

**derivative instrument** Any financial security whose value is linked to one or more interest rates, indices, equities, currencies, commodities or other underlyings.

**bond** A financial security issued by a corporation, government or entity that generally pays interest. Investment grade bond issuers typically have a higher repayment capacity than issuers of high yield bonds.

**Depository:** *Banque Degroof Petercam Luxembourg S.A.*

account of market movements and the risk of loss if the product's originator is unable to repay you. The risk indicator is not guaranteed and its level may change over time.

**Any investment involves risk.** The value of your investment in this sub-fund will increase or decrease over time, and you may lose some or all of your investment. This product is in the low risk category (level 2 out of 7). Adverse market conditions will most likely decrease the value of your investment.

The sub-fund's risk level reflects the following:

- Bond investments have lower volatility and risk than equities and higher risk than money market instruments.

Other important risks partly or completely unreflected in the risk indicator:

- **If you invest in a product whose currency is different from yours, changes in exchange rates can also reduce your gains or increase your losses.**

• Unusual market conditions or unforeseeable events may magnify risks or trigger other risks such as counterparty, liquidity and operational risks (a full description of these risks is available in the prospectus).

• When the product is subject to significant repayment requests, it is possible that the execution of transactions will be delayed, which could have a negative impact on your investment.

## Performance Scenarios

This table shows the money you could get back (net of costs) over different periods, under different scenarios, assuming you were to invest EUR 10,000 in the sub-fund. You can compare this with the scenarios of other products.

The figures shown include all costs of the product itself. The figures do not take into account your personal tax situation, which may affect how much you get back.

What you get out of this product depends on future market performance.

**Please note that future market performance is uncertain and cannot be accurately predicted.**

Recommended holding period:		4 years	
Example Investment:		10 000 EUR	
		If you exit after 1 year	If you exit after 4 years
Scenarios			
Minimum

## What happens if Degroof Petercam Asset Services S.A. is unable to pay out?

The sub-fund's assets are segregated from those of the other sub-funds in the SICAV and from Degroof Petercam Asset Services S.A., the product manufacturer and management company of the sub-fund. Even if it were to fail, the product manufacturer could not use the sub-fund's assets to pay its debts.

The only scenario under which an investor could incur a loss is by selling shares at a time when they are worth less than what the investor paid.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

## Costs over time

This table shows the amounts deducted from your investment to cover various costs. These amounts depend on the amount you invest, the duration of your investment and the performance of the sub-fund. The amounts shown are illustrations based on a hypothetical investment amount and different investment periods.

We have assumed that:

- for the first year, you get back the amount you invested (0% annual return);
- for the other holding periods, the product evolves as indicated in the intermediate scenario;
- EUR 10,000 is invested.

	If you exit after 1 year	If you exit after 4 years
<b>Total costs</b>	<b>292 EUR</b>	<b>586 EUR</b>
<b>Annual cost impact (*)</b>	<b>2.9%</b>	<b>1.4% each year</b>

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period, your average return per year is projected to be 1.60 % before costs and 0,22 % after costs.

## Composition of the costs

One-off costs upon entry or exit		If you exit after 1 year
