### Key investor information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

# DeAWM Fixed Maturity Corporate Bonds 2025, a sub-fund of the SICAV DeAWM Fixed Maturity

#### Security code: A114ZR ISIN: LU1054166365

Management Company: Deutsche Asset Management S.A., a member of the Deutsche Bank Group.

#### **Objectives and investment policy**

The objective of the investment policy is to pay out sustainable annual distributions and to preserve capital invested at the subfund's maturity in 2025 (no guarantee). In order to achieve this, the fund invests in European government bonds denominated in or hedged against the euro. The fund uses derivatives such as credit default swaps for yield enhancement purposes and to implement corporate bond exposure. (A derivative, such as a credit default swap, is a financial instrument whose value depends on the development of one or more underlyings.) The term to maturity of the securities in the fund is based on the end of the fund term. The selection of individual investments is at the discretion of the fund management. The currency of the sub-fund is EUR. The fund distributes annually. This fund may not be suitable for investors who want to withdraw their money from their fund before 3 March 2025. The term of the fund is limited. It ends on 03.03.2025. You may request the redemption of shares on each valuation day. The redemption may only be suspended in exceptional cases taking into account your interests as an investor.

### **Risk and reward profile**

-	— Typicall	y lower return			Typically higher return			
-	- Lower ri	isk			Higher risk			
	1	2	3	4	5	6	7	]

The calculation of the risk and reward profile is based on simulated data that cannot be used as a reliable indicator for the future risk profile. This risk indicator is subject to changes; the classification of the fund may change over time and cannot be guaranteed. Even a fund that is classified in the lowest category (category 1) does not represent a completely risk-free investment. The fund is classified in category 4 because its share price fluctuates and the likelihood of both losses and gains may therefore be relatively high. The following risks could be of particular significance for the fund. These risks can impair the performance of the fund and thus impact negatively on the net asset value per unit and on the capital invested by the investor. The unit value may at any time fall below the purchase price paid by the client.

The fund concludes derivative transactions with various contractual partners to a significant extent. A derivative is a financial instrument whose value depends on the development of one or more underlyings. Due to its structure (e.g. due to leverage), it may have a stronger impact on the fund than is the case if an underlying instrument is acquired directly. The fund invests in bonds, the value of which depends on whether the issuer is able to afford its payments. The deterioration of credit quality (ability and willingness to repay) may have an adverse affect on the value of the bond. A more detailed description of risks and other general information can be found under "Risk warnings" in the sales prospectus.

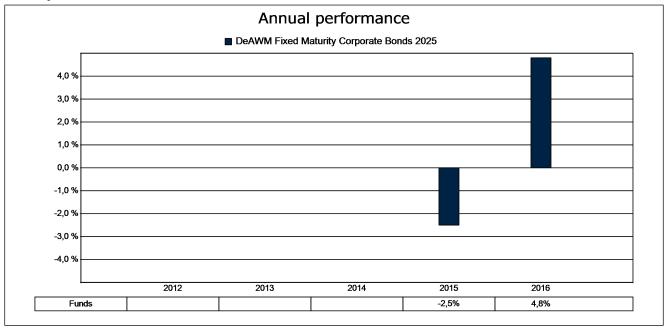

# Charges

The costs and fees borne by you are used for the management, administration and custody of the fund, as well as for its distribution and marketing. These costs restrict the potential growth of your investment.

One-off charges taken before or after you invest				
Entry charge	No initial sales charge			
Exit charge	No redemption fee			
Dilution adjustment	0.50% for five years after fund launch and 0.25% after five years until maturity. In addition 3.00% for the first 12 month-period after launch, 2.40% for the second 12-month period after launch, 1.80% for the third 12-month period after launch, 1.20% for the fourth 12-month period after launch, 0.60% for the fifth 12-month period after launch, 0% for the following periods. This is the maximum amount that can be deducted from the gross amount of the redemption.			
Charges taken from the fund over a year				
Ongoing charge	1,06 %			
Charges taken from the fund under certain specific conditions				
Performance fee	None			

The current costs specified here were incurred in the fiscal year of the fund, which ended on 30.06.2017. They may change from year to year. The current costs do not include the performance-based fee and the transaction costs. Additional information on costs can be found under "Costs" in the sales prospectus.

#### Past performance

Past performance is not a reliable indicator of future performance. All costs and fees that were withdrawn from DeAWM Fixed Maturity Corporate Bonds 2025 were deducted during the calculation. Initial sales charges and redemption fees were not taken into account. DeAWM Fixed Maturity Corporate Bonds 2025 was launched in 2014. The performance was calculated in EUR.

# **Practical information**

The custodian is State Street Bank Luxembourg S.C.A., Luxemburg. The sales prospectus, annual report and semiannual report are available in the language of this document or in German from DeAWM Fixed Maturity and may be requested free of charge. The current share prices as well as additional information about the fund are available in the language of this document or in German in the "Download" section of the fund on your local Deutsche Asset Management website or at www.dws.com. Information on the current remuneration policy of the management company, including a description of how remuneration and benefits are calculated is published on the Internet at www.db.com/cr/en/concrete-compensation-structures.htm. The information will be sent to you in written form free of charge upon request. The fund is subject to Luxembourg tax law. This may affect how you are taxed on your income from the fund. DeAWM Fixed Maturity may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the sales prospectus. DeAWM Fixed Maturity Corporate Bonds 2025 is a sub-fund of the SICAV DeAWM Fixed Maturity for which the sales prospectus and the regular reports are all created. The various sub-funds are not liable for one another, i.e. only the gains and losses of the fund are of significance for you as an investor. This fund is authorized in Luxembourg and is regulated by the Commission de Surveillance du Secteur Financier (CSSF). Deutsche Asset Management S.A. is authorized in Luxembourg and is regulated by CSSF.
