Edmond de Rothschild Asset Management (France) is authorised to operate in France under the no. GP 04000015 and is regulated by the Autorité des Marchés Financiers (AMF).

Key Information Document production date: 02/01/2025

What is this Product?

Type

The Product is a sub-fund of a French SICAV fund, which is a UCITS governed by European Directive 2009/65/EC.

Term

The term of the Product is 99 years. This Product has no maturity date. The Management Company reserves the right to dissolve the Product unilaterally. The Product may also be dissolved in the event of a merger, a total redemption of shares, or if the Product's net assets fall below the regulatory minimum amount. The assets and liabilities of the various sub-funds are segregated.

As such, any shares you hold in this sub-fund may not be exchanged for shares in another sub-fund in the EdR SICAV mutual fund.

Objectives

AMF classification: Bonds and other debt securities denominated in Euros.

The Product aims to outperform its benchmark (net of fees) over the recommended investment period, by investing in the corporate bond markets. The benchmark comprises 50% of the ICE BofA 1-5 Year A-BBB Euro Corporate Index with coupons reinvested, and 50% of the ICE BofA BB-CCC 1-3 Year Euro Developed Markets High Yield Constrained Index with coupons reinvested. In order to achieve this objective, additional remuneration will be sought for the bond portfolio through active management of interest rate risk and credit risk. The Product is managed actively, which means that the Manager makes investment decisions in line with the Product's investment policy with a view to achieving the Product's objectives. This active-management process entails taking decisions regarding the selection of assets, regional allocations, sectoral views and overall market exposure. The Manager is in no way limited by the composition of the benchmark index in the positioning of the portfolio, and the Product may not hold all the components of the benchmark index, or even any of the components in question at all. The fund may diverge wholly or significantly from the benchmark index or, occasionally, very little.

Benchmark index: 50% ICE BofA 1-5 Year A-BBB Euro Corporate Index, with coupons reinvested + 50% ICE BofA BB-CCC 1-3 Year Euro Developed Markets High Yield Constrained Index, with coupons reinvested

Investment policy: In order to achieve the management objective, the manager will invest up to 100% of the portfolio, in a discretionary manner, in bond-type securities issued by public or private companies. The ESG investment universe is composed of securities in the Product's benchmark index. The management company may select securities from outside the Product's benchmark index. However, it will ensure that the selected benchmark index is a relevant basis for comparison of the Product's ESG rating.

The Product aims to invest:

- a minimum of 30% of its net assets in bonds with a rating higher than or equal to BBB- (Standard & Poor's or equivalent, or with an equivalent internal rating awarded by the Management Company) and issued by public or private companies.
- a minimum of 30% of its net assets in high-yield bonds (rated below BBB- by Standard & Poor's or equivalent, or with an equivalent internal rating awarded by the Management Company, speculative securities with a higher risk of default than investment grade bonds);
- a maximum of 10% of its net assets in non-rated bonds;
- a maximum of 10% of its assets in bonds issued by public or private companies located in non-OECD countries;
- a maximum of 10% of its assets in bonds with a residual maturity of more than five years.

The manager will seek to select the most attractive issues, according to their convictions, in order to maximise the portfolio's risk/return ratio.

In order to hedge its assets and/or achieve its management objective, without seeking overexposure, the Product may use financial derivatives traded on regulated markets (futures, listed options), or over-the-counter markets (options, swaps, etc.).

In this context, the manager may create synthetic exposure or hedging on indices, business sectors or geographic areas. In this respect, the Product may take a position with a view to hedging the portfolio against certain risks (interest rate, credit, currency) or to exposing itself to interest rate and credit risks.

In this context, the manager may adopt strategies which principally aim to anticipate or hedge the Product against the default risk of one or more issuers or to expose up to 10% of the portfolio to the credit risk of one or more issuers.

These strategies will be implemented by purchasing or selling protection via credit default swap credit derivatives, on a single reference entity or on indices (iTraxx or CDX).

It may also implement strategies that aim to mitigate currency risks and/or manage interest rate risk through the use of financial contracts, particularly futures, options, and forward or swap contracts.

The Product may invest up to 10% of its net assets in contingent convertible bonds (CoCos).

The manager will also implement active management of the Product's sensitivity to interest rates, which may vary between 0 and 4.

The Product may be exposed to equity markets through the potential purchases of convertible bonds, subject to the limit of up to 10% of its net assets.

The Product may, on an ancillary basis, hold up to 10% of its net assets in securities issued in foreign currencies, for which the associated currency risk will be hedged. However, there may still be a residual currency risk of up to a maximum of 2% of the net assets.

DISCLAIMER: THIS PRODUCT MAY INVEST 30% OF ITS ASSETS IN BONDS WITH A LOW CREDIT RATING, IN WHICH CASE THE CREDIT RISK WILL BE VERY HIGH.

Allocation of income: Distribution

Allocation of net realised gains: Accumulation and/or Distribution and/or Carried forward

Intended retail investors

CRD EUR shares: All subscribers, provided they are willing to accept the risk of capital loss. These shares may be marketed to retail investors (non-professional or professional) in the following cases only:

- For subscriptions further to independent advice provided by a financial advisor or regulated financial entity.
- For subscriptions further to non-independent advice, with a specific agreement that does not authorise the advisor to receive or retain trailer fees.
- For subscriptions made by a regulated financial entity on behalf of its clients as part of a management mandate.
- For subscriptions as part of the provision of investment services (i.e. MiFID II-compliant services), paid for exclusively by the subscriber under a specific remuneration agreement waiving the management company's right to charge trailer fees.

In addition to the management fees charged by the Management Company, financial advisors or regulated financial entities may charge the investor management or advisory fees. The Management Company is not party to these agreements. The shares are not registered for marketing in all countries. As such, they are not available to retail investors in all jurisdictions. The person in charge of checking compliance with the criteria on investor and purchaser capacity and ensuring that the latter have received the required information is the person tasked with the actual marketing of the Product.

This Product may not be purchased by or benefit, either directly or indirectly, natural or legal persons residing or domiciled in the United States, citizens of the United States, or United States Persons.

Practical information

Custodian: Edmond de Rothschild (France)

You can request the redemption of your shares on any day of the week, except on public holidays and on the days on which French markets are closed (see the official Euronext Paris S.A. calendar), for orders received by the clearing house before 12:30 pm on the day before the net-asset valuation day.

The Product's prospectus, its latest annual report, and any subsequent semi-annual reports (in French, and in English, if required) will be provided free of charge upon written request to Edmond de Rothschild Asset Management (France) 47, rue du Faubourg Saint-Honoré - 75401 Paris Cedex 08 - France; telephone: +33 (0) 140 172 525; email: contact-am-fr@edr.com.

Share prices and, where necessary, information on other share classes, as well as information on the Product's net asset value, performance scenarios and past performance, can be found on www.edmond-de-rothschild.com.

What are the risks and what could I get in return?

Risk Indicator

Lower risk

Higher risk

The summary risk indicator assumes that you will hold the Product until the maturity date of the recommended holding period (2 years). The actual risk can vary significantly if you opt to exit before the maturity date, and you may get back less.

The summary risk indicator is provided as a guide to the level of risk of this Product compared to other products. It shows how likely it is that this Product will incur losses due to market fluctuations, or our inability to pay you.

We have assigned this Product a risk rating of 2 out of 7, which means that it is a low-risk product. In other words, the potential losses on the Product's future performance are in the low range and, if market conditions were to deteriorate, our ability to pay is very unlikely to be affected.

Moreover, you will also be exposed to the following risks (not shown in the summary risk indicator):

Credit risk: The risk that an issuer of debt or money market securities cannot meet its obligations, or that its credit rating is downgraded. It also refers to the risk that an issuer defaults on repayment at maturity.

Liquidity risk: Risk linked to the low level of liquidity on the underlying markets, which makes them sensitive to significant buy/sell trends.

Derivative risk: The use of derivatives may result in a more significant decline in the Product's net asset value than that in the markets where investments are made.

Counterparty risk: This is the risk that a market participant defaults, preventing them from honouring their commitments in respect of your portfolio.

The occurrence of any of these risks may negatively impact the net asset value. As this Product does not include any protection against future market performance, you could end up losing some or all of your investment.

Pay particular attention to currency risk. If an investment Product is denominated in a currency other than the official currency of the State in which the Product is marketed, the final return will depend on the rate of exchange between the two currencies. This risk is not taken into account in the indicator shown above.

Performance Scenarios

The figures shown include all the costs in connection with the Product itself, but may not include all of the costs that you may be required to pay your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this Product depends on future market performance. Future market trends are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the Product's and/or the relevant the benchmark index's worst, average, and best performance over the last 10 years.

Markets could trend very differently in the future.

The stress scenario shows what you might get back in extreme market conditions.

With an investment of EUR 10,000

Recommended holding period: 2 years		If you exit after 1 year	If you exit after 2 years (i.e. the recommended holding period)
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you could get back after costs are deducted	EUR 7,670	EUR 8,550
	Average annual return	-23.3%	-7.5%
Unfavourable	What you could get back after costs are deducted	EUR 9,230	EUR 9,470
	Average annual return	-7.7%	-2.7%
Moderate	What you could get back after costs are deducted	EUR 10,020	EUR 10,050
	Average annual return	0.2%	0.2%
Favourable	What you could get back after costs are deducted	EUR 10,670	EUR 11,160
	Average annual return	6.7%	5.6%

This table shows different scenarios illustrating the amounts that you could get back over the recommended holding period of 2 years, assuming you invest EUR 10,000.

Unfavourable scenario: This scenario occurred for an investment made between March 2018 and March 2020.

Moderate scenario: This scenario occurred for an investment made between August 2016 and August 2018.

Favourable scenario: This scenario occurred for an investment made between September 2022 and September 2024.

What happens if Edmond de Rothschild Asset Management (France) is unable to pay out?

The Product is a separate co-ownership comprising financial instruments and deposits held by the portfolio management company. Should the latter become insolvent, the Product's assets that are held by the custodian will not be affected. Should the custodian become insolvent, the risk that the Product incurs financial losses will be mitigated due to the legal requirement for the custodian's asset to be held separately from those of the Product.

Investments in the Product are not themselves hedged or guaranteed by a national compensation mechanism. The resale of the Product's shares, and the Product's capital and income, are not guaranteed by the Product manufacturer.

How much will this investment cost me?

The person who is selling you this Product, or advising you about this Product, may charge you additional costs. If so, this person will provide you with information about these costs and how they will affect your investment over time.

Costs over time

The tables show the amounts that are deducted from your investment to cover different types of costs. These amounts depend on how much you invest, and on how long you hold the Product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed that:

- In the first year, you would get back the amount you invested (0% annual return). For the other holding periods, the Product is expected to perform as shown in the moderate scenario.
- The investment is EUR 10,000.

With an investment of EUR 10,000	If you exit after 1 year	If you exit after 2 years (i.e. the recommended holding period)
Total costs	EUR 234	EUR 372
Annual impact of costs *	2.3%	1.9%

(*) This illustrates the extent to which the costs will reduce your return each year over the holding period. For example, it shows that if you exit at the end of the recommended holding period, your average annual return is projected to be 2.08% before costs, and 0.23% after costs.

We may share part of the costs with the person selling you the Product to cover the services they provide to you. If this is the case, they will inform you of the amount.

Composition of costs

With an investment of EUR 10,000 and an annual cost if you exit after 1 year.

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	Up to 1.00% of the amount you pay upon subscribing to the Product.	EUR 100
Exit costs	We do not charge an exit fee for this Product, but the person selling you the Product may do so.	EUR 0
Ongoing costs (deducted each year)		
Management fees and other administrative or operating costs	0.60% of the value of your investment per year. This is an estimate.	EUR 60
Transaction costs	0.74% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the Product's underlying investments. The actual amount will vary depending on how much we buy and sell.	EUR 74
Incidental costs deducted under specific conditions		
Performance fees (and carried interest)	0.00% , Description: 15% per year of the outperformance compared to the benchmark index, 50% ICE BofA 1-5 Year A-BBB Euro Corporate Index, with coupons reinvested, + 50% ICE BofA BB-COC 1-3 Year Euro Developed Markets High Yield Constrained Index, with coupons reinvested If a share in the Product outperforms its benchmark index – and even if the share's performance is negative –, a performance fee may be deducted during the reference period. The estimated aggregated costs shown above includes the average for the past 5 years.	EUR 0

The table above shows the annual impact of the different types of costs on the return you could obtain on your investment at the end of the recommended investment period.

The costs shown here do not include any additional costs that may be charged by your distributor or advisor, or any costs in connection with a package that the Product may be part of. If you invest in this Product as part of a life insurance or capitalisation contract, this document does not take into account the contract fees.

This table also explains what the different cost categories mean.

How long should I hold the Product, and can I take money out early?

Recommended holding period: 2 years

This Product is designed for short-term investments. You should be prepared to hold your investment in the Product for at least 2 years.

You can request the redemption of your shares on any day of the week, except on public holidays and on the days on which French markets are closed (see the official Euronext Paris S.A. calendar), for orders received by the clearing house before 12:30 pm on each net-asset valuation day.

A redemption cap mechanism (known as "gating") may be implemented by the Management Company. The way this works is described in the SICAV's Prospectus and Articles of Association.

How can I complain?

If you wish to make a complaint regarding the Product, the Product manufacturer or the person distributing or advising you about the Product, with a view to having a right recognised or a damage remedied, please send us a written request, describing the problem and the details of the complaint, by post or e-mail, to:

Edmond de Rothschild Asset Management (France), 47, rue du Faubourg Saint-Honoré, 75401 Paris Cedex 08, France.

E-mail: contact-am-fr@edr.com

Website: www.edmond-de-rothschild.com.

Other relevant information

Performance Scenarios: The latest performance scenarios are updated monthly at <https://funds.edram.com/>

There is not enough data to provide investors with any practical information on past performance.

When this Product is used as a unit-linked vehicle in a life insurance or capitalisation contract, additional information about the contract in question, such as the costs associated with the contract – which are not included in the costs mentioned in this document –, the person to contact in the event of a claim, and the procedures to follow if the insurance company fails, are provided in the contract's key information document, which must be given to you by your insurer or broker, or any other insurance intermediary, in compliance with their legal obligation.

Depending on your tax regime, any capital gains and income derived from your shareholdings in the UCI may be subject to taxation. We advise you to discuss this with the UCI marketer or your tax advisor.

Other Product information documents are available in French and can be obtained free of charge on request from the management company, Edmond de Rothschild Asset Management (France), Registered office: 47, rue du Faubourg Saint-Honoré, 75401 Paris Cedex 08, France - Website: www.edmond-de-rothschild.com.

Telephone: +33 (0) 140 172 525. E-mail: contact-am-fr@edr.com.

This Product promotes environmental or social characteristics, within the meaning of Article 8 of Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial services sector (known as the "SFDR Regulation"). Environmental, social and governance (ESG) criteria are one of the components that are managed, but their weighting in the final decision is not defined in advance.

This Key Information Document (KID) is updated at least once a year.
