FUND DETAILS

Ennismore Smaller Companies plc (the “Company”) was established on 8 October 1998, as an umbrella type investment company with segregated liability between sub-funds and with variable capital incorporated in Ireland in which different funds may be created from time to time. The Company is authorised by the Central Bank of Ireland (the “Central Bank”) as an Undertaking for Collective Investment in Transferable Securities in accordance with the provisions of the European Communities (Undertakings for Collective Investment in Transferable Securities) (“UCITS”) Regulations 2011 (the “UCITS Regulations”) and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the “Central Bank UCITS Regulations”). This, however, does not constitute a warranty by the Central Bank as to the financial standing or creditworthiness of the Company and the Central Bank will not be liable by virtue of its authorisation of the Company, or by reason of its exercise of the functions conferred on it by the Companies Act 2014, for the performance or default of the Company.

The Company has two sub-funds, the Ennismore European Smaller Companies Fund and the Ennismore Global Equity Fund (each individually, a “Fund” and collectively, the “Funds”). The Ennismore European Smaller Companies Fund launched on 27 January 1999 with the issue of a single class of shares (GBP “A” shares). In January 2011, three additional share classes were issued: GBP “B” shares, EUR “A” shares and EUR “B” shares. The Ennismore Global Equity Fund launched on 3 October 2016 with the issue of four share classes: EUR, GBP, GBP A, and CHF shares. Class EUR I shares launched on 2 July 2018, USD I shares launched on 31 December 2018, and Class EUR II shares launched on 14 February 2022.

The fee rates and liquidity terms are the same for all share classes, except for the EUR II shares where a lower management fee applies. The classes differ in that the performance fees are based on performance in the class currency and that the performance fee for “A” shares is calculated at share class level. For the other share classes an equalization method is used. The share class performance of the EUR I Shares, and USD I Shares are hedged to the performance in the base currency of the Fund (GBP). There is a minimum initial subscription of €40,000,000 for EUR II Shares.

SUMMARY INFORMATION (continued)

FUND DETAILS (continued)

The Funds are registered with the Financial Conduct Authority (“FCA”) in the United Kingdom (“UK”). The Funds have been granted Reporting Status for the GBP, EUR, CHF and USD denominated share classes for UK Capital Gains purposes.

INVESTMENT OBJECTIVE

The objective of the Ennismore European Smaller Companies Fund is to achieve capital growth by investing principally in small capitalisation European equity securities.

The objective of the Ennismore Global Equity Fund is to generate long-term capital growth by investing principally in equity securities listed on stock exchanges in developed markets.

Both Funds aim to achieve positive absolute returns in each period.

DEALING

The dealing procedures should be read in conjunction with the following “Important Notice” section below. The Dealing Day is each Business Day. Applications for issue and repurchase of redeemable participating shares (“Shares”) must be received by the Administrator prior to 5.00pm (Dublin time) on the Business Day preceding a Dealing Day in order to be dealt with on that Dealing Day. Any applications received after 5.00pm (Dublin Time) on the Business Day immediately preceding the Dealing Day shall, unless otherwise determined by the Administrator, be processed on the next following Dealing Day.

Applications should be addressed to the Administrator:

Northern Trust International Fund Administration Services (Ireland) Limited
Georges Court
54-62 Townsend Street
Dublin 2
Ireland
D02 R156

Tel: +353 1 542 2000

Fax: +353 1 670 1181

IMPORTANT NOTICE

If you are interested in investing, please contact the Ennismore Client Team on +44 (0) 20 7368 4200 or email subs@ennismorefunds.com. Redemptions can be made through the Administrator, as described above.

CHARGES PAID BY THE FUNDS

Investment Management Fees

Each Fund pays the Investment Manager a fee of:

- 2% per annum of the NAV of the Funds payable monthly in arrears with the exception of the EUR II Share Class. In respect of the EUR II Share Class, the Funds pay 1% per annum of the NAV of the Funds payable monthly in arrears.
- 20% per annum performance fee on value added.

The performance fee on Class A shares is calculated based on the excess of the Net Asset Value per “A” share at the end of the calendar year over the Net Asset Value per “A” share on the last dealing day of the latest year in which the performance fee was paid.

ENNISMORE SMALLER COMPANIES PLC

SUMMARY INFORMATION (continued)

CHARGES PAID BY THE FUNDS (continued)

Investment Management Fees (continued)

The performance fee on the other share classes is equal to 20% of the appreciation in the Net Asset Value per share during that Calculation Period above the Base Net Asset Value per share.

The Base Net Asset Value per share is the greater of the Net Asset Value per Share at the time of issue of that share and the highest Net Asset Value per Share achieved as at the end of any previous Calculation Period (if any) during which such share was in issue.

The performance fee in respect of each Calculation Period will be calculated by reference to the Net Asset Value before deduction for any accrued performance fees. Any performance fee is paid annually in January for performance achieved in the previous calendar year. Please see note 8 for the details of these fees.

Management Fees

The Funds pay Bridge Fund Management Limited (or “Management Company”) a fee not exceeding 0.0175% per annum of the Net Asset Value of a Fund at the relevant Valuation Date subject to the minimum fee of €60,000 per annum.

Administration Fees

Northern Trust International Fund Administration Services (Ireland) Limited (or “Administrator and Registrar”) is paid an administration charge and fees in respect of its duties as Administrator and Registrar by the Funds. The administration fee accrues and is calculated daily and paid monthly in arrears. It is charged at a rate of 0.07% per annum on the first £50 million of the Net Asset Value of each Fund on the last Dealing Day of each month and 0.06% per annum on the Net Asset Value of each Fund in excess of £50 million. This is subject to a minimum fee of £5,000 per month for each Fund with up to four Share Classes and £5,250 per month for each Fund with five or more Share Classes. The Administrator is also entitled to Shareholder dealing fees of £15 per Shareholder transaction and an annual Shareholder account fee of £15 per Shareholder account. The fees payable to the Administrator may be varied from time to time by agreement with the Company subject to the minimum disclosed above. Any such variation is notified to Shareholders. The fees are exclusive of value added tax (if any) payable by the Funds.

Depositary Fees

Northern Trust Fiduciary Services (Ireland) Limited acts as Depositary to the Funds (or “Depositary”). The Depositary is paid by each Fund with fees accruing and calculated daily and payable monthly in arrears. Fees are charged at a rate of 0.0225% per annum of the NAV of each Fund subject to a monthly minimum fee of £1,000.

Additionally, the Depositary is entitled to be reimbursed for all sub-custody fees and charges (charged at normal commercial rates). The fees payable to the Depositary may be varied from time to time by agreement with the Company. Any increase in the fees payable will be notified to Shareholders. The fees are exclusive of value added tax (if any) payable by the Funds.

CHARGES PAID TO THE FUND

Purchase or Redemption Charge

A redemption charge of 2% on redemptions from the Ennismore European Smaller Companies Fund is payable to that Fund. No charge is currently being made on subscriptions. Such charges are intended to cover the costs of the Fund investing or divesting in the underlying markets as a consequence of investor activity. There is no purchase or redemption charge applicable to the Ennismore Global Equity Fund.

The Fund's aggregate exposures are always a consequence of the investments that we make in individual companies and are not target levels that we set out to achieve. The net exposure of the portfolio increased slightly over the period, primarily due to a decrease in our short exposure. Gross exposure remains modest and, as always, the Fund has no external funding requirement.

ENNISMORE SMALLER COMPANIES PLC
NOTES TO THE FINANCIAL STATEMENTS
for the six months ended 30 June 2024

1. Material accounting policies

(a) Statement of compliance and basis of preparation

The condensed interim financial statements have been prepared in accordance with IAS 34 ‘Interim Financial Reporting’ (“IAS 34”) and should be read in conjunction with the annual financial statements for the year ended 31 December 2023 which were prepared in accordance with International Financial Reporting Standards.

(b) Use of estimates

The preparation of Financial Statements in accordance with IFRS requires the Board of Directors (or the “Directors”) to make judgements, estimates and assumptions that affect the application of policies and the reported amounts of assets and liabilities, income and expense.

The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

All references to Net Assets throughout this document refer to Net Assets Attributable to Holders of Redeemable Participating Shares, unless otherwise noted.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods. The significant estimates made in these financial statements relate to the valuation of the Level 3 positions. Refer to note 11 for details of these positions.

The significant judgement made in the financial statements relate to the determination of functional currency. Refer to note 1 (e) for further details.

(c) Financial assets and financial liabilities

i) Recognition and initial measurement

The Company initially recognises financial assets and financial liabilities at fair value through profit or loss (“FVTPL”) on the trade date, which is the date that the Company becomes a party to the contractual provisions of the instrument. Other financial assets and liabilities are recognised on the date they originated. Financial instruments categorised at FVTPL are measured initially at fair value, with transaction costs for such instruments being recognised directly in the Statement of Comprehensive Income. Financial instruments not at fair value through FVTPL are recognised initially at fair value plus transaction costs that are directly attributable to their acquisition or issue.

ii) Classification

On initial recognition, the Company classifies financial assets as measured at amortised cost or FVTPL. A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are Solely Payments of Principal and Interest (“SPPI”).

All other financial assets of the Company are measured at FVTPL.

1. Material accounting policies (continued)

(c) Financial assets and financial liabilities (continued)

ii) Classification (continued)

Business model assessment

In making an assessment of the objective of the business model in which a financial asset is held, the Fund considers all of the relevant information about how the business is managed, including:

- the documented investment strategy and the execution of this strategy in practice. This includes whether the investment strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realising cash flows through the sale of the assets;
- how the performance of the portfolio is evaluated and reported to the Fund's management;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- how the investment manager is compensated: e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, consistent with the Fund's continuing recognition of the assets.

The Company has determined that it has two business models:

- Held-to-collect business model: this includes Deposits with credit institutions, Cash held with counterparties, Cash equivalents and Debtors. These financial assets are held to collect contractual cash flow.
- Other business model: this includes Transferable Securities, Contracts for Differences, Options and Futures. These financial assets are managed and their performance is evaluated, on a fair value basis, with frequent sales taking place. Transferable Securities includes highly liquid financial assets with maturities of three months or less from the date of acquisition that are subject to an insignificant risk of changes in their fair value and are used by the Funds in the management of short-term commitments.

Assessment whether contractual cash flows are SPPI

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

ENNISMORE SMALLER COMPANIES PLC
NOTES TO THE FINANCIAL STATEMENTS
for the six months ended 30 June 2024 (continued)

1. Material accounting policies (continued)

(c) Financial assets and financial liabilities (continued)

ii) Classification (continued)

Assessment whether contractual cash flows are SPPI (continued)

In assessing whether the contractual cash flows are SPPI, the Company considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Company considers:

- contingent events that would change the amount or timing of cash flows;
- leverage features;
- prepayment and extension features;
- terms that limit the Company's claim to cash flows from specified assets (e.g. non-recourse features); and
- features that modify consideration of the time value of money (e.g. periodical reset of interest rates).

Reclassifications

Financial assets are not reclassified subsequent to their initial recognition unless the Fund were to change its business model for managing financial assets, in which case all affected financial assets would be reclassified on the first day of the first reporting period following the change in the business model.

iii) Subsequent measurement

Subsequent to initial measurement, the Company measures financial instruments, which are classified as FVTPL, at their fair values. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets (such as publicly traded derivatives and trading securities) are based on quoted market prices at the close of trading on the reporting date. When available, the Company measures the fair value of an instrument using the quoted prices in an active market for that instrument. A market is regarded as "active" if transactions for assets or liabilities take place with sufficient frequency and volume to provide pricing information on an ongoing basis. The Company measures instruments quoted in an active market at a mid-price, because this price provides a reasonable approximation of the exit price.

If there is no quoted price in an active market, then the Company uses valuation techniques that maximise the use of relevant observable inputs and minimise the use of unobservable inputs. The chosen valuation technique incorporates all of the factors that market participants would take into account in pricing a transaction.

Where discounted cash flow techniques are used, estimated future cash flows are based on the Directors' best estimates and the discount rate used is a market rate at the Statement of Financial Position date applicable for an instrument with similar terms and conditions. Where other pricing models are used, inputs are based on market data available at the Statement of Financial Position date. Fair values for unquoted equity investments are estimated, if possible, using price/earnings ratios for similar listed companies adjusted to reflect the specific circumstances of the issuer.

Subsequent changes in the fair value of financial instruments at FVTPL are recognised in the Statement of Comprehensive Income.

NOTES TO THE FINANCIAL STATEMENTS
for the six months ended 30 June 2024 (continued)

1. Material accounting policies (continued)

(c) Financial assets and financial liabilities (continued)

iii) Subsequent measurement (continued)

Financial assets and financial liabilities at amortised cost

The amortised cost of a financial asset or financial liability is the amount at which the financial asset or financial liability is measured at initial recognition, minus principal repayments, plus or minus the cumulative amortisation using the effective interest method of any difference between the initial amount and the maturity amount, minus any reduction for impairment. These assets are subsequently measured at amortised cost using the effective interest method. Interest income is recognised in interest income calculated using the effective interest method, foreign exchange gains and losses are recognised in net foreign exchange loss and impairment is recognised in impairment losses on financial instruments in the Statement of Comprehensive Income. Any gain or loss on derecognition is also recognised in Statement of Comprehensive Income.

At 30 June 2024 and 31 December 2023, the Company classified cash and cash equivalents and debtor balances at amortised cost.

iv) Impairment of financial assets at amortised cost

The Company measures loss allowances at an amount equal to lifetime expected credit loss (or “ECLs”), except for the following which are measured at 12-month ECLs:

- financial assets that are determined to have low credit risk at the reporting date; and
- other financial assets for which credit risk has not increased significantly since initial recognition.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward-looking information.

The Company assumes that the credit risk on a financial asset has increased significantly if it is more than 30 days past due.

The Company considers a financial asset to be in default when:

- the borrower is unlikely to pay its credit obligations to the Company in full, without recourse by the Company to actions such as realising security (if any is held); or
- the financial asset is more than 90 days past due.

Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument.

12-month ECLs are the portion of ECLs that result from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

The maximum period considered when estimating ECLs is the maximum contractual period over which the Company is exposed to credit risk.

ENNISMORE SMALLER COMPANIES PLC
NOTES TO THE FINANCIAL STATEMENTS
for the six months ended 30 June 2024 (continued)

1. Material accounting policies (continued)

(c) Financial assets and financial liabilities (continued)

iv) Impairment of financial assets at amortised cost (continued)

Measurement of ECLs

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Company expects to receive). ECLs are discounted at the effective interest rate of the financial asset.

The Directors have assessed that they do not expect credit losses on financial assets classified at amortised cost. The Directors consider the probability of default to be close to zero, as these instruments have a low risk of default and the counterparties have a strong capacity to meet the contractual obligations in the near term.

As a result, no ECL has been recognised in the financial statements based on 12-month expected credit losses as any such ECL would be wholly insignificant to the Company.

v) Derecognition

The Company derecognises a financial asset when the contractual rights to cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset.

On derecognition of a financial asset, the difference between the carrying amount of the asset (or the carrying amount allocated to the portion of the asset that is derecognised) and the consideration received (including any new asset obtained less any new liability assumed) is recognised in profit or loss. Any interest in such transferred financial assets that is created or retained by the Company is recognised as a separate asset or liability.

The Company derecognises a financial liability when the contractual obligations specified in the contract are discharged or cancelled, or expire.

vi) Offsetting of financial assets and financial liabilities

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously. Income and expenses are presented on a net basis for gains and losses from financial assets and financial liabilities at FVTPL and foreign exchange gains and losses. The financial assets and financial liabilities are reported at gross amount in the Statement of Financial Position.

(d) Income and Expenses

Coupon income and expense are recognised in the Statement of Comprehensive Income for all debt instruments and are reflected in movement in FVTPL. Bond interest income and expense are recognised in the Statement of Comprehensive Income using the effective interest rate method.

Dividends are recognised in the Statement of Comprehensive Income on the dates on which the relevant securities are listed as “ex-dividend”. Dividend income is shown gross of any withholding taxes, which is disclosed separately in the Statement of Comprehensive Income, and net of any tax credits.

ENNISMORE SMALLER COMPANIES PLC
NOTES TO THE FINANCIAL STATEMENTS
for the six months ended 30 June 2024 (continued)

1. Material accounting policies (continued)

(d) Income and Expenses (continued)

Bank interest income and expense is recognised on an accruals basis.

(e) Functional and Presentation Currency

The Company's financial statements are presented in GBP Sterling ("GBP £"), which is the Company's functional currency. All amounts have been rounded to the nearest pound, unless otherwise indicated.

Functional currency is the currency of the primary economic environment in which the Fund operates. If indicators of the primary economic environment are mixed, then management uses its judgement to determine the functional currency that most faithfully represents the economic effect of the underlying transactions, events and conditions. The Company's investments and transactions are primarily denominated in GBP Sterling, Euro, and US Dollars. Investor subscriptions and redemptions are determined based on net asset value and received and paid in GBP Sterling, Euro, CHF and US Dollar. The expenses are denominated and paid mostly in GBP Sterling. Management have determined that the functional currency of the Company is GBP Sterling.

(f) Company total for financial statements

The total figures in the Statement of Comprehensive Income and Statement of Financial Position represent the sum of the Funds on a combined basis excluding the effects of cross-holdings if any and not a consolidated total. The assets of one Fund cannot be used to settle the liabilities of another. There are no investments by Funds in the units of other Funds at 30 June 2024 and 30 June 2023, or during the periods then ended.

(g) Redeemable Participating Shares

Redeemable participating shares are redeemable at the shareholder's option and are classified as financial liabilities. The redeemable shares can be purchased by the Company at any time for cash equal to a proportionate share of the Fund's Net Asset Value.

The redeemable shares are carried at the redemption amount that is payable at the Statement of Financial Position date if the shareholders exercised their right to have the Company repurchase their shares. In accordance with the Prospectus, the Company is contractually obliged to redeem shares at dealing prices.

(h) Deposits held with credit institutions

Cash and bank balances comprise deposits with banks. Deposits are held at amortised cost and are presented in the Statement of Financial Position. Amortised cost approximates fair value.

(i) Cash held with counterparties

Cash held with counterparties is collateral deposited against contracts for difference and foreign exchange forward contracts held with counterparties.

ENNISMORE SMALLER COMPANIES PLC
NOTES TO THE FINANCIAL STATEMENTS
for the six months ended 30 June 2024 (continued)

1. Material accounting policies (continued)

(j) Transaction Costs

Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset or financial liability. An incremental cost is one that would not have been incurred if the entity had not acquired, issued or disposed of the financial instrument. Transaction costs for the period of GBP 538,266 (30 June 2023: GBP 357,479) have been included in the Statement of Comprehensive Income.

(k) Operating Expenses

The Company is responsible for all normal operating expenses including audit fees, stamp and other duties and charges incurred on the acquisition and realisation of investments. Operating expenses are recognised on an accruals basis.

(l) Forward currency contracts

Forward currency contracts are valued at the forward rate and are marked to market on the valuation date. The change in value is included in net gain/(loss) on financial assets and liabilities at fair value through profit or loss in the Statement of Comprehensive Income. When the contract is closed, the Company records a realised gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed. The unrealised gain or loss is calculated by reference to the forward price and is included in the Statement of Financial Position and are shown on the Portfolio and Statement of Investments. If the contract is due to close within 5 days of the year end the unrealised gain or loss is included within the Statement of Comprehensive Income and not within the Statement of Financial Position.

(m) Options Purchased

When the Company purchases a call or put option, an amount equal to fair value which is based on the premium paid is recorded as an asset. The option is subsequently marked-to-market to reflect the fair value of the option purchased, which is reported with financial assets or financial liabilities at fair value through profit or loss on the Statement of Financial Position and the Portfolio and Statement of Investments. When options are closed, the difference between the premium and the amount paid, net of brokerage commissions, or the full amount of the premium if the option expires worthless, is recognised as a gain or loss and is presented in the Statement of Comprehensive Income within other net changes in fair value of financial assets and liabilities at fair value through profit or loss.

(n) CFD (contract for differences)

A contract for difference (or “CFD”) is an agreement between the Company and a CFD counterparty to pay or receive the change in the value of an underlying security. At each valuation point the difference in price between the opening price of the CFD and the market price of the underlying equity is recorded as the value (unrealised gain or loss) of the CFD. When the CFD is closed, the difference between the opening price of the CFD and the closing price is recorded as a realised gain or loss in the Statement of Comprehensive Income.

(o) Standards and amendments to existing standards effective 1 January 2024

The principal accounting policies applied in the preparation of these financial statements are consistent with the accounting policies applied in the preparation of the Audited Financial Statements for the financial year ended 31 December 2023.

2. Taxation

The Company is an investment undertaking as defined in Section 739B of the Taxes Consolidation Act 1997, as amended. The Company will not be liable to tax in respect of its income and gains other than the occurrence of a chargeable event. Generally, a chargeable event arises on any distribution, redemption, repurchase, cancellation or transfer of shares on the ending of a “relevant period”. A “relevant period” being an eight year period beginning with the acquisition of shares by the shareholders, and each subsequent period of eight years being immediately after the preceding relevant period.

A gain on a chargeable event does not arise in respect of:

- (i) a Shareholder who is not an Irish resident and not ordinarily resident in Ireland at the time of the chargeable event, provided the necessary signed statutory declaration is held by the Company; or
- (ii) certain exempted Irish resident investors who have provided the Company with the necessary signed statutory declarations; or
- (iii) any transaction in relation to Shares held in a recognised clearing system as designated by the order of the Irish Revenue Commissioners; or
- (iv) certain transfers between spouses and former spouses; or
- (v) an exchange of Shares arising on a qualifying amalgamation or reconstruction of the Company with another Company; or
- (vi) an exchange of Shares representing one Fund for another Fund of the Company.

In the absence of an appropriate declaration, the Company will be liable to Irish Tax on the occurrence of a chargeable event. There were no chargeable events during the year under review.

Capital gains, dividends and interest received by the Funds may be subject to withholding taxes imposed by the country of origin, and such taxes may not be fully recoverable by the Funds or their Shareholders.

Additionally, the Funds may receive relevant distributions from companies resident in Ireland without the deduction of Dividend Withholding Tax (or “DWT”).

7. Share Capital

The Company has authorised share capital divided into 300,000,000 Shares of no par value and 30,000 Management Shares of EUR 1.2697 each. The Company has met the minimum capital requirement whereby the Company must, at all times, maintain a minimum capital requirement equivalent to EUR 300,000. The following tables show the movement in shares as at 30 June 2024 and 30 June 2023 for both Funds.

Management Shares

The issued share capital of Ennismore European Smaller Companies Fund includes EUR 8.8879 represented by 7 Management shares of EUR 1.2697 each, which have been issued to the Investment Manager and its nominees and on which EUR 2.2222 has been paid up. Management shares do not entitle the holders to any dividend and on a winding up, entitle the holder to receive the amount paid up thereon but not otherwise to participate in the assets of the Company. The Management shares do not form part of the net assets attributable to redeemable participating shareholders. They are thus disclosed by way of this note only. In the opinion of the Directors, this disclosure reflects the nature of the Company's business as an investment fund.

Each Shareholder shall have one vote in relation to any matter relating to the Company which is submitted to Shareholders for a vote by show of hands.

Each Share gives the holder one vote in relation to any matter relating to the Company which is submitted to Shareholders for a vote by poll. All Shares have equal voting rights.

Redeemable Participating Shares

8. *Related Party Transactions (continued)*

Bridge Fund Management Limited (or “Management Company”) is the Fund’s Manager under the Management Agreement. Fees for the financial period from the date of appointment amounted to GBP 37,498 (31 December 2023: GBP 72,505) of which GBP 12,711 (31 December 2023: GBP 6,444) remained payable at the financial period end.

9. *Use of Derivatives*

At the discretion of the Directors, the Funds may use financial derivative instruments including, in particular, contracts for difference (CFDs) for investment purposes, to obtain short exposure to equity securities that the Investment Manager believes are overvalued or to reduce transaction costs. The Ennismore Global Equity Fund may also purchase equity options.

While the prudent use of such a derivative can be beneficial, derivatives also include risks different from, and in certain case greater than, the risks presented by more traditional investments.

The Funds may be leveraged through the use of financial derivative instruments which may give net market exposure to equities of up to 120% of Net Asset Value for the Ennismore European Smaller Companies Fund and up to 130% for the Ennismore Global Equity Fund.

Gross equity exposure is limited to 200% of NAV.

The Investment Manager employs a risk management process which enables it to monitor and measure the risks attached to financial derivative instruments, and details of this process have been provided to the Central Bank. The Investment Manager will not utilise financial derivative instruments which have not been included in the risk management process until such time as a revised risk management process has been submitted and approved by the Central Bank.

10. *Contracts for difference (CFDs)*

The Funds use Contracts for Difference (CFDs). These are used primarily to obtain short exposure but long positions are also taken through the use of CFDs.

CFDs are agreements between the Company and third parties which allow the Company to acquire an exposure to the price movement of specific securities without actually purchasing the securities. Upon entering into a CFD, the Company is normally required to deposit with a broker an initial cash margin equal to a certain percentage of the contract amount.

Variation margin payments are made or received by the Company depending upon the fluctuation in the value of the underlying securities. While the contract or notional amounts reflect the involvement of the Company in these financial instruments, risks arise from possible adverse movements in foreign exchange rates and the prices of the underlying securities.

The total notional amount of CFDs held by the Funds at period end was GBP 209,919,994 (31 December 2023: GBP 230,231,343) (both long and short positions). The dividends paid on CFDs for the period ended 30 June 2024 was GBP 1,490,868 (30 June 2023: GBP 1,148,082).

11. Fair Value Hierarchy

IFRS 13 Fair Value Measurement requires the Company to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Level 1 – valued using quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 – valued using inputs other than quoted prices included within level 1 that are observable for the asset or liability either directly or indirectly.
- Level 3 – valued using inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The tables below analyse within the fair value hierarchy the Company's financial assets and liabilities measured at fair value at 30 June 2024 and 31 December 2023.

Investments whose values are based on quoted market prices in active markets, and therefore classified within Level 1, include active listed equities. The Company does not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within Level 2. As Level 2 investments include positions that are not traded in active markets and/or are subject to transfer restrictions, valuations may be adjusted to reflect illiquidity and/or non-transferability, which are generally based on available market information.

Level 2 investments also include CFDs which are valued based on the movement in the contract value and market value (unrealised gain or loss) of the underlying equity security.

During the period ended 30 June 2024, there were no transfers between Levels 2 and 3 of the fair value hierarchy for financial assets and financial liabilities (31 December 2023: Nil).

For assets and liabilities carried at amortised cost, their carrying values are a reasonable approximation of fair value. All assets and liabilities not held at fair value are classified as Level 2 or Level 3.

As at 30 June 2024, the Ennismore European Smaller Companies Fund held 3 Level 3 investments (31 December 2023: 3) being long positions in Trader Media East and Studio Retail Group, and a short position in Bio-on S.p.A. Ennismore Global Equity Fund held 1 Level 3 investment (31 December 2023: 1) being a short position in Bio-on S.p.A.

The holding in Trader Media East was written off by the Fund in January 2013 due to a significant level of uncertainty surrounding the financial position of the Trader Media East following the cancellation of a fully funded rights issue in 2013. No value has been attributed to the position since that date.

Studio Retail Group issued a profit warning in January 2022 and, following a significant share price fall and the inability of the company to secure short-term funding, it entered administration in February 2022. The business was acquired by Frasers Group from the Administrators and no value will be received by equity holders. The holding was written off in full. Studio Retail Group was previously classified as a Level 1 holding.

11. Fair Value Hierarchy (continued)

Bio-on S.p.A. was declared bankrupt in December 2019. The courts tried numerous times in 2021 and 2022 to auction off the assets of the business and following a number of unsuccessful auctions, the assets were eventually sold for EUR 16.5 million in late 2022. The bankruptcy composition proposal advanced to the liquidators included, among other things, EUR 16.5 million guaranteed by loans for the purchase of the entire company, the payment in full to privileged creditors and an 8.5% share to unsecured creditors. Based on the terms of the transaction, equity holders will not receive any value for their shares. As the position is held short, and there may be some costs associated with unwinding it, the Directors took the decision to value the position based on a written down value for the underlying shares of EUR 1 per share. Bio-on S.p.A was previously classified as a Level 2. As the valuation of Level 3 investments is based on unobservable inputs, the actual amount that may be realised on Level 3 investments may differ significantly from the reported valuation.

During the period ended 30 June 2024, Ennismore Smaller Companies held assets which are shown as Level 3 investments.
