What is this product?

Type

The product is a share class of the sub-fund Franklin ESG-Focused Balanced Fund (the "Fund") which is part of Franklin Templeton Opportunities Funds, an open-ended investment company with variable capital (SICAV), qualifying as a UCITS.

Term

The Fund has no maturity date. The Fund could be closed under the conditions laid down in the current prospectus of the Fund.

Objectives

Investment Objective

The Fund is classified as Article 8 under EU Sustainable Finance Disclosure Regulation and aims to earn income and to increase the value of its investments while taking environmental, social and governance considerations into account when selecting investments over the medium to long term.

Investment Policy

The Fund pursues an actively managed investment strategy and invests mainly in:

- debt securities of any quality (investments in high yield is limited to 15% of the Fund's assets) issued by governments, government-related entities and corporations located in any country, but is expected to invest primarily in debt of European governments or issuers, or which are euro-denominated
- equity and equity-related securities issued by companies of any size located in developed markets globally (at least 80% of the equity securities allocation is components of the MSCI World Index NR – Eur)

The Fund can invest to a lesser extent in:

- distressed securities, i.e. securities of companies that are, or are about to be, involved in reorganisations, financial restructurings, or bankruptcy (limited to 10% of assets)
- convertible securities and up to 5% of the Fund's assets in contingent convertible securities
- derivatives for hedging, efficient portfolio management and investment purposes
- deposits/cash and units of other mutual funds (both limited to 10% of assets)
- mortgage- and asset-backed securities (limited to 10% of assets)

The Fund employs a binding environmental, social and governance (ESG) rating methodology applied to the whole portfolio and invests only in equity securities which have a score equal to or higher than the median ESG score of the MSCI World's index and in debt securities with a scoring equal or above B as measure by the MSCI ESG scores (however, the Fund may hold securities below such scorings).

Benchmarks: Blended 50% MSCI World-NR (EUR) + 50% Bloomberg Euro Aggregate Index (used for performance comparison purposes from a financial and from an ESG perspective – not set as a target for the Fund's performance to beat). The MSCI World Index-NR is used as a universe to select investments for the equity securities allocation. Although the Investment Manager is constrained by this index in its portfolio positioning/composition, the Fund is not obliged to hold all of the index constituents and may invest up to 20% of the equity securities allocation outside such index. The Fund is not obliged to hold any of the Bloomberg Euro Aggregate Index constituents.

Share Class Policy

For the distribution share class shown in this document, dividend income is distributed to shareholders.

Dividends may also be paid out of the capital of the Fund.

For this share class, the manager applies a portfolio hedge that is intended to minimize the currency risk between the currency of the share class (which is in a non-base currency) and the base currency of the Fund.

Processing of subscription and redemption orders

You may request the sale of your shares on any Dealing Day (as defined in the current prospectus of the Fund).

Intended retail investor

The Fund may appeal to investors looking to income and capital appreciation by investing in a diversified portfolio of equity and debt securities with ESG considerations and willing to hold their investment over the medium to long term for a minimum of 3 to 5 years. The Fund is suitable for investors who have a basic knowledge and/or experience of financial markets with the understanding that they may not get back the full amount invested in the Fund.

Depositary

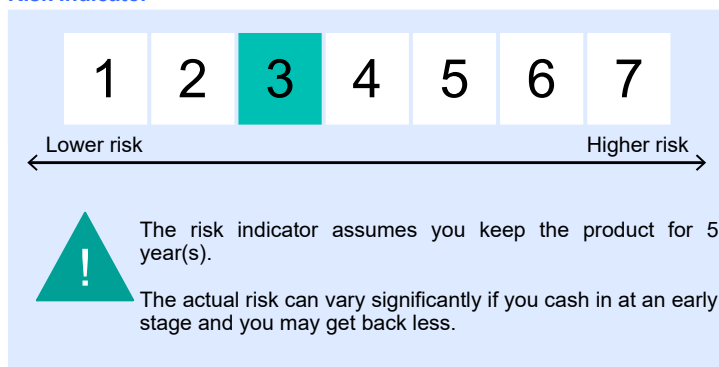

J.P. Morgan SE, Luxembourg Branch

What are the risks and what could I get in return?

Risk Indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets.

We have classified this product as 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the capacity to pay you.

Be aware of currency risk. In some circumstances, you may receive payment in a different currency, so that the final return you get may depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Other risks materially relevant to the product not included in the summary risk indicator:

- Credit risk
- Counterparty risk

For a full discussion of all the risks applicable to this Fund, please refer to the "Risk Considerations" section of the current prospectus of the Fund.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and the suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Recommended holding period:

5 years

Example Investment:

10,000 USD

If you exit after 1 year

If you exit after 5 years

What happens if Franklin Templeton International Services S.à r.l. is unable to pay out?

Franklin Templeton International Services S.à r.l. ("FTIS") is the management company of the Fund, but the assets of the Fund are held separately from FTIS by the depositary. J.P. Morgan SE, Luxembourg branch, as the appointed depositary, is liable to the Fund or its shareholders for losses caused by its negligent or intentional failure to fulfill its safekeeping or record-keeping obligations (cash could however be lost in case of default of the depositary or its delegates).

There is no compensation or guarantee scheme protecting you from a default of the Fund's depositary.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- USD 10,000 is invested

	If you exit after 1 year	If you exit after 5 years
Total costs	65 USD	439 USD
Annual cost impact (*)	0.7%	0.7% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 8.1% before costs and 7.4% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Please note that the figures shown here do not include any additional fees that may be charged by your distributor, advisor or any insurance wrapper in which the fund may be placed.

Composition of Costs

How long should I hold it and can I take money out early?

Recommended holding period: 5 year(s)

This Fund has no minimum required holding period. We consider that the 5 year recommended holding period is appropriate because the Fund is designed for long-term investment. You may sell your shares on any dealing day. The value of your investments may go down as well as up irrespective of the period you are holding your investments, depending on such factors as the performance of the Fund, movements in stock and bond prices, and conditions in financial markets generally. Please contact your broker, financial adviser or distributor for information on any costs and charges relating to the sale of the shares.

How can I complain?

Investors who would like to receive the procedures relating to complaints handling or wish to make a complaint about the Fund, the operation of FTIS or the person advising on or selling the Fund, should go on the website www.franklintempleton.lu, contact Franklin Templeton International Services, S.à r.l., 8A, rue Albert Borschette L-1246 Luxembourg, or send an e-mail to the client service department at lucs@franklintempleton.com.
