

# Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest. Unless otherwise defined in this document, all words and expressions defined in the Fund's current Prospectus shall have the same meaning herein.

## GAM Star Cat Bond

hereafter the "Fund", a sub-fund of GAM Star Fund p.l.c.

**Inst Acc - GBP** (the "Share Class") **ISIN: IE00B691BK23**

**Manager: GAM Fund Management Limited** part of GAM Group AG.

### Objectives and investment policy

- The investment objective of the Fund is to generate returns.
- The Fund seeks to achieve this objective through selective investment in a global portfolio of catastrophe bonds ("CAT Bonds"). CAT Bonds are debt securities that transfer the risk of catastrophic events from insurance companies, reinsurance companies, corporations, governments, etc. to the capital markets.
- CAT Bonds may or may not be rated by an independent rating agency and there are no credit quality or maturity restrictions on the CAT Bonds to which the Fund may gain exposure. Such CAT Bonds may have fixed, variable or floating rates of interest and have a maturity of 1-4 years.
- The Fund may also hold up to 10% in Fixed Income Securities issued by companies in the insurance sector, such as corporate bonds, including junior debt securities, which need not be of investment grade.
- The Fund's investments in CAT Bonds are subject to relative infrequent but severe losses resulting from the occurrence of one or more catastrophic events.
- The Fund promotes environmental and/or social characteristics in accordance with Article 8 of Regulation (EU) 2019/2088 ("SFDR") but does not have sustainable investment as its objective.
- The Fund is considered to be actively managed in reference to Sterling Overnight Index Average (SONIA) (the "Benchmark") and the Eurekahedge ILS Advisers Index (the "Index") by virtue of the fact that it uses the Benchmark and Index in the appropriate currency for performance comparison purposes and the performance fees payable to the Fund Manager may be calculated based on the performance of the Fund against the Benchmark. However the Benchmark and Index are not used to define the portfolio composition of the Fund or as a performance target and the Fund may be wholly invested in securities which are not constituents of the Benchmark or Index.
- Shares in the Fund can be bought and sold every second and fourth Monday and the last Business Day of the month.
- The Fund has several share classes. These may differ with regard to fees, minimum investment, currency, use of revenues and investor qualification.
- Any income arising from this Share Class will be accumulated. Other share classes of the Fund may distribute income.
- The fund manager has discretion in managing the investments of the Fund.
- The Fund may use a number of simple derivative instruments for investment purposes and/or efficient portfolio management purposes. Further information on the Fund's use of derivatives can be found under the Derivatives section within the Fund's Supplement. Although the use of derivatives may give rise to an additional exposure any such additional exposure will not exceed the Fund's Net Asset Value.
- The share class is denominated in GBP. This is hedged against the Fund's base currency.
- Recommendation: this fund may not be appropriate for investors who plan to withdraw their money within three years.

### Risk and reward profile

The risk indicator is based on the volatility of the Fund's performance over the last 5 years. Where 5 years' performance history is not available the data is supplemented by proxy fund, benchmark data or a simulated historical series as appropriate.

- The Fund is assigned to the above category based on its historical fluctuations in value.
- The indicator helps investors to have a better understanding of the potential gains and losses related with the Fund. In this context, even the lowest category does not represent a risk-free investment.
- This profile is determined using historical data, as such may not be a reliable indication for the future risk profile. It is not guaranteed and may shift over time.
- This allocation to a risk category may change over time because the future performance of the Fund may fluctuate differently from in the past.
- The Fund does not offer the investor a guaranteed return. Nor does it guarantee the fixed repayment of the money invested in the Fund by the investor.

Further risks that may have a significant effect on the net asset value of the Fund include:

- **Liquidity Risk:** some investments can be difficult to sell quickly which may affect the value of the Fund and, in extreme market conditions, its ability to meet redemption requests.
- **Credit Risk / Debt Securities:** bonds may be subject to significant fluctuations in value. Bonds are subject to credit risk and interest rate risk.
- **Insurance-Linked Securities Risk:** Cat bonds are exposed to catastrophes through which they may suffer substantial or total losses of amounts invested. In such an event or combination of events, which may happen at any time, the Fund's value may fall significantly and may not recover.
- **Credit Risk / Non-Investment Grade:** non-investment grade securities, which will generally pay higher yields than more highly rated securities, will be subject to greater market and credit risk, affecting the performance of the Fund.
- **Currency Risk - Non Base Currency Share Class:** non-base currency share classes may or may not be hedged to the base currency of the Fund. Changes in exchange rates will have an impact on the value of shares in the Fund which are not denominated in the base currency. Where hedging strategies are employed, they may not be fully effective.
- **Capital at Risk:** all financial investments involve an element of risk. Therefore, the value of the investment and the income from it will vary and the initial investment amount cannot be guaranteed.
- **Interest Rate Risk:** a rise or fall in interest rates causes fluctuations in the value of fixed income securities, which may result in a decline or an increase in the value of such investments.

The "Risk Factor" section of the Prospectus and the "Risk Factor" section of the Fund Supplement for this Fund give you more details about all the risks for the Fund – see under "Practical Information" for how to obtain a copy.

## Charges

The charges you pay are used to pay the costs of running the Share Class, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	5.00%
Exit charge	3.00%
Switching charge	1.00%
This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.	
Charges taken from the fund over a year	
Ongoing charges	1.07%
Charges taken from the fund under certain specific conditions	
Performance fee	<p>Calculation Methodology: 10.00% of any Share Class Return, subject to a High Water Mark or outperformance of the prorated Sterling Overnight Index Average (SONIA) rate of return, whichever is lower.</p> <p>Calculation period is based on the same period as the ongoing charge.</p> <p>Performance fee charged in the last Calculation Period: 0.70%.</p>

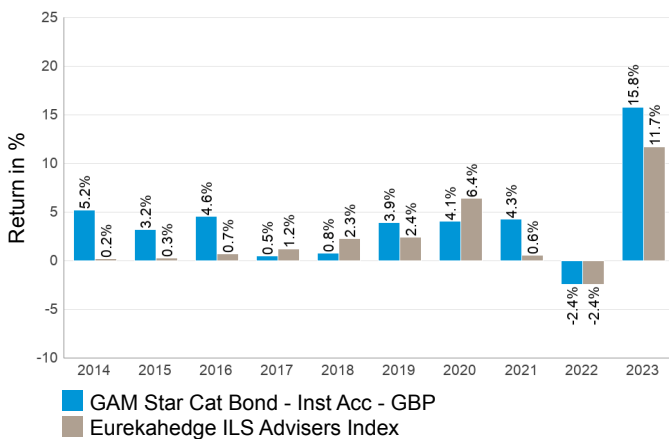

The **entry, exit and switching charges** shown are maximum figures. In some cases you might pay less – you can find this out from your financial adviser.

The **ongoing charges** figure is based on expenses at the end of the financial year and includes the ongoing charges of the underlying funds. This figure may vary from year to year. It excludes bank interest, portfolio transaction costs and any performance fees if applicable.

You may be charged a **dilution levy** of up to 1% of the value of the Shares (representing the cost of buying or selling investments) on entry to or exit from the Fund.

**For more information about charges, please see the “Fees and Expenses” section of the Prospectus and the “Fees” section of the Fund Supplement, which are available at [www.gam.com](http://www.gam.com)**

## Past performance

- Please note that past performance is not necessarily a guide to the future performance of the Fund.
- The data is net of tax and charges and is exclusive of subscription and redemption fees, as any subscription and redemption fees are not received by the Fund.
- Launch year of the Fund: 2011  
Activation year of the share class: 2012
- Past performance has been calculated in GBP and relates to the Share Class.
- On 02.11.2020 the benchmark of this Fund changed from the FTSE (WGBI) World Govt Bond Index to the Eureka hedge ILS Advisers Index. Therefore, the performance of the index shown until 01.11.2020 is the performance of the FTSE (WGBI) World Govt Bond Index and the performance after that is the performance of the Eureka hedge ILS Advisers Index.
