

## Key investor information

This document provides you with key investor information about this collective investment scheme. It is not marketing material. The information is required by law to help you understand the nature of this collective investment scheme and the risks of investing in it. You are advised to read it so you can make an informed decision about whether to invest.

### GKB (CH) Strategiefonds Wachstum ESG W (ISIN: CH1131363660)

GKB (CH) Strategiefonds Wachstum ESG W is a unit class of the subfund GKB (CH) Strategiefonds Wachstum ESG (hereinafter "fund"), a subfund in the umbrella fund GKB (CH). The fund is managed by Swisscanto Fund Management Company Ltd., Zurich. The Asset Manager: Graubündner Kantonalbank.

## Objectives and investment policy

The fund's primary investment objective is to achieve long-term capital gains and, in addition, to generate income, while taking into consideration the asset manager's sustainability approach.

### Important features:

The fund invests indirectly via other funds in shares and other equity securities, bonds and other debt securities, as well as in other investments permitted under the fund contract. Averaged over the long term, 75% of the fund's assets shall be invested in shares, whereby the ratio may be as high as 85%, depending on the market situation. The sustainability approach applied by the asset manager is explained in more detail in the prospectus.

Derivatives may be used for achieving the investment objective.

Fund units are issued and redeemed basically on every bank business day in Switzerland.

Earnings and profits of the unit class are not distributed, but reinvested.

### Additional important information:

The use of derivatives equates to neither leveraging nor short selling with regard to the fund assets.

Recommendation on holding period: this fund is appropriate for investors with a long-term investment horizon (more than five years).

## Risk and reward profile

The historical data used for calculating the risk and profit category cannot serve as a reliable indicator of the future risk profile.

The risk and profit category shown may very well undergo changes. Assignment to a category may change over time.

The lowest risk category cannot be equated with a risk-free investment.

Reasons for being assigned to the risk and profit category:

- Yield curve
- Interest-rate premium
- Price fluctuations in the share market and company-specific price fluctuations
- Foreign currency risks

There is no capital guarantee and no capital protection.

Further risks that are essential for the fund and not adequately covered by the indicator above:

- Credit risks, because substantial investments are made in interest-bearing securities where repayment default is possible.

## Charges

The costs borne by you are used for the management of the fund as well as its distribution and marketing. The costs may impair the further development of the fund.

One-off charges debited before or after you invest	
Entry charge (max.)	n/a
Exit charge (max.)	n/a
