Objectives and investment policy

Kathrein Sustainable Global Megatrends (R) is an equity fund. It pursues an investment goal of long-term capital growth subject to higher risks. At the individual stock level (i.e., not including sight deposits or deposits at notice), it exclusively invests in securities whose issuers are classified as sustainable on the basis of ESG (environmental, social, governance) criteria. At least 90 % of the fund assets are invested in the form of directly purchased individual securities in equities or equity-equivalent securities. The areas of urbanization, healthcare, scarcity of resources and technology are taken into consideration during the investment process. It excludes all investments in companies in the arms industry or in companies which violate labor and human rights, or which generate their income from the production or mining of coal, and a substantial amount of their income from the processing or use of coal or other coal-related services. Furthermore, companies are excluded that manufacture significant components relating to the field of "controversial" weapons (e.g. cluster munitions, chemical weapons, landmines), or whose corporate governance fails to meet a certain level of quality. Derivative instruments that may enable or support speculative deals with food commodities are also excluded from purchase. Please see the prospectus (Part II, item 13.1.) for more information on the negative criteria. The bonds featured in the fund may be issued by sovereigns, supranational issuers and/or companies, etc.

The fund is actively managed with reference to a benchmark. Such reference to a benchmark does not restrict the fund management's scope of action.

Benchmark	Weighting in %
MSCI AC World Net USD	100,00

Each of the indices mentioned is a registered brand. The licensing party does not sponsor the fund, subsidize it, sell it or support it in any other way. Index calculation and index licensing of indices or index brands do not represent a recommendation to invest. The respective licensor is not liable to third parties for any errors in the index. For legal information regarding licensors, see www.rcm.at/lizenzgeberhinweise or www.rcm-international.com.

Derivative instruments may not be used. In unit class A the fund's income will be distributed on 15.11. Distributions of the fund's core assets and interim distributions are also permitted. In all further unit classes the fund will retain any income which will increase the value of its units.

Except in case of a suspension due to extraordinary circumstances, unit holders may require daily redemption of units by the custodian bank at the applicable redemption price.

Recommendation: this fund may not be appropriate for investors who plan to withdraw their money within 10 years.

Risk and reward profile

Its risk/reward profile relates to past results and should not be used as a reliable indication of its future risk/reward profile. A category 1 classification does not imply a risk-free investment. A risk classification may change over time. The fund has received a category 6 risk classification on the basis of past price fluctuations experienced by the fund or a similar portfolio or an applicable risk definition system.

Risks which are not included in the risk classification but are nonetheless significant for the fund:

Credit risk: The fund invests portions of its assets (directly or via credit derivatives) in bonds and/or money market instruments. Issuers may become insolvent (or their solvency may deteriorate). These bonds and/or money market instruments (or credit derivatives) may therefore suffer a partial or complete loss of value.

Liquidity risk: It may not be possible to sell a position in due time for an appropriate price. This risk may also lead to a suspension of redemption of unit certificates.

Counterparty risk: The fund executes transactions with various contractual partners. These contractual partners may fail to satisfy a claim held by the fund, e.g. due to insolvency.

Operational risk, safekeeping risk: There is a risk of losses resulting from a failure of internal processes/systems or external events (e.g. natural disasters). Safekeeping entails the risk of a loss of fund assets which may result from insolvency, breach of a duty of care or abusive conduct by the custodian or a sub-custodian.

Charges

The fees charged will be used for the fund's management. They include the charges for the sale and marketing of the fund units. The deduction of these charges will diminish the fund's potential performance.

One-off charges before and after an investment is executed

Subscription fees	0,00 %
and redemption fees	0,00 %

This is the maximum amount which is deducted from your investment prior to its execution/payment of your return. Please refer to the distribution office concerning the current fees. The subscription fee and the redemption fee indicated above represent the fees charged by Raiffeisen Kapitalanlage-Gesellschaft m.b.H. The distributor may also apply to the subscriber, as is mentioned in the prospectus, entry fees (also defined intermediation fees/sale fees/start-up fee) as a percentage of the amount invested in the fund. For more information, please refer to the information provided by the distributor and - where applicable - to the additional mandatory documentation delivered to and signed by the investor in accordance with the provisions in force in the various countries where the fund units are marketed.

Charges deducted from the fund in the course of the year

Ongoing charges	1,62 %
------------------------	---------------

Charges indicated here are estimated charges since this is a newly established fund. The estimated „ongoing charges“ include the management fee and all other fees. Third-party transaction costs and performance-related fees are not included in the „ongoing charges“. The „ongoing charges“ may differ from year to year. The annual report published for the fund for each financial year provides details of the precisely calculated charges (under „Expenses“).
