

Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

Product

LGT (Lux) III - ILS Plus Fund (the “Fund”)
a sub-fund of LGT (Lux) III SICAV (the “Umbrella”)
LGT (Lux) III - ILS Plus Fund (USD) B (ISIN: LU0950816578) (the “Class”)

This Fund is authorised in Luxembourg.

This Fund is managed by LGT Capital Partners (Ireland) Limited (the “Management Company”), which is authorised in Ireland and regulated by the Central Bank of Ireland. The Central Bank of Ireland is responsible for supervising LGT Capital Partners (Ireland) Limited in relation to this Key Information Document. This Key Information Document is dated 01 January 2024.

What is this product?

Type: This product is a sub-fund of an investment company with variable capital established under the laws of Luxembourg as an alternative investment fund (“AIF”).

Term: The product does not have a pre-defined maturity and it is an open-ended structure.

The Fund may be liquidated by way of a resolution of its shareholders or in certain circumstances (e.g. where the NAV of the Fund falls below a minimum size) by the Umbrella’s board of directors.

Objectives

The investment objective of the Fund is to generate stable income and long-term capital growth. The Fund will seek to achieve the investment objective by investing in a diversified manner in insurance linked investments all over the world, the value of which depends on the occurrence of insurance events (e.g. natural disasters, man-made risks, property, aviation, marine and longevity / mortality risks). Investments may be in the form of securities, collateralized reinsurance contracts (CRI) or derivatives. Securities have a coupon and / or principal amount the payout and performance of which is linked to insurance events. CRI provide exposure to insurance-linked risks through contracts similar to swaps whose performance is linked to insurance events. Although the use of derivatives may lead to additional exposure, any such additional exposure will not exceed the net asset value of the Fund. The Fund has no geographic focus.

The Fund may invest in derivatives (financial instruments derived from other securities or assets) for hedging purposes, efficient portfolio management and / or investment purposes.

The Fund's portfolio is actively managed. The Fund is not managed in reference to a benchmark.

Environmental, social and governance (“ESG”) aspects are considered as part of the Fund's investment process.

The Fund may have positions in cash and cash equivalents.

The portfolio transaction costs may have a material impact on performance.

Investors may on a monthly basis subscribe for shares of the Fund and may on a monthly basis redeem shares of the Fund.

Any income generated by the Class is reinvested in the Class, which increases the value of the shares.

Intended retail investor: Investment in the Fund is suitable for investors with detailed knowledge about the Insurance-linked instruments contained in the Fund. An investment horizon of 5 years is recommended and the ability to bear medium-low investment losses. There is a risk of losing the full capital invested.

Additional product information

Product depositary: Credit Suisse (Luxembourg) S.A. (the “Depositary”)

This Key Information Document describes a sub-fund of the Umbrella. The prospectus and the periodic reports are prepared for the entire Umbrella named at the beginning of the Key Information Document.

The Fund is a sub-fund of the Umbrella with segregated liability between sub-funds. This means that the holdings of the Fund are maintained separately from the holdings of other sub-funds of the Umbrella and your investment in the Fund will not be affected by claims against any other sub-fund of the Umbrella.

Conversion of shares: You do not have the right to convert your shares in this Fund into shares of another sub-fund of the Umbrella.

What are the risks and what could I get in return?

Risk indicator

1	2	3	4	5	6	7
---	---	---	---	---	---	---

← Lower Risk Higher Risk →

The risk indicator assumes you keep the product for 5 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class. This classification rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact our capacity to pay you.

Be aware of currency risk. The currency of this product may be different from that of your country. As you may receive payments in the currency of this product and not that of your country, the final return you will get will depend on the exchange rate between these two currencies. This risk is not considered in the indicator shown above.

There are no material risks not included in the SRI. The Fund bears additional risks (e.g. operational, political, legal or liquidity risk) as explained in the prospectus, not covered in the SRI.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

Performance scenarios

The figures shown include all the costs of the product itself but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

What happens if LGT Capital Partners (Ireland) Limited is unable to pay out?

The assets of the Fund are held in safekeeping by Credit Suisse (Luxembourg) S.A. (the "Depositary"). In the event of the insolvency of LGT Capital Partners (Ireland) Limited (the "Management Company"), the Fund's assets in the safekeeping of the Depositary will not be affected. However, in the event of the Depositary's insolvency, or someone acting on its behalf, the Fund may suffer a financial loss. This risk is mitigated to a certain extent by the fact the Depositary is required by law and regulation to segregate its own assets from the assets of the Fund. For a more detailed description of the Management Company's and the Depositary's respective role, duties and liability towards the Fund please refer to the prospectus.

There is no investor compensation or guarantee scheme in the case of default of the Management Company or the Depositary.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year, you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- USD 10,000 is invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	721 USD	1,605 USD
Annual cost impact (*)	7.3%	3.3% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 2.4% before costs and -0.9% after costs.

These figures include the maximum distribution fee that the person selling you the product may charge (5.0% of amount invested / 500 USD). This person will inform you of the actual distribution fee.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	5.0% of the amount you pay in when entering this investment. This includes distribution costs of 5.0% of amount invested / 500 USD. This is the most you will be charged. The person selling you the product will inform you of the actual charge.	Up to 500 USD
Exit costs	We do not charge an exit fee for this product.	None
Ongoing costs taken each year		
Management fees and other administrative or operating costs	2.3% of the value of your investment per year. This figure is based on expenses for the year ending 30/09/2023. This figure may vary from year to year.	218 USD
Transaction costs	0.0% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	3 USD
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	None

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

Investment in the Fund is suitable for investors with a long term investment time horizon and who are prepared to sustain fluctuations of and a potential decline in the net asset value of their investments that may last for an extended period.

You can request the sale of your product on a monthly basis. You may receive less than expected if you cash in earlier than the recommended holding period. The recommended holding period is an estimate and must not be taken as a guarantee or an indication of future performance, return or risk levels.

The Fund does not charge any redemption fees.
