

Key Information Document

Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

Product

Global Sustainable High Yield Bond Fund (the 'Fund')

a sub-fund of Nomura Funds Ireland plc (the "Company")

Class ID GBP (IE00BD41S727)

This product is manufactured by Bridge Fund Management Ltd. The Fund is authorised in Ireland and is approved as an Undertaking for Collective Investment in Transferable Securities ("UCITS") by the Central Bank of Ireland. For more information on this product, please visit the website of the Investment Manager, Nomura Asset Management Limited U.K. Ltd, at www.nomura-asset.co.uk or call +44 (0) 20 7521-3333. This product is managed by Bridge Fund Management Ltd, a UCITS management company authorised and regulated by the Central Bank of Ireland.

This document was published on 20/06/2024.

What is this product?

Type

Class ID GBP is a share class of the Fund, a sub-fund of the Company, which is an Irish UCITS variable capital umbrella investment company with segregated liability between sub-funds authorised by the Central Bank of Ireland.

Term

This product has no fixed term. The product may be liquidated under limited circumstances as detailed in the prospectus.

Objectives

Any income generated by the fund will be paid to you or can be reinvested in additional shares to grow the value of your investment.

The Fund aims to achieve sustainable investment and current yield and capital gains, through investment in a diversified portfolio of primarily high yielding Debt and Debt-Related Securities issued in the United States or major Eurobond developed markets.

In order to achieve its objective of sustainable investment the Fund shall invest in a diversified portfolio of primarily high yielding debt and debt-related securities issued in developed markets principally by companies, which are listed or traded on a recognised exchange and which constitute sustainable investments. The Fund will normally invest at least 80% of its value in below investment grade rated or unrated bonds, as defined by international agencies that provide such ratings; these may offer a higher

income but also carry greater risk. Up to 25% of the value of the Fund may be invested in any one industry.

The Fund is considered to be actively managed in reference to the index (ICE BofA Developed Markets High Yield Constrained Index) by virtue of the fact that it uses the index for performance comparison purposes. Certain of the Fund's securities may be components of and may have similar weightings to the index. However, the Fund may deviate significantly from the index and the investment manager may use its discretion to invest in companies or sectors not included in the index. Investors should note that the index is not consistent with the sustainable investment policy of the Fund but rather is a broad market index.

Intended retail investor

The Fund is intended for retail and institutional investors. The Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

The Fund is suitable for investors seeking long-term income and capital growth and who are prepared to accept a moderate level of volatility.

For full investment objectives and policy details please refer to the prospectus.

Other Information

Investors may switch their investment into shares of other sub-funds of the Company upon request and further details can be found in the prospectus. Investors may redeem their investment on each business day of the Fund.

What are the risks and what could I get in return?

Risk Indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

The risk indicator (SRI) assumes you keep the product for a minimum of 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

We have classified this product as 3 out of 7, which is a medium-low risk class.

This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the capacity of the Fund to pay you.

Be aware of currency risk. If you choose a foreign currency share class you will be exposed to currency risk and your final return will depend on the exchange rate between the foreign currency and your local currency. Currency hedged share classes aim to deliver a return that is as close as possible to the base currency performance of a fund, by reducing the effect of exchange rate movements between the base currency and the hedged currency. However, these techniques may not be fully effective in completely removing the exchange rate risk.

You can find more information about the risks of the Fund in the prospectus at: www.nomura-asset.co.uk/fund-documents/

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

Recommended holding period:		5 years	
Example Investment:		£10000	
		If you exit after 1 year	If you exit after 5 years
Scenarios			
Minimum	There is no minimum guaranteed return if you exit before 5 years. You could lose some or all of your investment.		
Stress	What you might get back after costs	£7250	£6670
	Average return each year	-27.49%	-7.77%
Unfavourable	What you might get back after costs	£9490	£8980
	Average return each year	-5.07%	-2.14%
Moderate	What you might get back after costs	£10180	£12930
	Average return each year	1.76%	5.28%
Favourable	What you might get back after costs	£13050	£14570
	Average return each year	30.46%	7.83%

This table shows the money you could get back over the next 5 years, under different scenarios, assuming that you invest GBP 10 000,00.

Market developments in the future cannot be accurately predicted. The scenarios shown are only an indication of some of the possible outcomes based on recent returns. Actual returns could be lower.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable Scenario This type of scenario occurred for an investment between 2021 and 2023.

Moderate Scenario This type of scenario occurred for an investment between 2014 and 2019.

Favourable Scenario This type of scenario occurred for an investment between 2015 and 2020.

What happens if Bridge Fund Management Ltd is unable to pay out?

As a collective investment scheme that has engaged an independent depository to perform safekeeping and ownership verification duties on its assets, your investment is not exposed to the credit risk of Bridge Fund Management Limited. Nonetheless you may face financial loss should Bridge Fund Management Limited or the depository, default on their obligations. You may lose some or all of your investment due to the default of the Fund. The Fund is not a guaranteed fund and as a result there is no guarantee scheme in place which provides a guaranteed rate of return. You are not covered by the Irish compensation scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Cost over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed that in the first year you would get back the amount that you invested (0 % annual return), for the other holding period that the product performs as shown in the moderate scenario. and that your GBP 10 000,00 has been invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	£150	£898
Annual cost impact (*)	1.5%	1.5% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at maturity your average return per year is projected to be 7,1 % before costs and 5,5 % after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	The impact of the costs you pay when entering your investment. This is the most you will pay, and you could pay less. [0,00%]	0 GBP
Exit costs	The impact of the costs when exiting your investment. [0,00%]	0 GBP
Ongoing costs taken each year		
Management fees and other administrative or operating costs	The impact of the costs that we take each year for managing your investments. [0,75%]	75 GBP
Transaction costs	This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and we sell. [0,76%]	76 GBP
Incidental costs taken under specific conditions		
Performance fees	No Performance Fees are applied.	0 GBP

How long should I hold it and can I take money out early?

The recommended holding period for the Fund is 5 years. This Fund is designed for medium term investment. However, you can redeem your investment at any time in accordance with the Company's prospectus.

How can I complain?

If you have a complaint about the product or the person advising or selling the product to you, you will need to provide the details to the person who advised you or sold you the product. Other complaints about the investment product or the Key Information Document should be sent to the Client Service Team, Nomura Asset Management U.K. Ltd, 1 Angel Lane, London, United Kingdom EC4R 3AB, or emailed to info@nomura-asset.co.uk. You can also visit www.nomura-asset.co.uk for more information.
