**Legal notice**

The software used performs calculations on the basis of more than the two decimal places displayed. Minor discrepancies cannot be ruled out due to further calculations using published results.

The value of a unit is calculated by dividing the entire value of the investment fund inclusive of its income by the number of units. The total value of the investment fund is calculated on the basis of the current market prices of the securities, money market instruments and subscription rights in the fund plus the value of the fund's financial investments, cash holdings, credit balances, receivables and other rights net of its payables. That value will be calculated by the custodian bank.

The net assets are calculated in accordance with the following principles:

- a) The value of assets quoted or traded on a stock exchange or other regulated market shall be determined, in principle, on the basis of the most recently available price.
- b) Where an asset is not quoted or traded on a stock market or another regulated market or where the price for an asset quoted or traded on a stock market or another regulated market does not appropriately reflect its actual market value, the prices provided by reliable data providers or, alternatively, market prices for equivalent securities or other recognized market valuation methods shall be used.

Dear unitholder,

Raiffeisen Kapitalanlage-Gesellschaft m.b.H. is pleased to present its annual fund report for Raiffeisen Added Value 2026 for the financial year from Sep 1, 2023 to Aug 31, 2024. The accounting is based on the price calculation as of Aug 30, 2024.

## Development of the fund assets and income statement

### Performance in financial year (fund performance)

<b>Distributing units (AT0000A2HTA1)</b>	
Net asset value per unit at start of financial year in EUR	93.74
Distribution on Oct 16, 2023 (net asset value: EUR 92.95) of EUR 1.0000, corresponds to 0.010758 units	
Net asset value per unit at end of financial year in EUR	98.75
Total value incl. units purchased through distribution (1.010758 x 98.75)	99.81
Net income/net reduction per unit	6.07
<b>Performance of one unit during the financial year in %</b>	<b>6.48</b>
<b>Fully reinvested units (AT0000A2HTB9)</b>	
Net asset value per unit at start of financial year in EUR	95.73
Net asset value per unit at end of financial year in EUR	101.94
Net income/net reduction per unit	6.21
<b>Performance of one unit during the financial year in %</b>	<b>6.49</b>

The performance is calculated assuming wholesale reinvestment of distributed/paid-out amounts at their net asset value on the distribution/payment date.

The Depotbank calculates the unit value separately for each unit certificate class. Discrepancies may arise in the annual performance figures for individual unit certificate classes.

The performance is calculated by Raiffeisen KAG on the basis of published fund prices, using the method developed by OeKB (Österreichische Kontrollbank AG). Individual costs such as transaction fees, the subscription fee (maximum 4 %), the redemption fee (maximum 1 %), the custody charges of the investor and taxes are not included in the performance calculation. If included, these would lead to a lower performance. Past performance is not a reliable indicator of future performance. Markets could develop very differently in the future. Based on the illustration, you can assess how the fund was managed in the past.

## Capital market report

The year 2023 ended on a positive note for most capital market investors thanks to a fulminant finish on the equity and bond markets in the final quarter. Share prices continued to climb almost everywhere this year. The Chinese stock markets, which had been very weak in recent years, also started to recover. Many equity indices in the USA, Europe and Asia soared to new record highs and sit on double-digit percentage gains for the current year. As in the previous year, "artificial intelligence" has been one of the dominant themes and many companies with promising positions in this field have been among the biggest winners so far this year.

Recessions, further interest rate hikes or interest rate cuts were repeatedly priced in and out over the past 18 months, causing considerable price fluctuations not only in equities but also in bonds. Substantial (further) interest rate cuts in the coming quarters on both sides of the Atlantic are now almost certain and the bond markets are now largely pricing them in. At the same time, investors continue to favour a "soft landing of the economy" in the US, i.e. an economy that is growing at a slower pace but not shrinking, with inflation falling to a level that satisfies the US central bank. Such a scenario would not only be positive for government bonds, but even better for corporate bonds. As a result, they are once again performing significantly better than government bonds from core eurozone countries this year. Although fluctuations on the bond markets are still quite high, they are visibly decreasing.

Commodities were repeatedly under pressure in 2023 and fell for the most part. Only precious metals recorded a slight gain thanks to rising gold prices. The gold price continued its advance in 2024 and climbed to new record highs. Industrial metals and energy related commodities gained during the first half of the year but erased all their gains in July. Among the major currencies, the Japanese yen and the Chinese yuan stood out in 2023 with significant price weakness. While the Chinese currency has been stable this year, the yen has continued to slide but recently started to rebounded significantly. In contrast, there has been little movement between the euro and the US dollar over the past 12 months, with the dollar lately losing some ground.

The disruptions and distortions caused by the pandemic and lockdowns have been overcome. However, global economic relations and production chains are once again under strain from escalating geopolitical confrontations and renewed conflicts in regions that are important transit points for trade routes. This is likely to result in lasting and serious upheavals in supply chains and global economic structures and could significantly change the competitive positions of entire industries and regions. This is compounded by the long-term challenges posed by climate change, demographics, and elevated levels of public debt in many countries. The financial market environment remains challenging and is likely to harbour major price fluctuations in almost all asset classes for the foreseeable future.

## Fund investment policy report

The reporting period was marked especially by the restrictive monetary policy of the central banks. In its attempt to soften the immense inflationary pressure, the European Central Bank (ECB) raised the key interest rate one last time to 4.5% in September 2023. The numerous interest rate hikes and the cutback of government bonds gradually began to have the desired effect, thus marking the entire reporting period with an inverse interest yield curve. While a decline of inflation brought an end to the cycle of interest rate hikes, all hopes were dashed of an imminent interest rate reversal in an environment of persistent core inflation and a surprisingly robust labor market. Two-year Bund yields had therefore fallen temporarily to nearly 2.35% by the end of 2023, but climbed again to 3.10% by May 2024 as a result of robust economic and labor market data. It was not until June that the ECB actually changed the interest rate course by -0.25%. As a further consequence, two-year Bund yields dropped to 2.4% around the end of the reporting period.

In this environment, stable quarterly growth and robust credit indicators alleviated initial economic concerns and, in connection with above-average risk premiums, justified a renewed investor interest in corporate bonds. As a result of falling credit spreads, corporate bonds significantly outperformed government bond markets once again in the reporting period, resulting in a clearly positive result for the fund. In particular, the addition of financial stocks and lower credit qualities in the high yield segment led to an above-average performance. In the end, the asset class benefited better than average in the environment of declining capital market volatility since it was in high demand among investors due to higher interest income. Even geopolitical nuisances could not tarnish this constructive assessment.

The strategic orientation of the fund remained unchanged. As a result, the average portfolio duration dropped considerably to under two years. Coupon and redemption proceeds were reinvested in line with the strategic focus. In order to gain attractive new issue premiums, the fund participates selectively in the primary market. In the risk management context, a position in securities of the Swedish debt collection agency Intrum was sold due to increased default risks, as were bonds of the French supermarket chain Casino following the announcement of debt restructuring measures.

Securities lending transactions were entered into in order to generate additional income.

The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

### Further information on securities lending transactions

- Overall risk (exposure) (securities loaned as of the reporting date versus fund volume):

0.40 %

Value of loaned securities: 207,509.37 EUR

Proportion of assets eligible for lending transactions: 0.41 %

On the reporting date Aug 31, 2024 the following securities had been lent:

ISIN	Security title	Regulated market	Currency	Asset class	Issuer	Rating	Volume Aug 30, 2024	Market value (incl. any interest accrued) Aug 30, 2024	Share of fund assets

- Identity of the counterparties for securities lending transactions:

Raiffeisen Bank International AG (as a recognized securities lending system within the meaning of § 84 InvFG)

- Nature and value of eligible collateral received by the investment fund versus the counterparty risk:

Under the master agreement on securities lending transactions concluded between the management company and Raiffeisen Bank International AG, Raiffeisen Bank International AG is obliged to provide collateral for loaned securities. Bonds, equities and units in investment funds are permitted as collateral. The bonds used as collateral may be issued by sovereigns, supranational issuers and/or companies etc. No stipulations apply in relation to the terms of these bonds. Within the scope of provision of collateral, pursuant to § 4 of the Austrian Securities Lending and Repurchase Agreement Ordinance (Verordnung zu Wertpapierleih- und Pensionsgeschäften, WPV), diversification and correlation with risk diversification achieved through quantitative issuer limits in particular and appropriate liquidity for collateral for the purpose of tradability and realizability will be ensured. This collateral will be valued on each banking day, subject to an add-on compared to the valuation of the securities loaned from the fund in accordance with provisions of EU Regulation 575/2013 (CRR). For bonds, this add-on will be determined on the basis of the credit rating of the issuer and the remaining term of the bond and will amount to no less than 0.5 %. For equities and units in investment funds, this add-on will amount to 10.607 %. The value of the required collateral, thus calculated, will result in the ongoing overcollateralization of the fund's outstanding securities lending positions.

On the reporting date the collateral had the following makeup:

ISIN	Security title	Regulated market	Currency	Asset class	Issuer	Rating	Volume Aug 30, 2024	Market value in portfolio currency

In relation to securities lending transactions, the investment fund is not entirely collateralized by means of securities which are either issued or guaranteed by an EEA member state.

Collateral holding period: unlimited

Period of securities lending:

Duration / Days	< 1 day	1-7 days	7-30 days	30-90 days	90-360 days
	0 %	0 %	0 %	0 %	100 %

Country of counterparty (Raiffeisen Bank International AG): Austria

Settlement: bilateral

➤ Reuse of collateral:

Collateral received is not reused.

➤ Custody of collateral which the investment fund has received in connection with securities lending transactions:

The collateral will be held in a separate sub-account with the custodian bank/depositary for each fund.

➤ Custody of collateral which the investment fund has provided in connection with securities lending transactions:

Within the limits stipulated by law (§ 84 InvFG), the management company is merely permitted to lend securities to third parties. However, it is not permitted to borrow securities. Accordingly, the investment fund will not provide any collateral within the scope of securities lending transactions.

➤ Fees, direct and indirect operating costs and income of the investment fund resulting from securities lending transactions during the accounting period:

Income: 5,829.97 EUR (of which 100 % from securities lending transactions)

Costs: N/A

### **Further information on repurchase agreements**

During the reporting period, no repurchase agreements were concluded on behalf of the fund. Accordingly, the information concerning repurchase agreements which is stipulated in § 8 of the Austrian Securities Lending and Repurchase Agreement Ordinance and Art. 13 of Regulation (EU) No. 2015/2365 is not required.

### **Total return swaps and similar derivative instruments**

A total return swap is a credit derivative instrument. Income and fluctuations in the value of the underlying financial instrument (underlying instrument or reference asset) are exchanged for fixed interest payments.

The fund did not enter into total return swaps or similar derivative instruments in the period under review.

- The remuneration guidelines ("remuneration guidelines") issued by Raiffeisen Kapitalanlage-Gesellschaft m.b.H. serve as a binding framework for fulfillment of the remuneration policy and practice requirements stipulated in §§ 17 (a) to (c) of the Austrian Investment Fund Act (InvFG), § 11 of the Austrian Alternative Investment Fund Managers Act (AIFMG) and Enclosure 2 to § 11 AIFMG. Fixed and variable remuneration components are determined on the basis of these remuneration guidelines.
- Raiffeisen Kapitalanlage-Gesellschaft m.b.H. has established a systematic, structured, differentiating and incentivizing compensation system which reflects the company's values as well as clear and consistent outline conditions. Its employees' compensation comprises fixed salary components as well as variable salary components for some positions. This remuneration – in particular, the variable salary component (where applicable) – reflects an objective organizational structure ("job grades").
- Compensation is determined on the basis of regular market comparisons and in accordance with local remuneration practice. The goal is to encourage employees' long-term loyalty to the company while also promoting their performance and their development within the framework of a management or specialist career path.
- At Raiffeisen Kapitalanlage-Gesellschaft m.b.H., an employee's basic salary (fixed remuneration) is non-discretionary remuneration which does not vary in accordance with the performance of the company (earnings before interest and tax) or of the specific employee (individual target achievement). It primarily reflects relevant professional experience and organizational responsibility, as outlined in the employee's job description as part of his terms of employment. The employee's fixed salary is determined on the basis of his market value, his individual qualifications and the position which he holds at Raiffeisen Kapitalanlage-Gesellschaft m.b.H.
- Raiffeisen Kapitalanlage-Gesellschaft m.b.H. uses all of the standard remuneration management instruments (e.g. domestic and foreign remuneration studies, salary bands, position grading).
- The employee's variable salary reflects the achievement of company and performance targets which are specified and reviewed within the scope of a performance management process. Employees' targets are specified on the basis of the company's strategic targets, the targets of their organizational unit or department and their function. Target agreements are concluded and the employee's level of target achievement (= performance) is determined through annual performance appraisals ("MBO system").
- The target structure at Raiffeisen Kapitalanlage-Gesellschaft m.b.H. differentiates between qualitative targets – which include individual targets or division and department targets – and quantitative targets, e.g. performance and income targets, and also quantifiable project targets. Every manager is also assigned management targets. Quantitative one-year or multiple-year targets also apply within the scope of the company's core activities of sales and fund management.
- Since the performance period 2015, in accordance with the regulatory requirements a portion of the variable remuneration for risk-bearers is paid out in the form of units in an investment fund managed by Raiffeisen Kapitalanlage-Gesellschaft m.b.H. In addition, as required by law portions of the variable remuneration of risk-bearers are deferred and paid out over a period of several years.

- The supervisory board of Raiffeisen Kapitalanlage-Gesellschaft m.b.H. resolves the general remuneration policy principles specified by the remuneration committee, reviews them at least once a year and is responsible for their implementation and for monitoring of this issue. The supervisory board most recently fulfilled this duty on Nov 29, 2024. It has not identified any need for changes or any irregularities in relation to the remuneration policy of Raiffeisen Kapitalanlage-Gesellschaft m.b.H.
- In addition, at least once per year a central and independent internal review determines whether the company's remuneration policy has been implemented in accordance with the applicable remuneration regulations and procedures. The internal auditing division of Raiffeisen Kapitalanlage-Gesellschaft m.b.H. published its most recent report on Oct 18, 2024. This report has not resulted in any material findings concerning the remuneration policy of Raiffeisen Kapitalanlage-Gesellschaft m.b.H.
- The remuneration policy of Raiffeisen Kapitalanlage-Gesellschaft m.b.H. has not been subject to any significant changes in the reporting period.

#### **Remuneration principles of Raiffeisen Kapitalanlage-Gesellschaft m.b.H.**

- The remuneration principles of Raiffeisen Kapitalanlage-Gesellschaft m.b.H. support the business strategy and the long-term goals, interests and values of the company and of the investment funds managed by Raiffeisen Kapitalanlage-Gesellschaft m.b.H.
- The remuneration principles of Raiffeisen Kapitalanlage-Gesellschaft m.b.H. include measures to avoid conflicts of interest.
- The remuneration principles and policies of Raiffeisen Kapitalanlage-Gesellschaft m.b.H. are consistent with and promote sound and effective risk-taking practices and avoid incentives for any inappropriate risk-taking propensity which exceed the level of risk tolerated by Raiffeisen Kapitalanlage-Gesellschaft m.b.H. or the investment funds under its management.
- The total amount of variable remuneration will not limit the capacity of Raiffeisen Kapitalanlage-Gesellschaft m.b.H. to strengthen its capital base.
- Variable remuneration is not paid by means of instruments or methods which facilitate circumvention of applicable legal requirements.
- Employees in positions of control are rewarded irrespective of the business unit which they supervise, they have an appropriate level of authority and their remuneration is determined on the basis of the fulfillment of their organizational targets in connection with their functions, irrespective of the results of the business activities under their supervision.
- Guaranteed variable remuneration is not consistent with sound risk management or the "pay-for-performance" principle and should not be included in future remuneration plans. Guaranteed variable remuneration is the exception; This is only provided in connection with new hirings and only where Raiffeisen Kapitalanlage-Gesellschaft m.b.H. has a sound and strong capital base. It is limited to the first year of employment.
- Any payments relating to the premature termination of a contract must reflect the performance realized over the relevant period of time and must not reward failures or misconduct.

## Audit opinion

### Report on the annual fund report

#### Audit opinion

We have audited the annual fund report issued by Raiffeisen Kapitalanlage-Gesellschaft m.b.H., Vienna, for its fund Raiffeisen Added Value 2026, consisting of the portfolio of investments as of August 31, 2024, the income statement for the financial year ending as of this date and the other disclosures required under Annex I Schedule B of the 2011 Austrian Investment Fund Act (Investmentfondsgesetz, InvFG).

In our view, the annual fund report complies with applicable statutory requirements and provides a true and fair view of the net assets and financial position as of August 31, 2024 as well as the earnings position for the fund for the financial year ending as of this date, in compliance with Austrian commercial law, the provisions of InvFG 2011.

#### Basis for the audit opinion

We performed our audit in accordance with § 49 (5) InvFG 2011 in accordance with Austrian principles of orderly auditing. These principles require application of the International Standards on Auditing (ISA). Our responsibilities on the basis of these requirements and standards are outlined in further detail in the "Responsibilities of the auditor for the audit of the annual fund report" section of our audit certificate. We are independent from the company, in compliance with Austrian commercial law and professional standards, and we have fulfilled our other professional duties in accordance with these requirements. In our view, we have obtained sufficient and suitable audit documentation as a basis for our audit opinion. In our view, the documentation we have obtained up to the date of this audit certificate forms a sufficient and suitable basis for our audit opinion of the same date.

#### Other information

The company's legal representatives are responsible for the other information provided. This other information comprises all of the information included in the annual fund report, with the exception of the portfolio of investments, the income statement, the other disclosures required under Annex I Schedule B InvFG 2011 and the audit certificate.

Our audit opinion for the annual fund report does not cover this other information, and we do not provide any sort of assurance in this regard.

In connection with our audit of the annual fund report, we have the responsibility to read such other information and, in doing so, assess whether this other information contains material inconsistencies with the annual fund report or with the knowledge obtained in our audit, or whether such information appears to be otherwise misrepresented.

If, on the basis of the work we have carried out in regard of the other information obtained prior to the date of the audit certificate, we conclude that a material misstatement of such other information exists, we are obliged to report the matter. We have nothing to report in this respect.

#### Responsibilities of the company's legal representatives and the supervisory board for the annual fund report

The company's legal representatives are responsible for the preparation of the annual fund report and for ensuring that it provides a true and fair view of the fund's net assets, financial and earnings position in compliance with Austrian commercial law and the provisions of InvFG 2011. The company's legal representatives are also responsible for the internal controls which they deem necessary in order to enable the preparation of an annual fund report which is free from material misrepresentations caused by fraudulent acts or errors.

The supervisory board is responsible for monitoring the company's accounting process in relation to the funds under its management.

**Responsibilities of the auditor for the audit of the annual fund report**

Our goals are to establish sufficient certainty as to whether the annual fund report as a whole is free from material misrepresentations caused by fraudulent acts or errors and to issue an audit certificate which includes our audit opinion.

Sufficient certainty means a high level of certainty, but not a guarantee, that an orderly audit performed in accordance with the recognized Austrian principles, which require application of the ISA, will always uncover any material misrepresentation. Misrepresentations may result from malicious acts or on the basis of errors and will be deemed material where they may be reasonably expected, either individually or collectively, to influence the economic decisions made by users on the basis of this annual fund report.

As part of an audit complying with the recognized Austrian principles of orderly auditing, which require application of the ISA, we exercise due discretion throughout our audit and maintain a critical distance.

In addition, the following applies:

- We identify and assess the risks of material misrepresentations caused by fraudulent acts or errors in the annual fund report, plan audit activities in response to these risks, implement these activities and obtain audit documentation which is sufficient and suitable in order to serve as a basis for our audit opinion. The risk of material misrepresentations resulting from malicious acts not being uncovered is greater than the risk resulting from errors, since malicious acts may include collusive collaboration, falsifications, deliberate incompleteness, misleading representations or the suspension of internal controls.
- We obtain a picture of the internal control system which is relevant for the audit so as to plan audit activities which are adequate in the given circumstances, but not with the objective of providing an audit opinion regarding the effectiveness of the company's internal control system.
- We evaluate the adequacy of the accounting methods applied by the company's legal representatives as well as the reasonableness of the legal representatives' estimates in the accounting as well as the related disclosures.
- We evaluate the overall picture, the structure and the contents of the annual fund report including the disclosures and whether the annual fund report provides a true and fair view of the underlying business transactions and events.

We discuss matters with the supervisory board including the planned scope of the audit and its schedule as well as significant audit findings, including any significant shortcomings in the internal control system that we identify in the course of our audit.

**Auditor in charge**

The auditor in charge of the audit is Mr. Wilhelm Kovsca.

## **Tax treatment**

Once the new reporting framework comes into effect (from Jun 6, 2016), Österreichische Kontrollbank (OeKB) will prepare the details of the tax arrangements for the fund and publish them on [my.oekb.at](http://my.oekb.at). The tax documents are available for downloading for all funds. The tax documents are also available on our website [www.rcm.at](http://www.rcm.at). Please visit [my.oekb.at](http://my.oekb.at) for detailed information on offsettable and reimbursable foreign taxes.

## Fund regulations

### Fund regulations pursuant to the 2011 Austrian Investment Fund Act

The Austrian Financial Market Authority (FMA) has approved the fund regulations for the investment fund Raiffeisen Added Value 2026, a jointly owned fund pursuant to the 2011 Austrian Investment Fund Act, as amended (InvFG).

The investment fund is an undertaking for collective investment in transferable securities (UCITS) and is managed by Raiffeisen Kapitalanlage-Gesellschaft m.b.H. (hereinafter: the “management company”) which is headquartered in Vienna.

#### **Article 1 Fund units**

The fund units are embodied in unit certificates with the character of financial instruments which are issued to bearer.

The unit certificates shall be represented by global certificates for each unit class. Actual securities are not issued.

#### **Article 2 Custodian bank (depository)**

Raiffeisen Bank International AG, Vienna, is the investment fund’s custodian bank (depository).

The custodian bank (depository), the regional Raiffeisen banks, Kathrein Privatbank Aktiengesellschaft, Vienna, and other paying agents referred to in the prospectus are the paying agents for unit certificates.

#### **Article 3 Investment instruments and principles**

The following assets pursuant to InvFG may be selected for the investment fund.

The investment fund invests at least 51 % of the fund assets in the form of directly purchased individual securities (i.e. which are not held indirectly through investment funds or derivatives in bonds and/or money market instruments). Six months or less prior to the end of its term, the investment fund may also invest mainly in sight deposits and deposits at notice with terms not exceeding 12 months.

The following investment instruments are purchased for the fund assets, while complying with the investment focus outlined above.

Where appropriate, the fund may purchase units in investment funds whose investment restrictions differ in terms of the investment focus outlined above and the restrictions specified below with regard to investment instruments. This will not affect the fund’s compliance with the above investment focus at all times.

##### **Securities**

The fund may purchase securities (including securities with embedded derivative instruments) as permitted by law.

##### **Money market instruments**

The fund may purchase money market instruments as permitted by law.

##### **Securities and money market instruments**

The fund may purchase not fully paid-in securities or money market instruments and subscription rights for such instruments or other not fully paid-in financial instruments.

Securities and money market instruments may be purchased if they comply with the criteria concerning listing and trading on a regulated market or a securities exchange pursuant to InvFG.

Securities and money market instruments which do not fulfill the criteria laid down in the above paragraph may be purchased for up to 10 % of the fund assets in total.

### **Units in investment funds**

Units in investment funds (UCITS, UCI) may each amount to up to 10 % of the fund assets – and up to 10 % of the fund assets in total – insofar as these UCITS or UCI do not for their part invest more than 10 % of their fund assets in units in other investment funds.

### **Derivative instruments**

Derivative instruments may be used as part of the fund's investment strategy for up to 30 % of the fund assets and for hedging purposes.

### **Investment fund's risk measurement method**

The investment fund applies the following risk measurement method:

### **Commitment approach**

The commitment figure is calculated pursuant to the 3rd chapter of the 4th Austrian Derivatives Risk Calculation and Reporting Ordinance (*Derivate-Risikoberechnungs- und Meldeverordnung, DeRiMV*), as amended.

The overall risk for derivative instruments which are not held for hedging purposes is limited to 30 % of the overall net value of the fund assets.

### **Sight deposits or deposits at notice**

Sight deposits and deposits at notice with terms not exceeding 12 months may amount to up to 49 % of the fund assets. No minimum bank balance is required.

Within the scope of restructuring of the fund portfolio and/or a justified assumption of impending losses for securities and/or money market instruments and six months or less prior to the end of the investment fund's term, the investment fund may hold a lower proportion of securities and/or money market instruments and a higher proportion of sight deposits or deposits at notice with terms not exceeding 12 months.

### **Short-term loans**

The management company may take up short-term loans of up to 10 % of the fund assets for account of the investment fund.

### **Repos**

Repurchase agreements may comprise up to 100 % of the fund assets.

### **Securities lending**

Securities lending transactions may comprise up to 30 % of the fund assets.

Investment instruments may only be acquired uniformly for the entire investment fund, not for an individual unit class or for a group of unit classes. However, this does not apply for currency hedge transactions. These transactions may only be entered into in relation to a single unit class. Expenses and income resulting from a currency hedge transaction shall exclusively be allocated to the relevant unit class.

## **Article 4 Issuance and redemption modalities**

The unit value shall be calculated in EUR or the currency of the unit class.

The value of the units will be calculated on each banking day in Austria.

### **Issuance and subscription fee**

Units will be issued on any banking day in Austria.

The issue price is the unit value plus a fee per unit of up to 4 %. Of this amount, up to 2 % may be charged for the benefit of the fund assets and up to 2 % may be charged for the benefit of the management company.

During the subscription period, the subscription fee will amount to up to 2 % of the fund assets.

Unit issuance shall not in principle be subject to limitation; however, the management company reserves the right temporarily or entirely to discontinue its issuance of unit certificates.

The management company shall be entitled to introduce a graduated subscription fee.

### **Redemption and redemption fee**

Units will be redeemed on any banking day in Austria.

In case of premature redemption prior to the end of the fund's term, the redemption price will amount to the unit value less a fee of up to 1 %. This redemption fee will be credited to the fund assets. No redemption fee will be charged at the end of the fund's term.

At the request of a unitholder, its unit shall be redeemed out of the investment fund at the applicable redemption price, against surrender of the unit certificate.

The management company shall be entitled to introduce a graduated redemption fee.

### **Limited duration, discontinuance of issuance of units**

The investment fund has been established for a limited term expiring on April 24, 2026.

The management company's right of termination pursuant to InvFG shall remain unaffected.

The fund assets will be liquidated in accordance with the provisions of InvFG. The fund will sell off its individual assets, collect receivables and pay off its debts subject to applicable (in particular, market-related) notice periods prior to the end of the fund's term, within the scope of liquidation of the fund assets.

The custodian bank will pay over the applicable proceeds for the respective unit upon redemption of the unit certificates in the period from April 24, 2026.

## **Article 5      Accounting year**

The investment fund's accounting year runs from September 1 to August 31.

## **Article 6      Unit classes and appropriation of income**

Income-distributing unit certificates, income-retaining unit certificates with payment of capital gains tax and income-retaining unit certificates without payment of capital gains tax may be issued for the investment fund.

Various classes of unit certificates may be issued for this investment fund. The management company may decide to establish unit classes or to issue units in a given unit class.

### **Appropriation of income for income-distributing unit certificates (income distribution)**

Once costs have been covered, the income received during the past accounting year (interest and dividends) may be distributed at the discretion of the management company. Distribution may be waived subject to due consideration of the unitholders' interests. The distribution of income from the sale of assets of the investment fund including subscription rights shall likewise be at the discretion of the management company. A distribution from the fund assets and interim distributions are also permissible.

The fund assets may not through distributions fall below the minimum volume for a termination which is stipulated by law.

From October 15 of the following accounting year the amounts are to be distributed to the holders of income-distributing unit certificates. Any remaining balances shall be carried forward to a new account.

In any case, from October 15 an amount calculated pursuant to InvFG shall be paid out, to be used where applicable to meet any capital gains tax commitments on the distribution-equivalent return on those unit certificates, unless the management company ensures through appropriate proof from the custodians that as of the payment date the unit certificates may only be held by unitholders who are either not subject to Austrian income or corporate income tax or who fulfill the requirements for an exemption pursuant to § 94 of the Austrian Income Tax Act or for a capital gains tax exemption.

#### **Appropriation of income in case of income-retaining unit certificates with payment of capital gains tax (income retention)**

Income during the accounting year net of costs shall not be distributed. In case of income-retaining unit certificates, from October 15 an amount calculated pursuant to InvFG shall be paid out, to be used where applicable to meet any capital gains tax commitments on the distribution-equivalent return on those unit certificates, unless the management company ensures through appropriate proof from the custodians that as of the payment date the unit certificates are only held by unitholders who are either not subject to Austrian income or corporate income tax or who fulfill the requirements for an exemption pursuant to § 94 of the Austrian Income Tax Act or for a capital gains tax exemption.

#### **Appropriation of income in case of income-retaining unit certificates without payment of capital gains tax (full income retention)**

Income during the accounting year net of costs shall not be distributed. No payment pursuant to InvFG will be made. October 15 of the following accounting year shall be the key date pursuant to InvFG in case of failure to pay capital gains tax on the annual income.

The management company shall ensure through appropriate proof from the custodians that at the time of payout the unit certificates may only be held by unitholders who are either not subject to Austrian income or corporate income tax or who fulfill the requirements for exemption as per § 94 of the Austrian Income Tax Act or for a capital gains tax exemption.

If these preconditions have not been met as of the payment date, the amount calculated pursuant to InvFG shall be paid out by the custodian bank in the form of credit.

#### **Appropriation of income in case of income-retaining unit certificates without payment of capital gains tax (full income retention – foreign tranche)**

Income-retaining unit certificates without payment of capital gains tax shall only be sold outside Austria.

Income during the accounting year net of costs shall not be distributed. No payment pursuant to InvFG will be made.

The management company shall ensure through appropriate proof that as of the payment date the unit certificates may only be held by unitholders who are either not subject to Austrian income or corporate income tax or who fulfill the requirements for exemption pursuant to § 94 of the Austrian Income Tax Act or for a capital gains tax exemption. This can be validly proved by the cumulative submission of statements from both the custodian bank and the management company that they are not aware of a sale to other persons.

### **Article 7 Management fee, reimbursement of expenses, liquidation fee**

The management company shall receive for its management activity an annual remuneration of up to 1.50 % of the fund assets that is calculated, recorded and deducted monthly on the basis of the respective fund assets for each calendar day.

The management company is entitled to reimbursement of all expenses associated with its management of the fund.

The management company shall be entitled to introduce a graduated management fee.

The costs arising at the introduction of new unit classes for existing asset portfolios shall be deducted from the unit prices of the new unit classes.

In case of the liquidation of the investment fund prior to the end of its term, the liquidator shall receive remuneration amounting to 0.5 % of the fund assets.

**Please refer to the prospectus for further information on this investment fund.**

### List of stock exchanges with official trading and organized markets

#### 1. Stock exchanges with official trading and organized markets in the member states of the EEA, as well as stock exchanges in European countries which are not EEA members that are considered to be equal to regulated markets

Each Member State is required to maintain an updated register of regulated markets authorized by it. This register is to be made available to the other member states and to the Commission.

According to this provision, the Commission is obliged to publish once a year a register of the regulated markets of which it has received notice.

Due to decreasing restrictions and to trading segment specialization, the register of "regulated markets" is undergoing great changes. In addition to the annual publication of a register in the official gazette of the European Union, the Commission will therefore provide an updated version on its official internet site.

##### 1.1. The current register of regulated markets is available at:

[https://registers.esma.europa.eu/publication/searchRegister?core=esma\\_registers\\_upreg](https://registers.esma.europa.eu/publication/searchRegister?core=esma_registers_upreg)<sup>1</sup>

##### 1.2. The following stock exchanges are to be included in the register of regulated markets:

- |        |             |   |
|--------|-------------|---|
| 1.2.1. | Luxembourg  | Euro MTF Luxembourg                             |
| 1.2.2. | Switzerland | SIX Swiss Exchange AG, BX Swiss AG <sup>2</sup> |

##### 1.3. Recognized markets in the EEA pursuant to § 67 (2) item 2 InvFG:

Markets in the EEA classified as recognized markets by the relevant supervisory authorities.

#### NOTICE

**As soon as the United Kingdom of Great Britain and Northern Ireland (UK) loses its status as an EEA member state upon its departure from the EU, the stock exchanges / regulated markets located there will consequently also lose their status as EEA stock exchanges / regulated markets. In this regard, we would like to point out the following stock exchanges and regulated markets located in the UK:**

**Cboe Europe Equities Regulated Market – Integrated Book Segment, London Metal Exchange, Cboe Europe Equities Regulated Market – Reference Price Book Segment, Cboe Europe Equities Regulated Market – Off-Book Segment, London Stock Exchange Regulated Market (derivatives), NEX Exchange Main Board (non-equity), London Stock Exchange Regulated Market, NEX Exchange Main Board (equity), Euronext London Regulated Market, ICE FUTURES EUROPE, ICE FUTURES EUROPE - AGRICULTURAL PRODUCTS DIVISION, ICE FUTURES EUROPE - FINANCIAL PRODUCTS DIVISION, ICE FUTURES EUROPE - EQUITY PRODUCTS DIVISION and Gibraltar Stock Exchange**

**In these fund regulations, they shall explicitly be regarded as selected stock markets or recognized regulated markets of a third country within the meaning of the 2011 Austrian Investment Fund Act and the UCITS Directive.**

#### 2. Stock exchanges in European states which are not members of the EEA
