What is this product?

Type

The product is a unit of the sub-fund Liquidity Mgmt - USD (the sub-fund), which is part of Syz AM (CH) (the "Fund"), a contractual investment fund of the "other funds for traditional investments" category.

Term

The Fund has no maturity date. The Fund could be closed under the conditions set down in the current prospectus of the Fund.

Objectives

Investment Objective

The aim of the sub-fund ("Fund") is to achieve a stable, appropriate return. For this purpose, the Fund invests in debt securities and easily tradable assets of worldwide obligors of all kinds (corporate, government or other) with a maximum term of 12 months and denominated in US dollars (USD). The Sub-fund qualifies as a "money market fund" pursuant to the SFAMA Guidelines for Money Market Funds of 6 June 2012.

Investment Policy

The Fund may invest in floating and fixed-rate debt securities.

Investments must have a first-class rating. Money market instruments must have one of the two highest short-term credit ratings from each of the recognised ratings agencies valuing the instrument. If the instrument does not have a rating, the Fund management company's internal rating procedure shall be considered equivalent. For government issues in accordance with Art. 74 (2) (a-i) of the Collective Investment Schemes Ordinance (CISO), an investment grade rating is sufficient.

The Fund may use complex financial instruments (e.g. derivatives) and collective investment schemes.

Share Class Policy:

Unit class income may be distributed annually.

The Fund has several share classes. These may differ with regard to fees, minimum investment, use of revenues and investor qualification.

Processing of subscription and redemption orders

Investors may buy or sell the Fund on any banking day in Zurich.

Intended retail Investor

This Fund is aimed at retail and professional clients and eligible counterparties, who are seeking capital accumulation across categories and have a short-term investment horizon. This Fund is aimed at investors with basic knowledge or experience of financial products. The investor is prepared to bear financial losses and does not require any capital guarantees.

Depository

The custodian is State Street Bank International GmbH, Munich, Zurich branch, Beethovenstrasse 19, 8002 Zurich.

Further Information

Please refer to the "Other relevant information" section below.

Unless otherwise defined in this document, all words and expressions defined in the Fund's current prospectus shall have the same meaning herein.

What are the risks and what could I get in return?

Risk Indicator

Lower risk

Higher risk

The risk indicator assumes you keep the product for 1 years.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose

money because of movements in the markets or because we are not able to pay you.

We have classified this product as 1 out of 7, which is the lowest risk class. This rates the potential losses from future performance at a very low level, and poor market conditions are very unlikely to impact our capacity to pay you.

Be aware of currency risk. If you choose a foreign currency share class you will be exposed to currency risk and your final return will depend on the exchange rate between the foreign currency and your local currency. The risk is not considered in the indicator shown above.

You can find more information about the other risks in the prospectus at www.carnegroup.com.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

Recommended holding period:	1 years	
Example Investment:	USD 10 000	
	If you exit after 1 year	
Scenarios		
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.	
Stress	What you might get back after costs	USD 9 400
	Average return each year	-6.00%
Unfavourable	What you might get back after costs	USD 9 770
	Average return each year	-2.30%
Moderate	What you might get back after costs	USD 9 920
	Average return each year	-0.80%
Favourable	What you might get back after costs	USD 10 330
	Average return each year	3.30%

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: This type of scenario occurred for an investment between June 2021 and June 2022.

Moderate scenario: This type of scenario occurred for an investment between January 2017 and January 2018.

Favourable scenario: This type of scenario occurred for an investment between March 2023 and March 2024.

What happens if Carne Global Fund Managers (Switzerland) Ltd. is unable to pay out?

The assets and liabilities of the Sub-fund are segregated from those of the other sub-funds and from those of the manufacturer or the custodian. If the SICAV is not able to pay you out what is due, you may lose your entire investment. No investor guarantee nor compensation scheme is foreseen in that eventuality.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario

- USD 10 000 is invested

	If you exit after 1 year
Total costs	USD 266
Annual cost impact (*)	2.7%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 1.9 % before costs and -0.8 % after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	2.00% of the amount you pay in when entering this investment. This is the maximum and in some cases you might pay less.	Up to USD 200
Exit costs	There is no exit fee for this product, but the person selling you the product may charge such fee.	USD 0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.32% of the value of your investment per year. This is an estimate based on actual costs over the last year.	USD 32

Transaction costs	0.34% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	USD 34
Incidental costs taken under specific conditions		
Performance fees (and carried interest)	There is no performance fee for this product.	USD 0

(*) For products with performance fees, the actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years.

How long should I hold it and can I take money out early?

Recommended holding period: 1 years

Recommendation: this fund may not be appropriate for investors who plan to withdraw their money within 1 years. You may buy or sell shares in the product, without penalty, on any normal business day as further documented in the fund's documents. Please contact your broker, financial adviser or distributor for information on any costs and charges relating to the sale of the shares. If you cash in at an early stage this might increase the risk of lower investment returns or a loss.

How can I complain?

If you have any complaints about the product, the conduct of the manufacturer or the person advising on the product, complaints can be lodged via the following methods: E-mail: complaints@carnegroup.com, Mail: Carne Global Fund Managers (Switzerland) Ltd., Beethovenstrasse 48, 8002 Zurich.
