

Key Investor Information

This document provides you with key investor information about this collective investment. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this collective investment. You are advised to read it so you can make an informed decision about whether to invest.

UBS (CH) Investment Fund – Money Market CHF, a sub-fund of **UBS (CH) Investment Fund, class I-3.5 (ISIN: CH0048799131)**

This sub-fund is managed by UBS Fund Management (Switzerland) AG, a subsidiary of UBS AG.

Objectives and Investment Policy

We invest in government and corporate money market instruments that typically have between 30 and 150 days to maturity. These money market instruments are mainly issued in CHF.

Most of the fund assets are invested in money market instruments from issuers with good (investment grade) credit ratings. The instruments have low sensitivity to interest rates, which means that their prices respond quite weakly to changes in interest rates.

Investors may demand to redeem their units from the fund management company every normal bank business day in Switzerland.

The collective investment's net income will be paid out to investors each year, within four months of the end of the previous financial year.

Risk and Reward Profile

More about this rating

- The risk indicator is an uncertain estimate of the future performance of the collective investment. The method used for this estimation method depends on the type of fund.
- Historical data may not be a reliable indication for the future.
- The risk category shown is not guaranteed and may vary over time.
- The lowest category does not mean 'risk free'.

Why is this collective investment in category 1?

The collective investment is in category 1 because the volatility of its returns is extremely low.

Further material risks:

- High investment grade bonds are usually subject to a low credit risk.

Charges

The charges you pay are used to pay the costs of running the sub-fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest ¹	
Entry charge	6.00%
Exit charge	2.00%
Costs debited to the fund over the year	
Ongoing charges	0.04%
Costs debited to the fund under certain conditions	
Performance fee	none

¹ This is the maximum that might be taken out of your money.

The **entry charge** and **exit charge** shown are maximum figures. In some cases you might pay less – you can find this out from your financial adviser.

The **ongoing charges** figure is based on expenses for the year ending 2012. This figure may vary from year to year. It generally excludes:

- Performance fees
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the sub-fund when buying or selling units in another collective investment undertaking

You can find further information on costs in the prospectus under section 5.3 "Remuneration and incidental costs". You can find this at www.ubs.com/funds.

Past Performance

■ I-3.5 – CH0048799131

Performance in the past is not a reliable indicator of future results

The chart shows the class's investment returns, calculated as a percentage change in the class's net asset value from the end of one year to the end of the next, in the class's currency. In general, any past performance takes account of all ongoing

charges but not the entry charge. If the collective investment is managed against a benchmark, its return is also shown.

The class was launched on 07.05.2010.

The past performance of this sub-fund is calculated in CHF.

Practical Information

Depositary

UBS AG, Basel and Zurich
