Date of Production of the KID: 07/03/2024

You are about to purchase a product that is not simple and may be difficult to understand

What is this product?

Type

The Product is a share of the Sub-fund Wellington Global Property Income Fund (the "Fund") which is part of the Wellington Management Funds (Luxembourg) III SICAV (the "Umbrella Fund"), an open-ended investment fund with variable capital (société d'investissement à capital variable) of the umbrella type and is authorised under Part I of the 2010 Law and qualifies as UCITS under Article 1. paragraph 2) points a) and b) of the Directive.

Term

The Umbrella Fund and the Fund do not have a fixed term or maturity period, but the Management Company, with the approval of the Depositary, is entitled to give notice of the Umbrella Fund's dissolution at any time. In the event that the Management Company considers that changes in the political, economic, military, regulatory or business environments, or reductions in the scale of a Fund's total net assets compromise the effective management of a Fund, then the Management Company is empowered to liquidate the Fund at any time.

Objectives

The Fund seeks long term total returns.

The Fund will be actively managed in excess of the FTSE EPRA/NAREIT Dividend+ Index (the "Index"), with an additional focus on regular income by primarily investing either directly or indirectly, in companies, globally, with activities in or related to the development, operation, service and/or ownership of real estate including Real Estate Investment Trusts ("REITs"). The Fund does not directly purchase property.

The investment approach is based on independent, bottom-up, research combined with top-down analysis of the real estate market, seeking companies believed to have attractive valuation metrics (including those with an attractive dividend yield), management teams with a disciplined investment strategy, an ability to deliver high levels of rent growth and occupancy relative to the real estate market, and a strong balance sheet able to fund future external growth and increase dividends. The Fund will aim to declare dividend income between 3%-5%, of its Net Asset Value in USD terms, per year. Top-down analysis is based on three broad components: macroeconomic trends (those affecting supply and demand for real estate within regions), capital markets expectations (return expectations of companies across broad equity and fixed income markets), and private real estate market trends (understanding the impact private markets investments have on public real estate companies). Geographic and sector weightings are typically most influenced by the bottom-up stock selection process, though they are also impacted by the top-down evaluation of the real estate market.

The Index may be considered during portfolio construction and is used for performance comparison purposes. Fund securities may be components of the Index but are not expected to have similar weightings. The Investment Manager uses broad tolerance ranges when considering how regional and security

weightings differ from the Index, however this should not be expected to limit the Fund's ability to achieve performance that is materially different from the Index. The Index is designed to track the performance of listed real estate companies and REITs worldwide, that have a one-year forecast dividend of 2% or greater.

The Fund will invest, directly or through FDIs, in equity securities or securities with equity characteristics such as common stocks, depositary receipts or REIT securities. The Fund may invest in securities across the market capitalisation spectrum, and in securities issued by issuers located in what the Investment Manager considers to be emerging markets.

Derivatives may be used to hedge (manage) risk and for investment purposes (such as gaining exposure to a security).

Although the Fund does not have a specific sustainable investment objective, the Investment Manager supports environmental characteristics, the Fund will invest in companies and REITs rated 1-3 for environmental practices (E) vs their industry peers, on a rating scale of 1-5 where 1 is the highest rating, for at least 75% of the Fund's net assets.

The currency of this Share class is different to the base currency of the Fund and so the performance of the Share class will be subject to the impact of the movement of the exchange rate between the currencies.

Income policy

The Share class will normally pay dividends from income monthly. The level of investment income generated by the Fund is not guaranteed and is dependent on market conditions. If the level of income is deemed insufficient, dividends may be paid from capital forgoing potential capital growth and eroding capital, potentially until all capital is depleted.

Dealing Frequency

Shares can be bought or sold daily in accordance with the Prospectus. The base currency of the Fund is USD.

Intended retail investor

The Fund is intended for basic retail investors with a long-term investment horizon seeking capital appreciation, alongside regular income, and who are able to bear capital loss. Investors in the Fund should be prepared to accept, in normal market conditions, a high degree of volatility of net asset value from time to time. The Fund is suitable as an investment in a well-diversified portfolio. Investors in the Fund should be aware that, as set out in the Fund's Distribution Policy, dividends may be declared out of the capital of the Fund.

Depositary

State Street Bank International GmbH Luxembourg Branch.

Further Information

Please refer to the 'Other relevant information' section below.

What are the risks and what could I get in return?

Risk Indicator

The risk indicator assumes you keep the product for 5 years.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

You may not be able to cash in early. You may have to pay significant extra costs to cash in early.

You may not be able to sell your product easily or you may have to sell at a price that significantly impacts on how much you get back.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this Fund as 4 out of 7 which is a medium risk class. This rates the potential losses from future performance at a medium level. Poor market conditions could affect the value of your investment.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Please refer to the Prospectus for full details about any other risks materially relevant to the fund not included in the summary risk indicator such as liquidity, sustainability and operational risk.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and the suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Recommended holding period:		5 years	
Example Investment:		90,000 HKD	
		If you exit after 1 year	If you exit after 5 years
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	10,640 HKD	13,220 HKD
	Average return each year	-88.18%	-31.86%
Unfavourable	What you might get back after costs	64,290 HKD	67,940 HKD
	Average return each year	-28.57%	-5.47%
Moderate	What you might get back after costs	89,950 HKD	115,280 HKD
	Average return each year	-0.06%	5.08%
Favourable	What you might get back after costs	112,590 HKD	143,450 HKD
	Average return each year	25.10%	9.77%

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: This type of scenario occurred for an investment using the benchmark as stated in the prospectus between 2022 and 2023.

Moderate scenario: This type of scenario occurred for an investment using the benchmark as stated in the prospectus between 2015 and 2020.

Favourable scenario: This type of scenario occurred for an investment using the benchmark as stated in the prospectus between 2016 and 2021.

What happens if Wellington Luxembourg S.à r.l. is unable to pay out?

The assets of the Fund are held in safekeeping by its depositary. In the event of the insolvency of the Management Company, the Fund's assets in the safekeeping of the Depositary will not be affected. However, in the event of the Depositary's insolvency, or someone acting on its behalf, the Fund may suffer a financial loss. However, this risk is mitigated to a certain extent by the fact the Depositary is required by law and regulation to segregate its own assets from the assets of the Fund. The Depositary will also be liable to the Fund and the investors for any loss arising from, among other things, its negligence, fraud or intentional failure properly to fulfil its obligations (subject to certain limitations).

There is no compensation or guarantee scheme protecting you from a default of the Fund's depositary.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the 5 year holding period we have assumed the product performs as shown in the moderate scenario
- 90,000.00 HKD

	If you exit after 1 year	If you exit after 5 years
Total costs	6,456 HKD	19,007 HKD
Annual cost impact (*)	7.2%	3.3% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 8.4 % before costs and 5.1 % after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

These figures include the maximum distribution fee that the person selling you the product may charge. This person will inform you of the actual distribution fee.

Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	5.00% of the amount you pay in when entering this investment.	Up to 4,500 HKD
Exit costs	We do not charge an exit fee for this product, but the person selling you the product may do so.	0 HKD
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.84% of the value of your investment per year. This is an estimate based on actual costs over the last year.	1,656 HKD
Transaction costs	0.33% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	300 HKD
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	0 HKD

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

This product has no required minimum holding period but is designed for long-term investment; you should have an investment horizon of at least 5 years.

The Management Company shall redeem shares of this Fund at the redemption price on each dealing day. Redemptions of the applicable Fund will be effected at the valuation point on the relevant dealing day. The price is based on the net asset value per share of each class determined at the valuation point. Redemption requests received after the dealing deadline will be treated as having been received by the following dealing deadline unless otherwise determined by the Management Company.

Please contact your broker, financial adviser or distributor for information on any costs and charges relating to the sale of the shares.

How can I complain?

If you choose to invest in the Fund and subsequently have a complaint about it or the Management company or any distributor of the Fund, you should in the first instance contact:

- the Transfer Agent on +353 1 242 5452, via email at WellingtonGlobalTA@statestreet.com
- the Management Company by post at 33, Avenue de la Liberté L-1931 Luxembourg, Grand Duchy of Luxembourg.
